CONTENTS

Preface xv

Chapter 1	Introduction: Definitions and Conceptions 1
	Organization: Elements, a Definition, and Images 2
	W. Richard Scott's Elements of Organization 2
	Richard Hall's Definition of Organization 5
	Gareth Morgan's Images of Organization 6
	Classical Social Theory and Organizational Analysis 10
	Karl Marx 10
	Emile Durkheim 11
	Max Weber 12
	Contemporary Social Theory and Organizational
	Analysis 14
	Structural Functionalism 14
	Conflict Theory 15
	Symbolic Interactionism 16
	Summary 18

Chapter 2	Conceptual Framework for the Analysis of
	Organization Theory 20
	Levels of Organizational Analysis and Transactions 20
	Tension #1: Controlling the Human Factor 22
	Organizational Behavior and the Human Factor 23
	Marxist Theory and the Unique Nature of Labor 23
	Philosophical Status of the Human Factor 24
	The Human Factor and the Reformulation of
	Organization Theory and Management Practice 25

Tension #2: Differentiation and Integration	28
The Technical Division of Labor: Intraorganizational Dynamics	29
The Social Division of Labor: Interorganizational Dynamics	32
A Note on Organizational Tensions and Ascribed Characteristics	33
Paradox: The Underlying Source of Organizational Tension	34
Models of Organizational Paradox	34
Three Cases of Organizational Paradox	38
Summary	40

Chapter 3 The Rise of the Factory System 42

Introduction	42
The Formal Subordination of Labor: Creating a Human Factor of Production	43
The Real Subordination of Labor: Disciplining the Human Factor	45
Traditional Habits and Cultures	46
Early Strategies and Assumptions	47
Scientific Management in Theory	50
Motivation for the Theory	50
The Principles and Stages	52
Assessment and Consequences	54
Scientific Management in Practice: The Hoxie Study	56
Scientific Management: The Broader Contest	61
Summary	62

Chapter 4 The Human Organization 64

The Hawthorne Revelations and Beyond	65
The Hawthorne Experiments: The Human Factor Observed	65
Interpreting the Results	67
Hawthorne and the Revision of Organization Theory	69
Roethlisberger and Dickson	69
Elton Mayo	71
Chester's World: Barnard's Theory of Organization and Management	73
The Organization and the Individual	74
Common Moral Purpose	75
Humanistic Management Practice	78
Human Relations and Human Needs	78
From Human Relations to Human Resources	79

Leadership	82
Beyond Legitimate Authority	84
Four Approaches to Leadership	85
Does Leadership Matter?	86
Summary	87

Chapter 5 Bureaucracy, Rationalization and Organization Theory 89

Weber and the Rational-Bureaucratic Model	89
Weber and the Dilemma of Authority	92
Bureaucratic Dysfunctions and Unintended Consequences	94
Robert Merton: The Bureaucratic Personality	94
Alvin Gouldner: Patterns of Industrial Bureaucracy	96
Peter Blau: Dynamics of Bureaucracy	99
Philip Selznick: Bureaucracy as Institution	102
Robert Jackall: Bureaucracy as a Moral Maze	103
Operationalizing the Rational Model: Administrative Science	105
Henri Fayol	106
James Mooney and Allen Reiley	106
Herbert Simon	107
Bureaucratic Rationalization and Domination	111
Arguments of Classical and Critical Social Theory	111
Bureaucratic Domination and Marxist Theory	113
Bureaucracy's Other Face	116
McDonaldization: Diffusion of the Bureaucratic Ethos	117
The Principles of McDonaldization	117
Application to Higher Education	118
The Charges against Bureaucracy	119
Summary	123

Chapter 6 Emerging Organizational Forms: Beyond Fordism 125

Fordism	126
Features of the Fordist Model	126
The Demise of Fordism	127
The Transition from Fordism to New Forms	129
Toward Alternative Manufacturing Models	131
Toyotaism	132
Lean Production: "The Machine That Changed the World"	135
Lean Production in Practice	138

