An introduction by the editors to both volumes appears in Volume I

PART I CONDITIONAL HETEROSKEDASTICITY

1. Tim Boilerslev, Ray Y. Chou and Kenneth F. Kroner (1992), 'ARCH Modeling in Finance: A Review of the Theory and Empirical Evidence' *Journal of Econometrics*, 52 (1/2), 5-59
2. Robert F. Engle and Kenneth F. Kroner (1995), 'Multivariate Simultaneous Generalized ARCH', *Econometric Theory*, 11, 122-50 58
3. Richard T. Baillie, Tim Boilerslev and Hans Ole Mikkelsen (1996), 'Fractionally Integrated Generalized Autoregressive Conditional Heteroskedasticity', *Journal of Econometrics*, **74** (1), 3-30 87

PART II STOCHASTIC VOLATILITY

4. Esther Ruiz (1994), 'Quasi-maximum Likelihood Estimation of Stochastic Volatility Models', *Journal of Econometrics*, 63 (1), 289-306 117
5. Andrew Harvey, Esther Ruiz and Neil Shephard (1994), 'Multivariate Stochastic Variance Models', *Review of Economic Studies*, 61 (2), April, 247-64 135
6. Bruce E. Hansen (1995), 'Regression with Nonstationary Volatility', *Econometrica*, 63 (5), September, 1113-32 153
7. Andrew Harvey and Mariane Streibel (1998), 'Testing for a Slowly Changing Level with Special Reference to Stochastic Volatility', *Journal of Econometrics*, 87 (1), November, 167-89 173
8. Sangjoon Kim, Neil Shephard and Siddhartha Chib (1998), 'Stochastic Volatility: Likelihood Inference and Comparison with ARCH Models', *Review of Economic Studies*, 65 (3), July, 361-93 196
9. F. Jay Breidt, Nuno Crato and Pedro de Lima (1998), 'The Detection and Estimation of Long Memory in Stochastic Volatility', *Journal of Econometrics*, 83 (1-2), 325-48 229

PART III UNOBSERVED COMPONENTS

10. Agustin Maravall and Christophe Planas (1999), 'Estimation Error and the Specification of Unobserved Component Models', *Journal of Econometrics*, 92 (2), October, 325-53 255
11. Andrew Harvey and Siem Jan Koopman (2000), 'Signal Extraction and the Formulation of Unobserved Components Models', *Econometrics Journal*, 3, January, 84-107 284

PART IV TREND FUNCTION ANALYSIS

- 12. Eugene Canjels and Mark W. Watson (1997), 'Estimating Deterministic Trends in the Presence of Serially Correlated Errors', *Review of Economics and Statistics*, 79, 184-200 311
- 13. Timothy J. Vogelsang (1998), 'Trend Function Hypothesis Testing in the Presence of Serial Correlation', *Econometrica*, 66 (1), January, 123-48 328

PART V PREDICTION

- 14. Kenneth D. West (1996), 'Asymptotic Inference about Predictive Ability', *Econometrica*, 64 (5), September, 1067-84 357
- 15. Todd E. Clark and Michael W. McCracken (2001), 'Tests of Equal Forecast Accuracy and Encompassing for Nested Models', *Journal of Econometrics*, **105**, 85T-110 375

PART VI SEASONALITY

- 16. Eric Ghysels, Clive W.J. Granger and Pierre L. Siklos (1996), 'Is Seasonal Adjustment a Linear or Nonlinear Data-Filtering Process?', *Journal of Business and Economic Statistics*, 14 (3), July, 374-86 403
- 17. Denise R. Osborn (1991), 'The Implications of Periodically Varying Coefficients for Seasonal Time-Series Processes', *Journal of Econometrics*, 48 (3), June, 373-84 416
- 18. S. Hylleberg, R.F. Engle, C.W.J. Granger and B.S. Yoo (1990), 'Seasonal Integration and Cointegration', *Journal of Econometrics*, **44(1/2)**, 215-38 428
- 19. Richard J. Smith and A.M. Robert Taylor (1999), 'Likelihood Ratio Tests for Seasonal Unit Roots', *Journal of Time Series Analysis*, **20(4)**, 453-76 452
- 20. H. Peter Boswijk and Philip Hans Franses (1996), 'Unit Roots in Periodic Autoregressions', *Journal of Time Series Analysis*, 17 (3), May, 221-45 476

PART VII CAUSALITY

- 21. Hafida Boudjellaba, Jean-Marie Dufour and Roch Roy (1992), 'Testing Causality Between Two Vectors in Multivariate Autoregressive Moving Average Models', *Journal of the American Statistical Association*, 87 (420), December, 1082-90 503
- 22. Helmut Lutkepohl and D.S. Poskitt (1996), 'Testing for Causation Using Infinite Order Vector Autoregressive Processes', *Econometric Theory*, 12 (1), March, 61-87 512
- 23. Clive W.J. Granger and Jin-Lung Lin (1995), 'Causality in the Long Run', *Econometric Theory*, **11(3)**, August, 530-36 539
