|  |           |
|--|-----------|
| Preface  | xv        |
| Nomenclature   | xix       |
| <b>1 Electricity Regulation and Deregulation</b>                 | <b>1</b>  |
| 1.1. The Electricity Industry: Restructuring and Deregulation    | 1         |
| 1.2. From Monopolies to Markets                                  | 2         |
| 1.3. Why Restructuring and Deregulation Now?                     | 3         |
| 1.4. Regulation is Still Required                                | 4         |
| 1.5. What Lessons Can Be Learned from International Experiences? | 6         |
| 1.5.1. Starting Points and Motivations for Deregulation          | 9         |
| 1.5.2. Structural Changes and System Operation                   | 10        |
| 1.5.3. Design of Wholesale Markets and Market Institutions       | 11        |
| 1.5.4. Retail Competition and Customer Choice                    | 12        |
| 1.6. Conclusions   | 12        |
| <b>2 Electricity Economics</b>                                   | <b>15</b> |
| 2.1. What is a Market?   | 15        |
| 2.1.1. Competitive versus Noncompetitive Markets                 | 15        |
| 2.1.2. The Market Mechanism                                      | 16        |
| 2.1.3. Elasticity  | 18        |
| 2.2. Cost and Supply   | 20        |
| 2.2.1. Economic Cost versus Accounting Cost                      | 20        |
| 2.2.2. Total, Average, and Marginal Costs                        | 21        |
| 2.2.3. Economies and Diseconomies of Scale and Scope             | 24        |
| 2.3. Profit Maximization   | 25        |
| 2.3.1. What is Profit?   | 25        |
| 2.3.2. What is Economic Efficiency?                              | 29        |
| 2.4. Social Surplus: Consumer and Producer Surplus               | 29        |
| 2.5. Market Power and Monopoly                                   | 30        |
| 2.5.1. Maximizing Profit under Monopoly                          | 30        |
| 2.5.2. Deadweight Loss from Monopoly Power                       | 31        |

|   |           |
|---|-----------|
| 2.5.3. Response to the Exercise of Monopoly Power:<br>Regulation and Antitrust  | 32        |
| Exercise 2.1. Linear and Logarithmic Demand Functions                           | 34        |
| Exercise 2.2. A Shift in Demand and a New Equilibrium Price<br>(a Cobweb Model) | 35        |
| Exercise 2.3. Returns to Scale in Production and Cost                           | 37        |
| Exercise 2.4. Calculating a Regulated Tariff                                    | 40        |
| Exercise 2.5. Calculating Social Surplus under Competition<br>and Regulation    | 41        |
| Exercise 2.6. Calculating Deadweight Loss under Monopoly                        | 42        |
| <b>3 The Cost of Capital</b>  | <b>43</b> |
| 3.1. What is the Cost of Capital?   | 43        |
| 3.2. Net Present Value  | 45        |
| 3.2.1. Discounting to the Present   | 46        |
| 3.2.2. Net Present Value  | 48        |
| 3.2.3. Assessing Cash Flows under the Net Present Value Rule                    | 49        |
| 3.3. Alternative Methods of Project Evaluation                                  | 51        |
| 3.3.1. Payback Analysis   | 51        |
| 3.3.2. Average Return on Book Value   | 52        |
| 3.3.3. Internal Rate of Return  | 52        |
| 3.4. Risk and Return  | 53        |
| 3.4.1. Financial Instruments  | 55        |
| 3.4.2. Capital Structure and the Cost of Capital                                | 58        |
| Exercise 3.1. Risk and Diversification  | 5         |
| Exercise 3.2. Risk Aversion   | 62        |
| Exercise 3.3. The Capital Asset Pricing Model                                   | 68        |
| Exercise 3.4. Certainty Equivalent Discount Rates                               | 70        |
| Exercise 3.5. Calculating the Internal Rate of Return                           | 74        |
| <b>4 Electricity Regulation</b>   | <b>75</b> |
| 4.1. Introduction to Economic Regulation  | 75        |
| 4.1.1. Regulatory Policy Variables  | 76        |
| 4.1.2. The Regulatory Process   | 78        |
| 4.2. Rate-of-Return Regulation  | 80        |
| 4.3. Performance-Based Ratemaking   | 83        |
| 4.3.1. Sliding Scale  | 84        |
| 4.3.2. Revenue Caps   | 85        |
| 4.3.3. Price Caps   | 86        |
| 4.3.4. Some Problems with Incentive Regulation                                  | 87        |
| 4.4. Rate Structure   | 88        |
| 4.4.1. Introduction to Tariff Regulation  | 88        |
| 4.4.2. Marginal Cost Pricing, Multipart Tariffs,<br>and Peak-Load Pricing       | 89        |

