CONTENTS

Preface ix

f CHAPTER 1

Introduction to Agricultural Economics 1

Agricultural Economics	1
Basis for Economics	1
Basic Economic Decisions	2
Economic Systems	2
Levels of Economic Activity	3
Microeconomics	4
Market Economics	6
Macroeconomics	6
Basic Skills of the Agricultural Economist	
Economic Models	8
Ceteris Paribus	8
Opportunity Cost	9
Diminishing Returns	10
Marginality	10
Logical Fallacies	12
Facts, Beliefs, and Values	14
Words	14
Appendix 1	17
Expressing Relationships	17
Relationships	17
Reading Graphs	19
Slope of a Line	21
Slope of a Curve	23
Special Cases	24

CHAPTER 2

Introduction to Market Price Determination 26

Markets	26
Demand and Supply	27
Demand	27
Supply	29
Price Determination	31
Changes in Supply and Demand	33
Concept of Elasticity	36

CHAPTER 3

Financial Markets 40

How Firms Obtain Funds	40
Stock	41
Newly Issued Stock	41
Previously Issued Stock	44
Stock Price Determinants	46
Reading Stock Reports	48
Stock Splits	50
Classes of Stock	50
Types of Stocks	51
Market Indicators	51
Investors and Speculators	53
Summary—What Makes Stock Prices Go Up and Down?	53
Bonds	55
Characteristics of Bonds	55
Trading of Bonds	58

Bond Prices	59
Bond Price Quotations	61
Other Bond Features	62
Mutual Funds	64
How a Mutual Fund Works	65
Managers and Advisers	66
Types of Funds	67
How to Read Mutual Fund Quotations	67
Closed-End Funds	70

m **CHAPTER 4**

Money and Financial Intermediaries **73**

What Is Money?	73
Money as a Medium of Exchange	73
Money as a Store of Wealth	75
Money as a Basis for Keeping Records	75
What Backs Money?	75
Legal Tender	76
Money and Prices	76
The Money "Supply"	76
M1	77
Near-Monies	77
Credit and Debit Cards	78
Financial Markets	78
The Commercial Banking System	79
Financial Failures	81
Banks in the New Millennium	85

m **CHAPTER 5**

<i>Monetary Policy</i>	88
The Money Supply and Economic Activity	89
Objectives of Macroeconomic Policy	89
How Monetary Policy May Affect These Objectives	90
Implementing Monetary Policy	95
Federal Reserve System	95
Money Creation	96
Instruments of Monetary Policy	97
Summary of Monetary Policy	101

CHAPTER 6

The Circular Flow of Income 104

Stocks, Flows, and Final Goods	105
Stocks and Flows	106
National Wealth	107
Consumption	107
The Circular Flow	108
The Physical Flow	108
The Economic Flow	110
The Basic Principle	110
Gross Domestic Product and National Income	113
The Gross Domestic Product	113
National Income	114
Measurement Difficulties	115
A Microeconomic Example	116
The Price Level and GDP	117
The Circular Flow by Economic Sector	121
Households	121
Business Firms	122
Governments	122
The Foreign Sector	123
The Total System	123
The Role of Financial Intermediaries	124

CHAPTER 7

Fiscal Policy 129

Debt and Deficits	129
The Classical School	131
Say's Law	131
Quantity Theory of Money	132
Classical Macroeconomic Policy	133
The Keynesian Revolution	133
The Great Depression	133
The Keynesian Contribution	135
Fiscal Policy in the 1930s	138
Post-World War II Fiscal Policy	140
Stagflation in the 1970s	141
The Wild Ride of the 1980s	143
Through the 1990s	147

It: **CHAPTER 8**

<i>International Trade</i>	150
Changing U.S. Trade Patterns	150
Role of Trade in the U.S. Economy	150
From Creditor to Debtor	152
The Importance of World Trade to U.S.	
Agriculture	152
The Importance of U.S. Exports in World Trade	155
Wheat	156
Feed Grains	157
Rice	158
Soybeans	159
Agricultural Imports of the United States	159
Why Do Nations Trade?	160
The Basis for Trade	162
Excess Supply/Demand	163
A Simple Trade Model	163
Gains from Trade	165
Restraints to Trade	167
Tariffs	167
Quotas	170
Restrict Domestic Demand	171
Trade Agreements	172
General Agreement on Tariffs and Trade	172
North American Free Trade Agreement	172
Balance of Payments	172
Foreign Exchange Markets	174

m **CHAPTER 9**

<i>Agricultural Policy</i>	183
The Perfect Food System	184
The Nature of Agricultural Problems	184
The Economic Environment of Agricultural	
Policy Issues	185
Types of Agricultural Policy	186
Developmental Agricultural Policies	187
Agricultural Price and/or Income Support	
Policies	187
Prospects for the Future	193

r*

* **CHAPTER 10**

<i>The Firm as a Production Unit</i>	196
The Perfectly Competitive Firm	196
Objective of the Perfectly Competitive	
Firm	196
Conditions of Perfect Competition	198
Behavior of the Perfectly Competitive	
Firm	198
Production	199
Fixed and Variable Inputs	199
Length of Run	199
Returns to Scale	200
The Production Function	200
The Total Product	201
Diminishing Marginal Product	202
Mathematical Appendix	207

