<b>Preface</b>	<b>xiii</b>
<b>Acknowledgments</b>	<b>xvii</b>
<b>1 Received Wisdom on Poverty, Inequality, and Growth</b>	
<b>1 Overview: New Results on Poverty, Inequality, and Growth in the Era of Globalization</b>	<b>1</b>
The Issues	3
The Framework and the Data	5
A Bird's Eye View	6
A More Detailed Overview	7
Results on Absolute Poverty	8
Results on Propoor Growth	9
Has Globalization Worsened Inequality?	10
Has Globalization Been Good for Poor People?	11
Research and Monopolies	11
<b>2 The Pattern of Economic Growth, 1950-2000</b>	<b>13</b>
Data and Methods of Estimating Growth	14
Global Levels of Income and Growth	17
Globalization: Divergence	21
Evidence of Convergence or Divergence	23

<b>3</b>	<b>Inequality as We Know It</b>	<b>29</b>
	Measuring Inequality	31
	Measuring Intertemporal Inequality	32
	Simple Inequality Mathematics	32
	Inequality: Kuznets Curve and Data Requirements	34
	Recent Evidence on Country Inequality	36
	The Evidence Once Again	38
	Tests of Inequality Change	40
	Elasticity of Connection, 1960-2000	44
	Country-Level Inequality	46
	Toward Individual Inequality Estimates	46
	Individual Inequality	47
	Summing Up: The Facts as We Know Them	50
<b>4</b>	<b>Poverty as We Are Told It Is</b>	<b>51</b>
	Defining and Measuring Absolute Poverty	53
	Poverty in the United States	54
	The World Bank Enters the Poverty Arena	56
	First Absolute Poverty Line, Estimates, and Forecasts	57
	The Search for an <i>Absolute</i> Absolute Measure	59
	Rediscovering the \$1-a-Day Poverty Line	61
	The Poverty Line Reduced	63
	Evolving World Bank Definitions of Poverty	67
<b>II</b>	<b>Discussion of Knowledge on Poverty, Inequality, and Growth and Analysis of Data and Methodologies</b>	
<b>5</b>	<b>Taking Stock of the Facts</b>	<b>69</b>
	The Global Pie, 1960-2000	70
	Inequality Trends	70
	Poverty Trends	74
	Not Propoor Growth	74
	Is the Conventional Wisdom Correct?	75
	Facts and Figures	76
	The Importance of Data	77
	Duck and Smell Tests to Differentiate	78
	Experts Debate	78
	Elasticity of the Gini with Growth	79
	Poverty "Smell" Tests	82
	The Need for Alternative Studies	87
<b>6</b>	<b>Recounting Poor People</b>	<b>91</b>
	Definitions and Methods	93
	Using Different PPP Exchange Rates	93

	Differences between World Bank Consumption and Official PPPs	95
	All Indians Were Dead in 1950, or 1960	99
<b>7</b>	<b>Surveys and National Accounts: Can a Choice Be Made?</b>	<b>103</b>
	What Is the Problem?	104
	There Is a Problem Even in the United States	106
	In Defense of Surveys	107
	What Happened to the Survey/National Accounts Ratio?	109
	Unintended Consequences of Moving to Survey Means	111
	Do National Accounts Estimates Have Problems?	113
	Choosing between Surveys and National Accounts	114
	By How Much Do Rich People Understate Expenditures?	116
	Estimating Undercoverage of Rich People	119
	The SAP \$1.50 Poverty Line	120
	“Smell” Tests for Indian Poverty Estimates	121
	Should Surveys or National Accounts Be Used? Or Both?	126
<b>8</b>	<b>Other Methodological Considerations</b>	<b>129</b>
	The Individual versus Countries	129
	Simple Accounting Procedure for Generating W3i	131
	The Kakwani Method of Estimating a Lorenz Curve	133
	Is SAP Accurate?	134
	Using SAP to Identify Errors in Published Ginis	134
<b>III</b>	<b>New Results on Poverty, Inequality, and Growth, Based on Simple Accounting Procedure Methods</b>	
<b>9</b>	<b>Poverty as It Is—and Forecasts for 2015</b>	<b>139</b>
	How Much Poverty Is There in the World?	140
	Where Did Poverty Decline from 1960 to 2000?	141
	The Evolution of World Poverty, 1820-2000	142
	A Digression: How Do You Assess the Best?	146
	Regional Poverty Trends	147
	Time to Raise the Poverty Line	147
	Forecasts for 2000 and 2015	149
<b>10</b>	<b>Reinventing the Kuznets Curve: Propoor Growth</b>	<b>151</b>
	The Search for Propoor Growth	153
	The Growth-Poverty Connection	154
	Propoor Elasticity	155
	Propoor Mathematics	157
	Empirical Estimates of Propoor Growth	158
	Estimating Propoor Elasticity	159
	Has Global Growth Been Propoor?	161

Using Consistent Data	163	
Is the Initial Income Distribution Important?	166	
A Simple Method for Estimating Propoor Growth	167	
Forecast of Poverty in 2015	168	
<b>11 Inequality as It Is</b>	<b>173</b>	
SAR Results for World Inequality, 1950-2000	174	
Regions and Indices	175	
Individual Inequality Studies Compared	177	
How Accurate Are the SAP Estimates?	181	
Poor People Have a High Elasticity of Connection	182	
What Happened with Global Inequality?	183	
The Relationship between Growth and Inequality	185	
The Middle Class	186	
<b>12 Globalization: A Second Look</b>	<b>189</b>	
Income: Before and After	190	
Convergence: New Results	190	
Catch-Up with Globalization	191	
Is There a Poverty-Terrorism Connection?	196	
The Evolution of Living Standards, 1960-2000	196	
<b>13 Conclusion: Roads Not Taken</b>	<b>201</b>	
Different Forks for Different Folks	202	
Answers to Often-Asked Questions	204	
<b>Appendix A The Simple Accounting Procedure Dataset</b>	<b>207</b>	
<b>Appendix B Estimation of the Lorenz Curve, and Its Accuracy</b>	<b>211</b>	
<b>Appendix C Basic Data for the Simple Accounting Procedure</b>	<b>217</b>	
<b>References</b>	<b>225</b>	
<b>Index</b>	<b>235</b>