The Flexibility Paradigm	147
Flexible Specialization	148
Lean and Mean, or Fat and Mean?	149
Forms of Flexibility	150
Summary	154

Chapter 7 Emerging Organizational Paradigms: Postbureaucracy, Culture, and Knowledge 156

Postbureaucratic Organization	156
The Postbureaucratic Organization in Theory	156
The Postbureaucratic Organization in Practice	160
Postbureaucracy and Physical Space	162
Postbureaucracy in Government	164
Organizational Culture	165
Levels of Culture	165
Is Culture an Emerging Form?	167
Engineering Strong Culture: The Work of Gideon Kunda	168
Culture as Paradigm and Managerial Strategy	172
Cultural Integration, Differentiation, and Fragmentation	175
The Learning Organization	176
Paul Senge's Five Disciplines	176
Analyzing Organizations as Systems	178
What's Happening on the Ground?	180
Summary	184

Chapter 8 Technology and Organizational Transformation 185

Technology and Organization Theory	186
Joan Woodward	186
Robert Blauner	187
James Thompson	188
Charles Perrow	188
Tavistock Institute	189
Entering the Age of the Smart Machine	191
Information Technology and Organizational Change	194
The Organizational Impact of Information Technology	195
Information Technology and Social Organization	196
Additional Consequences	199
The Virtual Organization	201
Definitions and Characteristics	201
Further Consequences	204
Summary	206

Chapter 9 The Environment and the Organization 208

Contingency Theory	210
Paul Lawrence and Jay Lorsch	210
Tom Burns and G.M. Stalker	213
Population Ecology Theory	214
The Concept of Population	214
Demographic, Ecological, and Environmental Processes	215
Structural Inertia	216
Resource Dependence Theory	217
Resource Dependence and Organizational Agency	217
Differentiation, the Task Environment, and Uncertainty	218
Strategies to Manage Resource Dependence	220
Money: The Ultimate Resource	221
Institutional Investors and Resource Dependence	224
Environmental Influences on Public-Sector Organizations	225
Institutional Theory	226
Organizations as Institutions	227
The Institutional Environment	228
Institutional Isomorphism	230
Institutional Pillars	231
Institutional Analyses of U.S. Corporate Strategy	232
Institutional Stability and Change	234
The Political-Economic Environment	237
The Capacity to Produce and the Capacity to Consume	237
The Social Structure of Accumulation	238
Geographic and Cross-National Variations in Organizational Environments	239
Business Systems as Organizational Environments	241
Summary	243

Chapter 10 Interorganizational Dynamics: Markets, Hierarchies, and Networks 245

The Markets and Hierarchies Approach	245
Markets and Transaction Costs	246
Hierarchies and Transaction Costs	247
Problems with the Vertically Integrated Hierarchy	250
Between Market and Hierarchy: Theoretical Rationales	251
Socially Embedded Economic Action	251
Dynamic Transaction Costs	253

To Vertically Disintegrate or Not to Vertically Disintegrate: GM and Delphi	254
Vertical Disintegration and Alternative Arrangements	257
Why Disintegrate?	257
Embedded Networks	257
Competitive Advantages of the Network Form	258
Alliance Capitalism: The Rise and Demise of theKeiretsu	261
The Spatial Dimension	265
Bringing Geography Back	265
Vertically Integrated and Spatially Concentrated	266
Vertically Integrated and Geographically Dispersed	267
Vertically Disintegrated and Spatially Dispersed	271
Vertically Disintegrated and Spatially Concentrated	272
Recent Developments: Supply Chains and Real Options	276
Summary	278

Chapter 11 The Future of Organization and Postmodern Analysis 280

Modernist and Postmodernist Approaches	280
Post-Modern Condition and Identity	282
Organizational Implications of Post-Modernism	284
BLUR: Post-Modernism Popularized	286
Fragmented Humans and Dedifferentiated Structures	288

Bibliography 291

Index 307
