University of Illinois at Chicago Illinois. Uf.A

Preface

The history and development of accounting	1
1.1 Introduction	1
1.2 Evolution of double-entry bookkeeping	2
1.3 The development of accounting principles in the USA	6
1.4 Accounting and capitalism	12
1.5 Relevance of accounting history	13
1.6 International accounting issues	14
1.7 Conclusions	19
Appendix 1.A: Major studies of the accounting profession from 1972 through 1995	19
Notes	31
References	34
The nature and uses of accounting	37
2.1 Definitions and role of accounting	38
2.2 Measurement in accounting	42
2.3 The rationale behind double-entry accounting"	45
2.4 Generally accepted accounting principles (GAAP)	46
2.5 Accounting policy and changes	53
2.6 Designed accounting	54
2.7 Technical and ideological proletarianization of accountants	65
2.8 The manufactured consciousness of users	67
2.9 Ethical perspective in accounting	68
2.10 Conclusions	71
Notes	71
References	76
The elements and structure of an accounting theory	79
3.1 Notions of a theory	79
3.2 Notions of concepts	84
3.3 The handling of hypotheses	86
3.4 Context of discovery	92
3.5 Conclusion	93
Notes	93
References	95

The traditional approaches to the formulation of an accounting theory	97
4.1 The nature of accounting: various images	98
4.2 Theory construction and verification	107
4.3 The nature of an accounting theory	108
4.4 Methodologies for the formulation of an accounting theory	109
4.5 Approaches to the formulation of an accounting theory	110
4.6 The eclectic approach to the formulation of an accounting theory	116
4.7 Conclusions	116
Notes	116
References	120
 The regulatory approach to the formulation of an accounting theory	 123
5.1 The nature of accounting standards	124
5.2 Goals of standard-setting	125
5.3 Entities concerned with accounting standards	127
5.4 Who should set accounting standards?	135
5.5 Legitimacy of the standard-setting process	144
5.6 Accounting standards overload	146
5.7 Accounting choice	149
5.8 Standard-setting strategies for the developing countries	150
5.9 Conclusions	153
Appendix 5.A: Members of International Accounting Standards Board	153
Notes	155
References	158
 A conceptual framework for financial accounting and reporting	 163
6.1 Classification and conflicts of interests	164
6.2 Toward a formulation of the objectives of financial statements	165
6.3 Toward a conceptual framework	173
6.4 The other reports	190
6.5 Taxonomy of normative characteristics that accounting pronouncements should reflect	197
6.6 Discussion and conclusions	197
Notes	202
References	205
 The structure of accounting theory	 209
7.1 The nature of the structure of an accounting theory	210
7.2 The nature of the accounting postulates, theoretical concepts and principles	211
7.3 The accounting postulates	212
7.4 The theoretical concepts of accounting	215
7.5 The accounting principles	217
7.6 Truth in accounting	230
7.7 Conclusions	236
Appendix 7. A: The basic postulates of accounting (ARS 1)	237
Appendix 7.B: A tentative set of broad accounting principles for business enterprises (ARS 3)	238
