List of Essays • **vi**

Abstract **vii**

1 Introduction **1**

1.1 Calculating Implied Volatility 2

1.2 Brief Review of IV Literature 6

1.3 Methodology 8

1.4 Summaries of Essays 10

1.4.1 Modeling and Forecasting the VIX Index 10

1.4.2 Multiplicative Models for Implied Volatility 11

1.4.3 Joint Modeling of Call and Put Implied Volatility 13

1.4.4 Implied Volatility with Time-Varying Regime Probabilities . 14

2 Modeling and Forecasting the VIX Index **20**

2.1 Introduction 21

2.2 Data 25

2.2.1 The VIX index 25

2.2.2 Other data 26

2.3 Modeling the VIX 27

2.4 Forecasts 37

2.5 Option trading 40

2.6 Conclusions 45

3 Multiplicative Models for Implied Volatility 52
3.1 Introduction . . . 53
3.2 The mixture-MEM model . . . 54
3.3 Estimation . . . 57
3.3.1 Data . . . 57
3.3.2 Model estimation . . . 61
3.3.3 Diagnostics . . . 63
3.4 Forecasts . . . 68
3.5 Option trading . . . 74
3.6 Conclusions . . . 78

4 Joint Modeling of Call and Put Implied Volatility 83
4.1 Introduction . . . 84
4.2 The Markets for Call and Put Options . . . 87
4.3 The Model . . . 89
4.4 Estimation Results . . . 93
4.4.1 Data . . . 93
4.4.2 Model Estimation . . . 93
4.4.3 Diagnostics . . . 100
4.5 Impulse Response Analysis . . . 105
4.6 Forecasts . . . 108
4.7 Conclusions . . . 113

5 Implied Volatility with Time-Varying Regime Probabilities 119
5.1 Introduction . . . 120
5.2 The Model . . . 122
5.3 Estimation Results . . . 128
5.3.1 Data . . . 128
5.3.2 Model Estimation . . . 131
5.3.3 Diagnostics . . . 140
5.4 Forecasts . . . 142
5.5 Conclusions . . . 145
