2.1. Theories of underwriter compensation		9
2.2. Empirical evidence on IPO gross spreads		11
2.3. Alternative forms of IPO underwriter compensation		16
2.4. Research on collusion in IPO gross spreads		17
3. Summary of the three essays *		20
References		25

ESSAY 1:

WHAT DETERMINES IPO GROSS SPREADS IN EUROPE?	29
--	----

1. Introduction	•	" 3 0
2. The data		32
3. The determinants of gross spreads		39
3.1. The size of the IPO		39
3.2. Other offering characteristics		42
3.3. Market characteristics		44
3.4. Underwriter characteristics		45
3.5. Control variables: country, industry, and timing effects		46
4. Conclusions		47
References		50

ESSAY 2:

WHAT EXPLAINS THE CLUSTERING OF IPO GROSS SPREADS?	53
--	----

1. Introduction		54
2. Evidence on the clustering of gross spreads		56 ->
2.1. The data		56
2.2. Clustering on a country-by-country basis		58
3. What explains variation in the clustering patterns?		64
3.1. Theoretical background		64
3.2. Country level analysis		65
3.2.1. Mode gross spread		66
3.2.2. Level of underwriter competition		69
3.2.3. Benchmark spread data availability		70
3.2.4. IPO size		71
3.2.5. Average underpricing		72
3.2.6. Analyst activity		73
3.2.7. Privatizations		73
3.2.8. Bid-ask spread		75
3.2.9. Legal framework		76
3.2.10. Underwriting system used		77
3.3. Industry level analysis		77
3.4. Robustness checks		80
4. Discussion and conclusions		81
References		85
Appendix		88

ESSAY 3:	
WHAT DETERMINES THE DISTRIBUTION OF FEES	
WITHIN THE IPO SYNDICATE?	95
1. Introduction	96
2. The institutional setting	99
2.1. The distribution of fees within the syndicate	99
2.2. Why does the IPO syndicate still exist?	104
3. The data	106
3.1. The sample	106
3.2. The frequency of the 20/20/60 split and the effect of roundings	107
3.3. Descriptive statistics	108
4. Determinants of the gross spread components	114
4.1. Regression analysis	114
4.2. Robustness checks	119
5. Discussion and conclusions	119
References	122
