CONTENTS

FRONTIERS OF ECONOMICS AND GLOBALIZATION vii

LIST OF CONTRIBUTORS ix

SECTION I: INTRODUCTION 1

CONTEMPORARY AND EMERGING ISSUES IN TRADE THEORY AND POLICY 3
Sugata Mai jit and Eden S.H. Yu

Section 1 - Editorial introduction 3
Section II - Perspective on trade models 4
Section III - Factor rewards and trade theory 5
Section IV - Dynamic issues 6
Section V - Trade and the developing economy 7
Section VI - International factor mobility 8
Section VII - International trade policy 9

SECTION II: PERSPECTIVE ON TRADE MODELS 11

CHAPTER 1 NATIONAL SECURITY AND INTERNATIONAL TRADE: A SIMPLE GENERAL EQUILIBRIUM MODEL 13
Ronald Findlay and Mohammad Am in

References 24

CHAPTER 2 DO FACTOR ENDOWMENTS MATTER FOR NORTH-NORTH TRADE? 25
Donald R. Davis and David E. Weinstein

1 Introduction 25
2 Theory 27
3 Measuring net factor trade 32
3.1 Data 32
3.2 True and conventional measures of net factor trade 33
3.3 Decomposition of net factor trade and the role of intra-industry trade 35

3.4 Are factor service flows important? 39
3.5 Special properties of net factor trade in a No-FPE world 41
3.6 Net factor trade within the North 43
3.7 Bilateral net factor trade country-by-country 44
4 Conclusion 45
Acknowledgements 46
References 46

CHAPTER 3 A SIMPLE VERTICAL COMPETITION MODEL: STRUCTURE AND PERFORMANCE 49
Roy J. Ruffin

1 Cournot's forward integration model 51
2 The model 52
3 A numerical example: anti-trust issues 59
4 Empirical implications 61
Acknowledgments 62
References 62

CHAPTER 4 GLOBALIZATION, TRADE IN MIDDLE PRODUCTS, AND RELATIVE PRICES **65**
Ulrich Kohli

1 Introduction 65
2 Real GDP, real GDI, and relative prices 71
3 Description of the aggregate technology 75
4 Estimation results 78
5 Accounting for changes in openness, imbalances, and income shares 81
6 Productivity 83
7 Conclusions 84
Acknowledgment 86
Appendix: Description of the data 86
References 86

CHAPTER 5 FIXED TRANSPORT COSTS AND INTERNATIONAL TRADE 91
Didier Laussel and Raymond Riezman

1 Introduction 91
2 The general model 92
3 The offer curves 95
4 The Equilibria 97
5 The Ricardian case 100
6 Stability and Efficiency 103

6.1 Stability 103
6.2 Efficiency 106
7 Concluding remarks and extensions 107
References 107

SECTION III: FACTOR REWARDS AND TRADE THEORY 109

CHAPTER 6 SOMETHING NEW FOR SOMETHING OLD: REFLECTIONS ON A MODEL WITH THREE FACTORS AND TWO GOODS 111
Stephen T. Easton

1 Introduction 111
2 The issues 112
3 The model 113
3.1 Comparative statics 114
3.2 The geometry of solving for ,factor rewards when commodity prices change 115
3.3 The economic meaning of the slope of the F-locus 118
4 Two extreme cases 119
4.1 More than perfect complementarity 121
5 Conclusion , 122
References 122

CHAPTER 7 ON COMMODITY PRICES AND FACTOR REWARDS: A CLOSE LOOK AT SIGN PATTERNS 125
Tapan Mitra

1 Introduction 125
2 Preliminaries 128
2.1 Notation 128
2.2 The framework 128
3 Effects of commodity price changes on factor rewards 131
3.1 Review of the literature 131
3.2 A result on sign patterns 133
3.3 Discussion of low-dimensional cases 136
3.4 A converse result on sign patterns 137
References 138

CHAPTER 8 COMPARATIVE STATICS IN A TWO-FACTOR MULTI-COMMODITY MODEL WITHOUT FACTOR PRICE EQUALIZATION 141
Siu-kee Wong

1 Introduction 141
2 The model 143

3 An integrated world equilibrium 146
4 Trading equilibrium without FPE 147
4.1 Specialization effects 148
4.2 Local comparative statics 151
5 Global analysis 152
6 Concluding remarks 154
Acknowledgement 155
Appendix 155
References 161

SECTION IV: DYNAMIC ISSUES 163

CHAPTER 9 DISTORTIONS IN THE TWO-SECTOR DYNAMIC GENERAL EQUILIBRIUM MODEL 165
Eric W. Bond and Robert A. Driskill

