

Analysing Labour Supply in a Life Style Perspective

Analyse van Arbeidsaanbod in een Leefstijlperspectief

PROEFSCHRIFT

Ter verkrijging van de graad van doctor
aan de Erasmus Universiteit Rotterdam
op gezag van de Rector Magnificus
Prof. dr. P.W.C. Akkermans M.A.
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op
vrijdag 16 juni 2000 om 13.30 uur

door

Maria Clasina Versarttvoort
geboren te Heeswijk-Dinther

Contents

Chapter One Introduction

1.1	Research setting	1
1.2	Background of study	2
1.3	Dealing with preference variation	6
1.4	Comparison with 'traditional' approach	10
1.5	• Economic aspects	12
1.6	Research questions	13
1.7	Research outline	14

Chapter Two Review of labour supply literature

2.1	Introduction	19
2.2	Labour supply theories	20
2.3	Empirical labour supply research	29
2.4	Concluding remarks I ;	40

Chapter Three Life style conceptualisation

3.1	Introduction	4 1
3.2	Nature	4 2
3.2.1	Weber and Adler	43
3.2.2	Psychographic approaches	45
3.2.3	Culturalist approaches	47
3.2.4	Sociographic approaches	48
3.2.5	Behavioural approaches	49
3.2.6	Status determining approaches	51
3.2.7	Environmental approaches	53
3.2.8	Mechanistic approaches	54
3.2.9	Reviewing	56
3.3	Other aspects	56
3.3.1	Dimensionality	57
3.3.2	Unit of association	58
3.3.3	Dependency	58
3.3.4	Dynamics	61
3.4	Review of aspects	62
3.5	The life style concept	63
3.5.1	Life style	64
3.5.2	Individual and environmental conditions	67
3.5.3	Socio-psychological characteristics	68
3.5.4	Micro and macro background characteristics	68
3.5.5	Behaviour	70
3.5.6	Processes	70
3.5.7	Choice	71
3.5.8	Life style and labour supply	73
3.6	Hypotheses	74
3.7	Concluding remarks	^

Chapter Four	Life style operationalisation	
4.1	Introduction	77
4.2	Toward an operational life style concept	78
4.2.1	Character	78
4.2.2	Orientations	80
4.2.3	Structure /	81
4.2.4	Measurement	83
4.3	Toward testing relations	87
4.3.1	Extended model B	87
4.3.2	Extended model C	89
4.3.3	Measurement	89
4.3.4	Data requirements	92
4.4	Concluding remarks	93
Chapter Five	Data	
5.1	Introduction	95
5.2	Proxies	96
5.3	Other characteristics	102
5.4	Comparison and concluding remarks	104
Chapter Six	Lisrel versus log-linear analysis	
6.1	Introduction	107
6.2	Conceptualisation and measurement	108
6.3	Measurement and estimation	109
6.4	Conceptualisation and estimation	110
6.4.1	Analysis with lisrel	111
6.4.2	Analysis with log-linear analysis with latent classes	113
6.5	Comparison	116
6.6	Concluding remarks	119
Chapter Seven	Tracing different types	
7.1	Introduction	121
7.2	Latent class modelling	122
7.2.1	The latent class model	122
7.2.2	Testing and fitting	125
7.2.3	Strength of association	128
7.3	Types of family orientation	129
7.3.1	Hypotheses regarding family orientation	129
7.3.2	Models of family orientation	131
7.3.3	Evaluation family orientation	139
7.4	Types of housing orientation	139
7.4.1	Hypotheses regarding housing orientation	139
7.4.2	Models of housing orientation	140
7.4.3	Evaluation housing orientation	143
7.5	Types of consumption orientation	144
7.5.1	Hypotheses regarding consumption orientation	144
7.5.2	Models of consumption orientation	146
7.5.3	Evaluation consumption orientation	149

7.6	Types of leisure orientation	149
7.6.1	Hypotheses regarding leisure orientation	149
7.6.2	Resampling DLO data	151
7.6.3	Different leisure interests	153
7.6.4	Models of leisure orientation	157
7.6.5	Evaluation leisure orientation	160
7.6.6	Connection DLO95 and SEP95	161
7.7	Types of life style	163
7.7.1	Hypotheses regarding life style	163
7.7.2	Models of lifestyle	164
7.8	Concluding remarks	170

Chapter Eight A modified lisrel approach

8.1	Introduction	173
8.2	General modified.lisrel model	174.
8.2.1	Model selection procedure	174
8.2.2	Estimation and conditional testing of submodels	177
8.3	Testing hypotheses	184
8.3.1	Using modified lisrel models	184
8.3.2	Using a modified path model with latent class scores	186
8.4	Odds ratio interpretations	188
8.5	Concluding remarks	198

Chapter Nine Effects of life style on labour supply

9.1	Introduction	205
9.2	Micro background - life style - labour supply	205
9.2.1	Explanation of odds ratios	205
9.2.2	Summarising odds interpretations	210
9.3	Willingness to work further specified	212
9.4	Concluding remarks	219

Chapter Ten Contextual influences

10.1	Introduction	221
10.2	Environmental conditions	222
10.3	Macro background	227
10.4	Concluding remarks	238

Chapter Eleven A dynamic perspective on life styles

11.1	Introduction	241
11.2	Age x Period x Cohort; Expectations	242
11.3	Different designs	243
11.4	Proposed model	243
11.4.1	Cohort table	243
11.4.2	Model selection	245
11.5	Concluding remarks	246

Chapter Twelve	Summary and General Conclusions	
12.1	Background	249
12.2	Life style concept	251
12.3	Life style measurement	254
12.4	Relations	258
12.5	Implications and notes	261
