What Neuroscience Tells Us about Morality

Potricio S. Churchlond

Princeton University Press • Princeton and Oxford

Illustrations

2.1. The molecular structure of oxytocin	15
3.1. Subcortical pathways	29
3.2. Spheres of caring	31
3.3. The cerebral cortex	36
3.4. The human pain system	38
3.5. The anatomy of the insula	39
3.6. The cingulate cortex, orbitofrontal cortex, amygdala, and hippocampus	41
3.7. The vagus nerve pathways	43
3.8. The reward system	51
6.1. The prefrontal cortex in six species	120
6.2. Mirror neurons in premotor cortex	136
6.3. Major landmarks on the surface of the human brain	148