1 Introduction 165
2 A dynamic open economy model with factor market distortions 168
2.1 Complete and incomplete specialization equilibria 171
2.2 Comparative statics for the production model 175
3 Steady state 177
3.1 Existence and uniqueness of the steady state 177
3.2 Local dynamics of the steady state 178
3.3 Steady state effects of factor taxation 182
4 Dynamics in the region of complete specialization 184
4.1 Dynamics in regions of specialization when value and physical intensities agree 185
4.2 Dynamics in the region of specialization when value and physical intensities differ 187
5 Conclusions 189
Acknowledgements 189
References 189

CHAPTER 10 SPECIFIC FACTOR MODELS AND DYNAMICS IN INTERNATIONAL TRADE 191
Yunfang Hit, Kazuo Nishimura and Kofi Shimomura

1 Introduction 191
2 The Jones model 193
3 Dynamic model with a constant rate of time preference 195
3.1 Comparative statics 197
3.2 Welfare effect 197
4 Dynamic model with a variable rate of time preference 198
4.1 Comparative statics 200

5 Conclusion 201
Acknowledgments 201
Appendix 202
References 206

SECTION V: TRADE AND THE DEVELOPING ECONOMY 209

CHAPTER 11 SKILL FORMATION AND INCOME DISTRIBUTION IN A THREE CLASS SMALL DEVELOPING ECONOMY 211
Sugata Mar jit

1 Introduction 211
2 The foundation 214
3 Comparative statics 217
4 Conclusion 222
Acknowledgments 222
Appendix. Effects of an increase in P_x on S 222
References 223

CHAPTER 12 FOREIGN CAPITAL AND SKILLED-UNSKILLED WAGE INEQUALITY IN A DEVELOPING ECONOMY WITH NON-TRADED GOODS 225
Sarhajit Chaudhuri and Shigemi Yabmtchi

1 Introduction 225
2 The model with non-traded intermediate input 229
3 The modified system with non-traded final commodity 235
4 Policy implications and concluding remarks 239
Acknowledgement 240
Appendix I 241
Appendix **II** 242
Appendix **III** 244
Appendix IV 244
Appendix V: Stability condition of the market for commodity 2 245
Appendix VI: Derivation of expression for *XT,* 247
Appendix VII: Derivation of expression for *X4* 248
References 248

CHAPTER 13 TRADE, WAGE INEQUALITY AND THE VENT FOR SURPLUS 251
Brati Sankar Chakraborty and Abhirup Sarkar

1 Introduction 251
2 Model 254

2.1 The economy: Basic description 254
2.2 Production 254
2.3 Preferences 256
3 Autarky , 257
3.1 The general equilibrium supply curve 257
3.2 The general equilibrium demand curve 259
3.3 Autarkic equilibrium 260
4 Trade 264
4.1 Trade, vent for surplus and wage inequality 266
5 Conclusion 271
References 272

CHAPTER 14 INFORMED BUYERS AND TRADE SANCTION AGAINST CHILD LABOUR: DOES IT WORK? 275
Raj at. Acharyya , .

1 Introduction 275
2 A formal argument 279
2.1 The analytical framework 279
2.2 Incidence of child labour under no trade sanction 281
3 Product labelling, trade sanction and the incidence of child labour 286
4 Trade sanction and decision of poor parents 290
5 Conclusion 292
Acknowledgements 292
Appendix 293
I. Slope of the /(^Z) curve 293
II. Perverse effect of trade sanction 294
References 295

CHAPTER 15 PUBLIC INPUTS, URBAN DEVELOPMENT, AND WELFARE IN A DEVELOPING ECONOMY 297
Chi-Chur Chao, Jean-Pierre Laffargue and Eden S.H. Yu

1 Introduction 297
2 Public inputs in a dual economy 299
3 Effects of public inputs 302
4 Public inputs, goods prices, and urban unemployment 303
5 Urban development and national welfare 306
6 Simulations 307
6.1 Specifications 307
6.2 Calibrations 309
7 Concluding remarks 311
Acknowledgement 311

Appendix 312

References 313

SECTION VI: INTERNATIONAL FACTOR MOBILITY 315

CHAPTER 16 MOVING PEOPLE OR JOBS? A NEW PERSPECTIVE ON IMMIGRATION AND INTERNATIONAL OUTSOURCING 317
Hamid Beladi and Avik Chakrabarti

