

OECD Proceedings

International Science and Technology Co-operation

TOWARDS SUSTAINABLE DEVELOPMENT

Proceedings of the OECD Seoul Conference,
November 2000

ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

TABLE OF CONTENTS

Part I. OPENING SPEECHES

- Chapter 1.* International Science and Technology Co-operation for Global Sustainability
Jung Uck Seo 11
- Chapter 2.* The Role of Technology and Innovation for Sustainable Development:
The OECD Policy Approach
Herwig Schlögl 17

Part II. KEYNOTE PRESENTATIONS

- Chapter 3.* International Science and Technology Co-operation for Sustainable
Development: The Developing Country Perspective
Ma Songde 25
- Chapter 4.* International Science and Technology Co-operation for Sustainable
Development: A Developed Country Perspective
Lord Sainsbury 29
- Chapter 5.* International Science and Technology Co-operation for Sustainable
Development: An Industry Perspective
Parry M. Norling 33

Part III. INTERNATIONAL CO-OPERATION FOR THE DEVELOPMENT OF S&T INFRASTRUCTURE FOR SUSTAINABLE DEVELOPMENT

- Chapter 6.* Accessing Appropriate Scientific Knowledge and Building Adequate Scientific and
Technical Skills for Sustainable Development
Won-Hoon Park 39
- Chapter 7.* International Co-operation in R&D in Energy and Environment
Yoichi Kaya 51

**Part IV. INTERNATIONAL CO-OPERATION FOR DEVELOPING AND DIFFUSING
CLEANER TECHNOLOGY**

<i>Chapter 8. Developing and Diffusing Cleaner Technology: General Review and Assessment</i> <i>Frans Verspeek</i>	61
<i>Chapter 9. Developing and Diffusing Cleaner Technology: Experiences and Practical Issues</i> <i>Rajendra M. Shende</i>	71
<i>Chapter 10. The Transfer of Environmentally Sound Technologies (ESTs) for Climate Change from Developed to Developing Countries: A Summary of Six Country Studies</i> <i>Woodrow W. Clark II</i>	79
<i>Chapter 11. Barriers to International Technology Co-operation: Aspects Related to Energy Technology</i> <i>Xiulian Hu and Kejun Jiang</i>	89
<i>Chapter 12. Barriers and Drivers to International Sustainability Science and Technology Co-operation for Eco-efficiency and Cleaner Production</i> <i>Philippe Bergeron</i>	101

Part V. ROLE OF FINANCIAL INSTITUTIONS AND GOVERNMENT

<i>Chapter 13. The World Bank's Role in Science and Technology</i> <i>Lauritz Holm-Nielsen</i>	111
<i>Chapter 14. Effect of the Eco-Fund Mechanism on International Scientific and Technological Co-operation for Sustainable Development</i> <i>Mizue Tsukushi</i>	121
<i>Chapter 15. The Role of Governments in Technology Co-operation for Sustainable Development</i> <i>Karin Refsnes</i>	127

Part VI. ENERGY AND SUSTAINABLE DEVELOPMENT

<i>Chapter 16. The Climate Technology Implementation Plan in the South African Development Community and the Technology Co-operation Agreement Pilot Project in the Republic of Korea</i> <i>Dave Howard</i>	141
<i>Chapter 17. Promoting International Collaboration in R&D in Energy Technologies: How Policies Can Play a Catalytic Role</i> <i>Rajendra M. Shende</i>	153
<i>Chapter 18. Climate Technologies: Opportunities for Leap-frogging in Developing Countries</i> <i>Wolf-Dieter Glatzel</i>	161

<i>Chapter 19. Society's Preference: Where should Energy Come From and How to Promote Energy Saving?</i> <i>Charles Mehl</i>	173
---	-----

Part VII. TRANSPORT AND SUSTAINABILITY

<i>Chapter 20. Transport and Sustainable Development</i> <i>John White</i>	183
<i>Chapter 21. Recent and Future Trends for CO₂ Emissions by Road Transport: Technological Solutions to Increase Fuel Economy for Passenger Cars and Trucks</i> <i>Jean Delsey</i>	195
<i>Chapter 22. Environmental Impacts Related to Transport in Mexico with Special Emphasis on Highways</i> <i>Julieta Pisanty-Levy</i>	207
<i>Chapter 23. The South African-Netherlands Transport Forum: An Example of International Co-operation on Sustainable Transport</i> <i>Fred Heuer</i>	217
<i>Chapter 24. Transport and its Key Challenges</i> <i>Wolfgang Hübner</i>	225
<i>Chapter 25. Transportation-related Air Pollution Reduction Strategies and their Applications in Seoul</i> <i>Woon-Soo Kim</i>	231

Part VIII. WATER AND SUSTAINABLE DEVELOPMENT

<i>Chapter 26. China's Water Security Options: A Comprehensive Solution Involving Technology, Economics and Behaviour</i> <i>Zhiyun Ouyang, Rusong Wang, Hongzun Ren and Xiaoke Wang</i>	243
<i>Chapter 27. Scientific and Technological Co-operation for Sustainable Water Resource Management</i> <i>Manuel Dengo</i>	255
<i>Chapter 28. Promoting International Scientific and Technological Co-operation in Sustainable Water and Sanitation for People</i> <i>Richard Franceys</i>	261
<i>Chapter 29. Technology Development in Rural Water and Sanitation in Developing Countries</i> <i>Gordon Mumbo</i>	273
<i>Chapter 30. Environmental Indicators to Monitor the Sustainability of Pig Farms</i> <i>Euiso Choi</i>	285

Part IX. CLEANER TECHNOLOGY AND INDUSTRIAL SUSTAINABILITY

<i>Chapter 31. Obstacles to the Transfer of Cleaner Production Technology</i> <i>Sándor Kerekes</i>	297
<i>Chapter 32. Korea's Efforts towards Cleaner Production</i> <i>Chong-Chun Kim</i>	303
<i>Chapter 33. Cleaner Technologies and Industrial Sustainability</i> <i>Uno Abrahamsen</i>	313
<i>Chapter 34. Technology Innovation and Cleaner Production</i> <i>John Arseneau</i>	321
<i>Chapter 35. Environmental Conservation in the Fermentation Industry</i> <i>Minoru Yoshimura</i>	335
<i>Chapter 36. Environmental Information Systems (Envis) Supporting Sustainable Development</i> <i>Claus Rautenstrauch</i>	343
<i>Chapter 37. Rapporteur's Summary</i> <i>Frans Verspeek</i>	355
<i>Policy Recommendations</i>	367
