<i>List of figures</i>	<i>x</i>
<i>List of tables</i>	<i>xiv</i>
<i>Preface</i>	<i>xvi</i>
1 The global view	1
1.1 Seven pictures of the world economy	1
1.2 What does globalization mean?	8
1.3 World gross product	12
1.4 Economic change in the world economy	15
1.5 A ranking of competitiveness	18
1.6 The global dimension	18
PART I	
The world goods and factor markets and economic growth	21
2 The world product markets	23
2.1 The world market equilibrium	23
2.2 The reduction of trade barriers and the world market equilibrium	28
2.3 Increase of labor supply and world market equilibrium	30
2.4 Increase of labor supply and factor income	33
2.5 The most important theorems	38
2.6 Demand shifts and world market equilibrium	39
2.7 Globalization of commodity markets and non-tradable goods	39
2.8 Imperfect competition	41
2.9 Intra-sectoral trade	43
2.10 Contestable markets	45
2.11 Hierarchy versus markets	47
2.12 Shifting comparative advantage and relocation	48

3	The factor markets in the world economy	49
3.1	<i>The world market for labor</i>	49
3.2	<i>The world market for capital</i>	52
3.3	<i>Global demand for capital interpreted as national excess demands</i>	59
3.4	<i>The relationship between national investment and national savings</i>	61
3.5	<i>The debt cycle: from net debtor to net creditor</i>	64
3.6	<i>The factor-price frontier</i>	66
3.7	<i>The world market for natural resources</i>	67
3.8	<i>Changes on factor markets and world market equilibrium</i>	68
4	Growth processes in the world economy	70
4.1	<i>Economic growth – the historical record</i>	70
4.2	<i>Global economic growth and cyclical movements</i>	71
4.3	<i>The driving forces of growth</i>	73
4.4	<i>Capital importers and exporters</i>	78
4.5	<i>How important is the openness of economies?</i>	82
4.6	<i>Localization factors</i>	84
4.7	<i>Empirical evidence: capital formation</i>	85
4.8	<i>Catching-up processes in the world economy: convergence or divergence?</i>	85
4.9	<i>Growth as a process</i>	92
4.10	<i>Particular topics of economic growth</i>	94
PART II		
	Monetary and financial markets	97
5	Global money and currency markets	99
5.1	<i>Global monetary equilibrium and national monetary policy</i>	99
5.2	<i>The exchange rate and purchasing power parity</i>	102
5.3	<i>Interest rate parity and portfolio equilibrium</i>	105
5.4	<i>Exchange rate overshooting</i>	105
5.5	<i>The role of expectations</i>	106
5.6	<i>Long-term purchasing power parity versus medium-term deviations: the empirical evidence</i>	108
5.7	<i>The three major currencies of the world</i>	114
6	Financial crises versus stable currencies	115
6.1	<i>An optimal portfolio</i>	115
6.2	<i>Speculative bubbles</i>	116
6.3	<i>The nominal and the real exchange rate</i>	120

6.4	<i>Some recent currency crises</i>	124
6.5	<i>How to prevent a financial crisis</i>	129
6.6	<i>The role of the IMF</i>	131
6.7	<i>Controlling capital flows</i>	136
6.8	<i>Stabilizing exchange rates: approaches for individual countries</i>	139
6.9	<i>Stabilizing exchange rates: multilateral approaches</i>	141

PART III

Regional dimensions of the world economy 149

7 Developing countries 151

7.1	<i>Characteristics of developing countries</i>	151
7.2	<i>Reasons for underdevelopment</i>	153
7.3	<i>Developing countries – newly industrializing countries – new industrialized countries: a broad spectrum</i>	156
7.4	<i>Development strategies</i>	156
7.5	<i>Institutional infrastructure</i>	158
7.6	<i>The debt crisis</i>	159
7.7	<i>Macroeconomic instability and Latin American countries</i>	161
7.8	<i>The real exchange rate once more: expenditure reduction and expenditure switching</i>	166

8 The transformation countries 169

8.1	<i>Rebuilding a centrally planned economy</i>	169
8.2	<i>The J-curve of transformation</i>	171
8.3	<i>The sequence of reform steps</i>	172
8.4	<i>Big bang or gradual adjustment?</i>	174
8.5	<i>Some central issues of economic policy</i>	175
8.6	<i>Foreign trade aspects of transformation</i>	180
8.7	<i>The transformation of East Germany</i>	183
8.8	<i>The experience in China</i>	185
8.9	<i>The disintegration of the Soviet Union</i>	186

9 Regional integration in the world economy 187

9.1	<i>Regional integration</i>	187
9.2	<i>Elementary theory of integration</i>	191
9.3	<i>Block formation as a step towards a multilateral order?</i>	193

10 The European Union	196
10.1 <i>The four freedoms and the Single Market</i>	196
10.2 <i>Fiscal federalism and the subsidiarity principle</i>	199
10.3 <i>Decision making in the European Union</i>	200
10.4 <i>Monetary union</i>	202
10.5 <i>Monetary union and the labor market</i>	209
10.6 <i>Eastern enlargement</i>	213
10.7 <i>Decision making in an enlarged Union</i>	217
 PART IV	
National economic policy versus a world economic order	221
 11 National protectionism versus world wide free trade	223
11.1 <i>Periods of protectionism and free trade</i>	223
11.2 <i>Arguments for trade policy interventions: protection of domestic production</i>	224
11.3 <i>Arguments for political trade interventions: the maximization of profits from external trade</i>	230
11.4 <i>Arguments for political interventions in trade: retortion as a necessary answer?</i>	234
11.5 <i>Arguments for interventions in trade: creating a level playing field</i>	235
11.6 <i>Arguments for a free international division of labor</i>	236
 12 Locational competition	241
12.1 <i>On the concept of locational competition</i>	241
12.2 <i>Channels of locational competition</i>	243
12.3 <i>Instruments of locational competition</i>	245
12.4 <i>Competition in taxes and public goods</i>	246
12.5 <i>The impact of locational competition on labor</i>	249
12.6 <i>A change in opportunity costs for national politics</i>	250
12.7 <i>Institutional competition</i>	251
12.8 <i>Locational competition – a race to the bottom?</i>	251
12.9 <i>Checking the Leviathan</i>	252
12.10 <i>Locational competition between the regions of the world</i>	253
 13 Using the national and the global environment	256
13.1 <i>The economic paradigm of the environment</i>	256
13.2 <i>Environmental abundance as a national factor endowment</i>	258