1 Introduction 317
2 Literature 318
3 Model and propositions 319
4 Conclusion 324
Acknowledgement 325
References 325

CHAPTER 17 COMMODITY DEMAND, CAPITAL MOBILITY, AND INTERNATIONAL TRADE: A RICARDIAN APPROACH 329
Morihiro Yomogida

1 Introduction 329
2 The model 331
3 Free trade equilibrium 335
4 Capital movements 336
4.1 The effect of capital movements on income distribution 339
4.2 The effect of capital movements on the pattern and value of goods trade 340
5 Conclusions 342
Acknowledgements 343
References 343

CHAPTER 18 INTERNATIONAL OUTSOURCING UNDER MONOPOLISTIC COMPETITION: WINNERS AND LOSERS 345
Viet Do and Ngo Van Long

1 Introduction 345
2 The model 347
2.1 The basic assumptions 347
2.2 Equilibrium output and equilibrium profit 349
2.3 The closed economy: Equilibrium and welfare 350
3 International outsourcing: The case of zero fixed cost of outsourcing 350
3.1 Case 1: Flexible wage in the home country 351
3.2 Case 2: Wage rigidity in the home country 352
4 Outsourcing with homogeneous fixed costs 354

4.1 Equilibrium profit under outsourcing 354
4.2 Possibility of welfare loss under outsourcing with fixed cost, with or without domestic wage flexibility 358
5 Outsourcing under heterogeneous fixed costs 359
5.1 Equilibrium fractional outsourcing: The pivot firm 360
5.2 Welfare under heterogeneous fixed costs 361
6 Optimal outsourcing vs. equilibrium outsourcing 362
7 A two-period model 363
8 Concluding remarks 364
Acknowledgements 364
References 365

CHAPTER 19 THE EFFECT OF NEW ENVIRONMENT ON FOREIGN DIRECT INVESTMENT IN AN OLIGOPOLISTIC HECKSCHER-OHLIN MODEL , 367
Sajal Lahiri and Yoshiyasu Ono

1 Introduction 367
2 An H-0 model of FDI 369
3 Factor-price equalization with $6 = 1$ 372
4 New environment and FDI 373
5 Conclusion 376
Acknowledgement 376
References 376

SECTION VII: INTERNATIONAL TRADE POLICY 379

CHAPTER 20 INTERNATIONAL TRADE AGREEMENTS 381
Wilfred J. Ethier

1 Introduction 382
2 The Model: Economics 384
2.1 International trade 384
3 The model: Policy formation 385
3.1 Lobbies 385
3.2 Policy choice 386
4 The non-cooperative equilibrium 387
4.1 Best responses 387
4.2 Equilibrium 388
5 Trade agreements 389
5.1 The exchange of market access 390
5.2 Trade agreements to exchange market access 391
6 Concluding remarks 393
References 393

CHAPTER 21 COMPETITION POLICY AS A SUBSTITUTE FOR TARIFF POLICY 397
Rika Takahashi, Jin Kenzaki and. Makoto Yano

1 Introduction 397
2 Basic structure 399
2.1 Partial tariff policy 399
2.2 Competition policy 401
2.3 Functional specification 402
3 Quantitative analysis 404
Appendix 408
Appendix A. Optimal partial tariff policy 409
Appendix B. Optimal competition policy 410
Appendix C1. Optimal partial tariff policy under the special functional forms 412
Appendix C2. Trade balance equation and elasticity of foreign import demand in the optimal partial tariff policy under the special functional forms 412
Appendix D1. Optimal competition policy under the special functional forms 413
Appendix D2. Trade balance equation and elasticity of foreign import demand in the optimal competition policy under the special functional forms 414
References 414

CHAPTER 22 FREE TRADE BETWEEN LARGE AND SMALL: WHAT'S IN IT FOR THE LARGE COUNTRY? WHAT'S IN IT FOR THE SMALL? **417**
Carsten Kowakzyk

1 Introduction 417
2 The calculus of national economic welfare 419
3 Welfare from varying small country size 420
4 Informational requirements for welfare assessments 423
5 On the likelihood of welfare improving integration 425
6 Conclusion 426
Acknowledgements 426
References 427

CHAPTER 23 FRAGMENTED TRADE AND THE HUB-SPOKES GAME - STRATEGIC TRADE UNDER THE WTO 429
An-Chi Tung and Henry Wan Jr

1 Motivation 429

2 Statement of the problem 430
2.1 The topic 430
2.2 The exemplar 431
2.3 The organization of the analysis 433
3 The hub-spokes network 433
3.1 An extended example 434
4 The hub-spokes model 439
4.1 A game theory parable 440
4.2 The historical perspective 440
5 The evolving world 443
5.1 The labor market 443
5.2 Service income 444
5.3 The installation and expansion of the trunk link 444
5.4 The Allyn Young externality — the Singapore version 445
6 Some statistical facts 445
7 Concluding remarks 447
References 447
