

# The Decline of US Labor Unions and the Role of Trade

**Robert E. Baldwin**

Institute for International Economics  
Washington, DC  
June 2003

# Contents

<b>Preface</b>	<b>ix</b>
<b>Acknowledgments</b>	<b>xiii</b>
<b>1 Overview</b>	<b>1</b>
<b>2 Trends in National and Regional Unionization Rates and in Union Versus Nonunion Wages</b>	<b>7</b>
National Trends in Unionization	7
Regional Trends in Unionization	10
Trends in the Earnings of Union Relative to Nonunion Workers	10
<b>3 Changes in Unionization Rates: A Decomposition Analysis</b>	<b>15</b>
Industry Effects on the National Rate of Unionization	16
Industry Effects on Regional Unionization Rates in Manufacturing	19
Regional Effects on the National Unionization Rate in Manufacturing	23
<b>4 The Effects of Trade and Other Economic Factors on the Rate of Unionization: An Analytical Review</b>	<b>27</b>
Increases in Trade and Foreign Direct Investment	28
Technological Changes	30
Relative Shifts in the Demand for Goods and Services	31
Changes in the Relative Supply of Basically Educated Versus More-Educated Labor	32
Net Effects of the Four Economic Forces	33

<b>5</b>	<b>Estimating the Impact of Increased Trade on the Employment of Union and Nonunion Workers</b>	<b>37</b>
	Statistical Model	37
	Data Issues	40
	Summary Statistics	42
	Regression Results	45
	Total Employment Effects	57
<b>6</b>	<b>Conclusions</b>	65
	Main Findings	65
	The Need for More Extensive Worker Assistance Programs	69
<b>Appendix A</b>	<b>Data Sources</b>	<b>73</b>
<b>Appendix B</b>	<b>List of Industries in the Database</b>	<b>75</b>
	<b>References</b>	<b>81</b>
	<b>Index</b>	<b>83</b>
	<b>Tables</b>	
Table 2.1	Proportion of unionized workers by product sector and educational level, 1977-97	
Table 2.2	Distribution of unionized workers across product sectors and educational levels, 1977-97	9
Table 2.3	Proportion of unionized workers in manufacturing by region and year, 1977-97	11
Table 2.4	Earning levels and ratios of union and nonunion workers by sector and educational level, 1977-97	12
Table 3.1	Estimated changes in unionization rates due to within-industries shifts in unionization rates and between-industries shifts in employment, 1977-87 and 1987-97	18
Table 3.2	Estimated percent distribution of changes in regional unionization rates in manufacturing due to within-industries and between-industries shifts in employment, 1977-87 and 1987-97	20
Table 3.3	Regional distribution of change in national unionization rate in manufacturing due to within-regions shifts in unionization rates and between-regions shifts in employment shares, 1977-87 and 1987-97	24
Table 5.1	Summary statistics for manufacturing, 1977-87 and 1987-97	43
Table 5.2	Summary statistics for goods and services sectors, 1977-87 and 1987-97	44
Table 5.3	Employment changes by union status regressed on changes in domestic spending, imports, exports, and labor coefficients, 1977-87 and 1987-97	46

Table 5.4	Employment changes by education level and union status regressed on changes in domestic spending, imports, exports, and labor coefficients, 1977-87 and 1987-97	47
Table 5.5	Comparison of initial ratios of union to nonunion employment and ratios of changes in union to nonunion employment associated with trade changes and education level, 1977-87 and 1987-97	49
Table 5.6	Estimated employment changes by union status associated with changes in domestic spending, imports, exports, and labor coefficients, 1977-87 and 1987-97	58
Table 5.7	Estimated employment changes by education level and union status associated with changes in domestic spending, imports, exports, and labor coefficients, 1977-87 and 1987-97	61