|  |            |
|--|------------|
| 4.5. Overview of the Uniform System of Accounts                                | 91         |
| Exercise 4.1. A Profit-Sharing Mechanism under PBR Regulation                  | 92         |
| Exercise 4.2. Optimal Two-Part Tariffs   | 93         |
| Exercise 4.3. The Peak-Load Pricing Problem                                    | 94         |
| Exercise 4.4. The Averch-Johnson Model   | 95         |
| Exercise 4.5. A Real Options Pricing Model of Cogeneration                     | 97         |
| <b>5 Competitive Electricity Markets</b>                                       | <b>101</b> |
| 5.1. Overview  | 101        |
| 5.2. Wholesale Power Markets   | 102        |
| 5.2.1. The Poolco Market   | 103        |
| 5.2.2. Contracts for Differences   | 105        |
| 5.2.3. Physical Bilateral Trading  | 106        |
| 5.2.4. Transmission Ownership and System Operation                             | 107        |
| 5.2.5. Ancillary Services  | 109        |
| 5.3. Market Performance and Investment   | 110        |
| 5.3.1. Generation Expansion and Monitoring<br>Generation Competition           | 111        |
| 5.3.2. Nodal and Zonal Transmission Pricing                                    | 114        |
| 5.3.3. Transmission Planning and Investment                                    | 115        |
| 5.4. Customer Choice and Distribution Regulation                               | 117        |
| 5.4.1. Customer Choice and Retail Competition                                  | 118        |
| 5.4.2. Real-Time Prices and Retail Services                                    | 120        |
| 5.4.3. Retail Access Tariffs   | 120        |
| 5.4.4. Distribution Company Regulation   | 122        |
| Exercise 5.1. Determining Dispatch in a Poolco Market                          | 123        |
| Exercise 5.2. Determining Dispatch Based on Physical<br>Bilateral Contracts    | 123        |
| Exercise 5.3. Generator Revenues and Long-Run Capacity                         | 124        |
| Exercise 5.4. Generator Profits with and without a Contract<br>for Differences | 125        |
| Exercise 5.5. The Value of Transmission Expansion between<br>Two Zones         | 125        |
| Exercise 5.6. Calculate Nodal Prices in a Three-Bus<br>Transmission System     | 127        |
| <b>6 The Californian Power Sector</b>  | <b>129</b> |
| <i>Ryan Wiser, Steven Pickle, and Afzal S. Siddiqui</i>                        |            |
| 6.1. General Description of the California Power System                        | 130        |
| 6.1.1. Generation  | 131        |
| 6.1.2. Transmission and Interconnections                                       | 131        |
| 6.1.3. Distribution  | 132        |
| 6.1.4. Consumption   | 132        |
| 6.1.5. Concentration Levels  | 133        |

|  |            |
|--|------------|
| 6.1.6. Plant Investment  | 133        |
| 6.1.7. Electricity Prices  | 133        |
| 6.1.8. Economic and Energy Indices                                   | 134        |
| 6.2. The New Regulatory Framework                                    | 135        |
| 6.2.1. U.S. Federal Legislation and Regulation                       | 135        |
| 6.2.2. California State Regulation and Legislation                   | 137        |
| 6.3. The Wholesale Electricity Market and Institutions in California | 140        |
| 6.3.1. The Power Exchange  | 140        |
| 6.3.2. The Independent System Operator                               | 144        |
| 6.3.3. Bilateral Trading   | 145        |
| 6.4. Transmission Access, Pricing, and Investment                    | 146        |
| 6.4.1. Access Charges  | 147        |
| 6.4.2. Transmission Congestion Charges                               | 147        |
| 6.4.3. Transmission Losses   | 149        |
| 6.4.4. Investment and Planning                                       | 149        |
| 6.5. Distribution Network Regulation and Retail Competition          | 149        |
| 6.5.1. Regulation of the Distribution Network                        | 150        |
| 6.5.2. Remuneration for Regulated Distribution Activities            | 150        |
| 6.5.3. Retail Competition  | 151        |
| 6.6. Particular Aspects of the Regulatory Process in California      | 153        |
| 6.6.1. Stranded Costs  | 153        |
| 6.6.2. Market Power  | 154        |
| 6.6.3. Public Purpose Programs                                       | 155        |
| 6.6.4. Customer Protection and Small Customer Interests              | 156        |
| 6.7. Market Experience and the Energy Crisis                         | 156        |
| 6.7.1. Market Operations: 1998 and 1999                              | 157        |
| 6.7.2. The Electricity Crisis  | 157        |
| 6.7.3. The Causes of the Electricity Crisis                          | 158        |
| 6.7.4. Solutions and Conclusions                                     | 159        |
| <b>7 The Norwegian and Nordic Power Sectors</b>                      | <b>161</b> |
| <i>Helle Gronli</i>  |            |
| 7.1. General Description of the Norwegian Power System               | 161        |
| 7.1.1. Generation  | 161        |
| 7.1.2. Transmission  | 162        |
| 7.1.3. Distribution  | 163        |
| 7.1.4. Consumption   | 164        |
| 7.1.5. Economic Indices  | 164        |
| 7.1.6. General Economic and Energy Indices                           | 166        |
| 7.2. The New Regulatory Framework                                    | 167        |
| 7.2.1. The Energy Act of 1990: Objectives and Consequences           | 168        |
| 7.2.2. The Energy Act of 1990: Specifics                             | 169        |
| 7.3. The Wholesale Electricity Market                                | 170        |
| 7.3.1. The Energy Markets  | 171        |

