| List of Figures. . . . .                                      | XIII        |
| List of Tables. . . . .                                       | XV          |
| Notations! remarks. . . . .                                   | <b>XVII</b> |
| <b>Introduction</b>   | <b>I</b>    |
| <b>1 The Structure of Emerging Bond Markets</b>               | <b>5</b>    |
| 1.1 Emerging markets. . . . .                                 | 6           |
| 1.2 Bond markets. . . . .                                     | 7           |
| 1.2.1 Primary and secondary markets. . . . .                  | 7           |
| 1.2.2 Prices, yields and spreads. . . . .                     | 8           |
| 1.3 History of emerging bond markets. . . . .                 | 11          |
| 1.3.1 The gold, standard era. . . . .                         | 11          |
| 1.3.2 Diminishing importance after World War I. . . . .       | 14          |
| 1.3.3 The Brady plan and the boom of the 1990s. . . . .       | 15          |
| 1.4 Characteristics of today's emerging bond markets. . . . . | 19          |
| 1.4.1 Size and liquidity. . . . .                             | 19          |
| 1.4.2 Types of financial instruments. . . . .                 | 20          |
| 1.4.3 Currency composition. . . . .                           | 25          |
| 1.4.4 Issuers. . . . .  | 27          |
| 1.4.5 Investor base. . . . .                                  | 28          |
| 1.4.6 Returns and volatility. . . . .                         | 34          |
| 1.4.7 Correlations with other asset classes. . . . .          | H 36        |
| <b>2 Determinants of Emerging Market Bond Spreads</b>         | <b>39</b>   |
| 2.1 Sovereign credit risk. . . . .                            | 40          |
| 2.1.1 Solvency and liquidity. . . . .                         | 42          |
| 2.1.2 Macroeconomic performance. . . . .                      | 44          |
| 2.1.3 External shocks. . . . .                                | 45          |

|   |   |            |
|---|---|------------|
| 2.1.4   | Structural and political factors . . . . .                        | 46         |
| 2.1.5   | The role of the credit rating agencies . . . . .                  | 47         |
| 2.1.6   | Sovereign credit risk and financial crises . . . . .              | 51         |
| 2.2   | Non-fundamental determinants . . . . .                            | 53"        |
| 2.2.1   | Contagion . . . . .   | 54         |
| 2.2.2   | Portfolio choice . . . . .  | 59         |
| 2.2.3   | Investor herding . . . . .  | 62         |
| 2.2.4   | Global risk appetite . . . . .                                    | 67         |
| 2.2.5   | Empirical implications for emerging bond markets . . . . .        | 69         |
| 2.3   | Liquidity risk . . . . .  | 71         |
| 2.4   | Existing literature on emerging market bond spreads . . . . .     | 72         |
| <b>An Empirical Model of Emerging Market Bond Spreads</b> |   | <b>83</b>  |
| 3.1   | A model of bond spreads and sovereign credit risk . . . . .       | 84         |
| 3.2   | Growth forecasts as perceived sovereign credit risk . . . . .     | 87         |
| 3.2.1   | Structural and dynamic aspects of sovereign credit risk . . . . . | 87         |
| 3.2.2   | "Consensus" forecasts of growth . . . . .                         | 89         |
| 3.2.3   | The time horizon of growth forecasts . . . . .                    | 90         |
| 3.3   | Accounting for non-fundamental factors . . . . .                  | 93         |
| 3.3.1   | Stock market volatility as risk appetite variable . . . . .       | 93         |
| 3.3.2   | Average growth forecasts as contagion variable . . . . .          | 94         |
| 3.4   | The Data Set . . . . .  | 95         |
| 3.4.1   | EMBI+ bond spreads . . . . .                                      | 96         |
| 3.4.2   | Country-specific determinants: Growth forecasts . . . . .         | 98         |
| 3.4.3   | Interest rate, spillover and contagion variables . . . . .        | 99         |
| 3.4.4   | Correlation analysis . . . . .                                    | 103        |
| 3.5   | The final empirical specification of the model . . . . .          | 109        |
| <b>Panel Estimation of the Model</b>                      |   | <b>111</b> |
| 4.1   | Cross-country heterogeneity . . . . .                             | 112        |
| 4.2   | Dynamic considerations . . . . .                                  | 113        |
| 4.2.1   | The ARDL error correction model . . . . .                         | 114        |
| 4.2.2   | Illustration for the ARDL (1,1) case . . . . .                    | 115        |
| 4.3   | Techniques for the estimation of dynamic panel models . . . . .   | 116        |
| 4.3.1   | Mean group (MG) estimation . . . . .                              | 117        |
| 4.3.2   | Dynamic fixed effect (DFE) estimation . . . . .                   | 117        |
| 4.3.3   | Pooled mean group (PMG) estimation . . . . .                      | 118        |

4.4 Estimation results . . . . .120  
 4.4.1 The case of a maximum lag length of one. . . . .121  
 4.4.2 Robustness to higher lag orders. . . . . j . . .128  
 4.5 Economic interpretation of the results. . . . .132

**5 VAR Estimation of the Model 135**

5.1 Granger causality tests. . . . .136  
 5.2 Specification of the VAR model. . . . .139  
 5.2.1 Stationarity and lag order<sup>v</sup>- \*. . . . .140  
 5.2.2 Block exogeneity test . . . . .141  
 5.3 Estimation results. . . . .143  
 5.3.1 Generalized Impulse Response analysis. . . . .143  
 5.3.2 Generalized Variance decompositions. . . . .155  
 5.4 Economic interpretation of the results . . . . .157

**Summary and Conclusions 163**

**Appendix 167**

**A EMBI-)- country index spreads 167**

A.1 Instruments in the EMBI+ index. . . . .167  
 A.2 Computation of bond spreads. . . . .170  
 A.3 Liquidity requirements. . . . .174

**B Details of the Econometric Analysis 177**

B.1 Results of stationarity tests. . . . .177  
 B.2 Pooled Mean Group Estimation of dynamic panel data models 179  
 B.2.1 General ARDL models. . . . .180  
 B.2.2 Pooled mean group estimation of ARDL models . . . . .181  
 B.2.3 Tests for parameter homogeneity. . . . .183  
 B.3 Details of the VAR analysis. . . . .184  
 B.3.1 Block Granger non-causality test . . . . .185  
 B.3.2 Generalized impulse response functions for VAR models 186  
 B.3.3 Generalized variance decompositions for VAR models . 189

**Deutsche Zusammenfassung 193**
