CAMBRIDGE
UNIVERSITY PRESS

Contents

<i>Preface</i>	<i>page xi</i>
1 The Problem of Causality in Macroeconomics	1
1.1. The Legacy of David Hume	2
<i>Accounting for Macroeconomics - Causally</i>	2
<i>Accounting for Causes - Economically</i>	8
<i>Causal Issues</i>	12
1.2 Probabilistic Causality in the Humean Tradition	13
1.3 The Primacy of Structure	22
<i>Implicit Structures</i>	• 22
<i>Making Structures Explicit</i>	23
1.4 Taking Macroeconomics Seriously	26
2 The Notion of Causal Structure	29
2.1 A Conditional Analysis of Causality	29
2.2 Causal Order	34
2.3 Pragmatics	41
2.4 The Causal Field	43
2.5 Probabilistic Causality	49
2.6 Robustness and Invariance	54
2.7 Causal Structure	59
3 Representing Causal Structure	60
3.1 A Set-Theoretic Formalization of Causal Structure	61
3.2 Examples of Causally Ordered Structures	63
<i>A Linear Case</i>	63
<i>A Rational Expectations Model</i>	64
<i>A Regime-Switching Model</i>	66
4 Articulating Causal Structure	69
4.1 Types and Tokens	, 70
4.2 Variables or Tropes?	81
	vii

4.3	Singular Cause and Concrete Structures	87-
4.4	Causality and Laws	100
5	The Reality of Macroeconomic Structures	108
5.1	The Program of Microfoundations	109
5.2	Is Macroeconomics Ontologically Problematic?	112
5.3	The Supervenience of Macroeconomics on Microeconomics	119
5.4	Two Arguments for the Reality of Macroeconomics	124
5.5	Macroeconomic Structures	128
6	Causality and Macroeconomic Constraints	129
6.1	The Nature of Macroeconomics	129
6.2	Temporal Order	131
	(1) <i>Frequency of Observation</i>	134
	(2) <i>Hidden Variables and Temporal Reversal</i>	136
	(3) <i>Long-run versus, Short-run Causality</i>	138
6.3	Marks and Interventions	140
7	Macroeconometrics and Causality	144
7.1	Some Reflections on the History of Causality in Econometrics	144
7.2	Three Current Econometric Approaches to Causality	149
	<i>Granger</i>	150
	<i>Glymour, Schemes, Spirtes, and Kelly</i>	155
	<i>LeRoy</i>	170
7.3	Exogeneity and Causality	174
	<i>Concepts of Exogeneity</i>	175
	<i>The Demand for Money with Extrapolative Expectations</i>	178
	<i>The Demand for Money with Rational Expectations</i>	180
7.4	The Lucas Critique and Causality	182
8	Inferring Causal Direction	191
8.1	A Simple Linear Example	192
8.2	Nonlinear Structures	201
	<i>A Spending Intervention without Cross-Equation Restrictions</i>	203
	<i>A Spending Intervention with Cross-Equation Restrictions</i>	204
	<i>A Tax Intervention with or without Cross-Equation Restrictions</i>	210
8.3	Identifying Interventions	213
	<i>Chow Tests</i>	217
	<i>Plots of Recursive Regression Coefficients</i>	219
	<i>Fluctuation Tests</i>	219

8.4	Linear Methods in the Context of Endogenous Regime Switching	220
	Appendix. The Power of Structural Break Tests Using a Regime-Switching Model: Calibration and Monte-Carlo Design	225
	<i>Calibration</i>	225
	<i>Simulation</i>	226
9	Case Study I: The Causal Direction between Taxes and Government Spending in the Postwar Period	227
9.1	Models and Causal Orderings	227
	<i>A Model of Expenditure Smoothing</i>	227
	<i>A Double-Sided Cost-Benefit Model</i>	228
	<i>A Constant-Share Model</i>	228
9.2	A Chronology of the Tax and Spending Processes	229
9.3	Evidence	231
	<i>The Data</i>	231
	<i>Characterization of Distributions</i>	232
	<i>Observational Equivalence in Practice</i>	236
	<i>Out-of-Sample Projections</i>	238
9.4	Interpretation	245
9.5	Conclusion	246
	Appendix. Data: Sources and Definitions	248
10	Case Study II: The Causal Direction between Money and Prices	250
10.1	Does Money Cause Prices? The Current Debate	250
10.2	Stable and Unstable Periods	251
10.3	Baseline Regressions	253
10.4	Digression: Reaction Function or Causal Relation?	260
10.5	Out-of-Sample Projections	261
	<i>Backward Projections: 1953.4-1950.1</i>	261
	<i>Forward Projections: 1966.3-1985.4</i>	267
	<i>Patterns of Stability</i>	21A
10.6	Does <i>Currency</i> Cause Prices?	276
10.7	Summary and Conclusions	276
	Appendix. Data: Sources and Definitions	278
11	Causality in Macroeconomics	283
	<i>Bibliography</i>	287
	<i>Index</i>	305
