# Contents

<i>Preface</i>	vi
<i>Foreword</i>	xiv
Professor Paul Burton	
<i>List of abbreviations and chemical symbols</i>	xxii
<b>PART I RISKS AND CHALLENGES</b>	
1. Spreading urbanisation and the water environment	5
2. Changing climate and the water environment	25
3. Sustaining urban water environments	44
<b>PART II IMPACTS AND PREDICTIONS</b>	
4. Measuring urban water pollutants	73
5. Source contributions of pollutants	96
6. Modelling water pollutant processes	120
<b>PART III OPPORTUNITIES AND DIRECTIONS</b>	
7. Determining urban sustainability performance	147
8. Assessing sustainability of urban ecosystems	179
9. Achieving urban sustainability and implications for the urban water environment	205
10. Conclusion: Moving towards sustainable water futures	221
