Contents

Fact and theory in economics xi

The use of this book xiii

Notes on the fifth edition xix

Part 1 Scope and method

1 Introduction 3

2 The tools of theoretical analysis 18

APPENDIX Some common techniques for theoretical analysis 29

3 The tools of statistical analysis 37

APPENDIX Graphing economic observations 49

4 The problems of economic theory 52

5 A general view of the price system 60

Part 2 The elementary theory of price

6 Basic concepts of price theory 69

7 The elementary theory of demand and supply 77

8 The theory of the behaviour of individual competitive markets 93

9 Elasticity of demand and supply 101

APPENDIX A formal analysis of elasticity 114

10 Some predictions of the theory of price 117

11 The elementary dynamic theory of price 139

12 A postscript and a preview 144

Part 3 The intermediate theory of demand

- 13 Effects of changes in prices and incomes 149
- APPENDIX A formal analysis of the budget line 156
- 14 Theories of household demand 158
- 15 The theory of demand: measurements and tests 178

Part 4 The intermediate theory of supply

- 16 Background to the theory of supply 197
- 17 The theory of costs 205
- 18 The equilibrium of a profit-maximizing firm 236
- 19 The theory of perfect competition 243
- 20 The theory of monopoly 261
- 21 Theories of imperfect competition 277
- 22 Some predictions of the theories of competition and monopoly 289
- 23 Monopoly versus competition: predictions about performance 305
- 24 Criticisms and tests of the theory of supply 322

Part 5 The theory of distribution

- 25 The demand for and supply of factors of production 343
- 26 The pricing of factors in competitive markets 361
- 27 Wages and collective bargaining 372
- 28 Interest and the return on capital 386
- 29 Criticisms and tests of the theory of distribution 401

Part 6 The economy as a whole

- 30 Successes and failures of the price system 417
- 31 Microeconomic policy 432

Part 7 The circular flow of income

- 32 The circular flow of income and the concept of national income 453
- 33 The determination of national income 471
 - APPENDIX The effect of lags on the path of national income 494
- 34 Some predictions of the simple theory of national income 496
- 35 The consumption function 513
- 36 Investment 523
- 37 Fluctuations in national income 535
- 38 Government and the circular flow of income 546

Part 8 The importance of money in the circular flow

- 39 The nature and history of money 573
- 40 The banking system and the supply of money 590
- 41 The importance of money 608
 - APPENDIX The classical quantity theory of money 622

Part 9 The international economy

- 42 The gains from international trade 627
- 43 The theory of exchange rates 636
 - APPENDIX More on exchange rates 652
- 44 Tariffs and the gains from trade 659
- 45 Twentieth-century international monetary systems 671

Part 10 Growth and development

- 46 Economic growth 689
- 47 Growth and underdeveloped economies 710

Part 11 Macroeconomic policy

- 48 Goals and instruments of macro-policy 731
- 49 The closure of the circular flow model 747
- 50 Policy issues and debates 767

Index 794