i **CHAPTER 11**

<i>Costs and Optimal Output Levels</i>	209
Optimal Output Level	210
Costs of the Firm	210
Revenue	215
Profit Maximization	216
Appendix 1	225
Mathematical Approach	225
Notational Conventions	225
Total, Average, and Marginal	225
Relationships	225
Profit Maximization	226
Appendix 2	229
Factor-Factor Model	229
Local Cost Minimization	230
Constant Output	231
Local Profit Maximization	231
Graphical Solution	232
Expansion Path	234
Appendix 3	236
Product-Product Model	236
Local Revenue Maximization	236
Graphical Solution	237
Generalization	239

fc CHAPTER 12*Firm Supply and the Market* 241

Firm Supply 241

Market Supply 242

Dynamic Relationship Between the Firm and the
Market 243

Cost Structure and Price Variability 245

fe CHAPTER 13*Imperfect Competition and Government
Regulation* 249

Market Structure 249

Perfect Competition 250

Structure 250

Conduct 250

Pure Monopoly 251

Structure 251

Barriers to Entry 252

Conduct of the Monopoly Firm 253

Unprofitable Monopolies 255

Performance 256

Monopolistic Competition 256

Structure 256

Conduct of the Monopolistically Competitive
Firm 258

Performance 260

Oligopoly 260

Structure 260

Conduct 261

Game Theory 262

Government Regulation 263

Railroads 263

Standard Oil 263

Antitrust 263

Natural Monopolies 264

Marketing Orders in Agriculture 264

CHAPTER 14*Theory of Consumer Behavior* 269

The Law of Demand 269

Real Income and Substitution Effects 270

Substitution Effect 270

Real Income Effect 270

Market Demand and Individual Demand 271

Utility Analysis 271

Assumptions about the Utility Model 271

Total and Marginal Utility 273

Deriving the Demand Curve 276

Indifference Curve Analysis 277

Utility Maximization 281

The Impact of Changes in Ceteris Paribus
Conditions 282

Substitutes and Complements 285

Derivation of the Individual Demand
Curve 286

The Market Demand Function 288

ft CHAPTER 15*The Concept of Elasticity* 292

Elasticity of Demand 292

Arc Elasticity 293

Point Elasticity 296

Elasticity of Demand Related to Total
Revenue 299

Factors Affecting Demand Elasticity 300

Price Discrimination 302

Cross-Price Elasticity 303

Income Elasticity 304

Elasticity of Supply 305

m CHAPTER 16*Food Marketing: From Stable
to Table* 308

Food Marketing Defined 308

Food Marketing Creates Utility 309

The Four Utilities of Food Marketing 309

Why Do Food Marketing Firms Produce
Utility? 310

Choices 311

Approaches to the Study of Food
Marketing 311

Functional	311
Institutional	311
Market Levels	311
Commodity	312
The Food Bill	312
Away from Home Share	313
The Food Marketing Bill	314
Size and Composition	314
By Commodity	316
Farm Service Marketing Bill	318
Food Market Levels	318
Assemblers	318
Commodity Processors	319
Food Processors	319
Distributors	319
Retailers	319
Vertical Integration	320
Industrialization	321
Market Functions	321
Primary Functions	321
Facilitating Functions	321
Marketing Margins	322
Derived Demand	323
Derived Supply	323
Market Equilibrium	324
Dynamic Adjustment	325
Gains from Marketing Efficiency	326
Elasticity by Market Level	327
Food Market Regulations	329

W CHAPTER 17

<i>Futures Markets</i>	333
Forward Pricing	333
Futures Markets	335
Exchanges	335
Futures Contracts	336
Arbitrage	340
Futures Contract Prices	340
Basis of Futures Contracts	341
Speculators	342
Hedgers	343
A Final Word	349

•f CHAPTER 18

<i>Farm Service Sector</i>	354
Purchased Inputs	354
Direct Sales	355
Franchise Agents	355
General Store	355
Cooperatives	356
Insurance	359
Crop Insurance	359
Income Insurance	360
Credit	360
Types of Credit	360
Sources of Credit	361
Farm Labor	363
Tenant Labor	363
Labor Contractors	364
Custom Hire	364
Consultants	364

ft CHAPTER 19

<i>Investment Analysis</i>	367
Typical Life of an Investment	368
Economic Profitability of an Investment	368
Present Value	369
Net Present Value	373
Internal Rate of Return	373
Evaluating Alternatives	374

*** m CHAPTER 20**

<i>Environmental Policy and Market Failure</i>	376
Advantages of Markets	376
Coordination	376
Prices Driven to Minimum Cost	376
Disequilibria Are Self-Correcting	377
No Coercion	377
Types of Goods for Which Markets Fail	377
Poorly Defined Property Rights	378
Public Goods	380
Common Property Goods	382

Externalities Cause Market Failure	383
Externalities Defined	384
Private and Social Costs/Benefits	385
Pesticide Use—An Example of Externalities	385
Higher Education—Another Example of Externalities	386
Optimal Level of Pollution	388
Benefit-Cost Analyses	390
Policy Alternatives	391
Problems in Dealing with Market Failure	394
Information Failure	394
Economic Efficiency Considerations	395
Equity Considerations	395

•• CHAPTER 21

<i>The Malthusian Dilemma</i>	399
The Pessimists	400
The Optimists	401
The Demographic Transition	403
Traditional	403
Developing	404
Developed	405
Land	406

IB CHAPTER 22

<i>Economic Development and Food</i>	409
Quantity of Food	409
For Want of Food	410
Who Is Hungry?	411
Why Hunger?	413
Food Demand During Development	413
Quantity	414
Quality	414
Processing and Marketing	414
<i>Glossary</i>	417
<i>Index</i>	433