|  |            |
|--|------------|
| 7.3.2. Zonal Pricing   | 172        |
| 7.3.3. Ancillary Services                                      | 173        |
| 7.3.4. Bilateral Trading                                       | 173        |
| 7.4. Transmission/Distribution Access, Pricing, and Investment | 174        |
| 7.4.1. Overall Principles: The Point of Connection Tariff      | 174        |
| 7.4.2. Transmission Tariffs                                    | 176        |
| 7.4.3. Distribution Tariffs                                    | 177        |
| 7.5. Distribution Network Regulation and Retail Competition    | 178        |
| 7.5.1. Rate of Return Regulation, 1991-1997                    | 178        |
| 7.5.2. Incentive-Based Regulation Starting January 1, 1997     | 178        |
| 7.5.3. Retail Competition—Important Developments               | 182        |
| 7.6. Aspects of the Regulatory Process in Norway               | 184        |
| 7.6.1. The Inter Nordic Exchange                               | 184        |
| 7.6.2. Congestion Management in the Scandinavian Area          | 185        |
| <b>8 The Spanish Power Sector</b>                              | <b>187</b> |
| 8.1. General Description of the Spanish Power System           | 187        |
| 8.1.1. Structure of the Industry                               | 187        |
| 8.1.2. Generation  | 187        |
| 8.1.3. Transmission  | 188        |
| 8.1.4. Distribution  | 189        |
| 8.1.5. Consumption   | 189        |
| 8.1.6. Concentration Levels and Economic Indices               | 190        |
| 8.1.7. General Economic and Energy Indices for Spain           | 194        |
| 8.2. The New Regulatory Framework                              | 194        |
| 8.2.1. Background  | 194        |
| 8.2.2. The 1997 Electricity Law                                | 198        |
| 8.2.3. Further Regulations                                     | 199        |
| 8.3. The Wholesale Electricity Market                          | 200        |
| 8.3.1. General Market Institutions                             | 200        |
| 8.3.2. Structure of the Wholesale Market                       | 201        |
| 8.3.3. The Daily Market  | 201        |
| 8.3.4. The Intraday Markets                                    | 202        |
| 8.3.5. Network Constraint Management Procedures                | 202        |
| 8.3.6. The Ancillary Service Markets                           | 203        |
| 8.3.7. Capacity Payments                                       | 203        |
| 8.3.8. Bilateral Trading                                       | 203        |
| 8.3.9. International Exchanges and External Agents             | 204        |
| 8.4. Transmission Access, Pricing, and Investment              | 204        |
| 8.4.1. Remuneration of Transmission Activities                 | 204        |
| 8.4.2. Transmission Network Charges                            | 205        |
| 8.4.3. Transmission Losses                                     | 205        |
| 8.4.4. Investment and Planning                                 | 206        |
| 8.5. Distribution Network Regulation and Retail Competition    | 206        |

|  |     |
|--|-----|
| 8.5.1. Remuneration of Regulated Distribution Activities                   | 206 |
| 8.5.2. Distribution Losses   | 207 |
| 8.5.3. Distribution Network Charges  | 208 |
| 8.5.4. Power Quality Regulation  | 208 |
| 8.6. Particular Aspects of the Regulatory Process in Spain                 | 210 |
