Abstract.....	5
Tiivistelmä.....	6
1 Introduction.....	9
2 A review of price setting in the recent (open economy) literature.....	14
2.1 The basic setup.....	15
2.1.1 Preferences and price indices.....	15
2.1.2 Consumption-based purchasing power parity and the law of one price.....	17
2.1.3 Nominal rigidities and price setting behavior in an open economy.....	20
2.1.4 Demand curve facing each monopolist.....	25
2.2 Behavior of firms.....	26
2.2.1 Production structure and monopolistic competition.....	27
2.2.2 Optimal price setting under flexible prices.....	28
2.2.3 Nominal rigidities and forward looking behavior..	30
3 A model of price setting in the foreign trade sector.....	34
3.1 The problem of the exporting firm.....	35
3.1.1 Case 1: Local currency pricing.....	36
3.1.2 Case 2: Producer currency pricing.....	38
3.1.3 Combining case 1 & case 2.....	40
3.2 The problem of the importing firm.....	42
3.2.1 Case 1: Local currency pricing.....	42
3.2.2 Case 2: Producer currency pricing.....	43
3.2.3 Combining case 1 & case 2.....	44
3.3 Discussion.....	46
4 The determination of Finnish foreign trade prices.....	49
4.1 Data.....	49
4.1.1 Import prices.....	52
4.1.2 Export prices.....	56
4.2 Choice of econometric method.....	61

4.3	Estimation results.....	63
4.3.1	Import prices.....	63
4.3.2	Export prices.....	67
4.3.3	Robustness analysis.....	69
4.4	Discussion.....	72
5	Conclusions.....	75
	References.....	79
A	Appendix.....	83
A.I	Theoretical variables and operational counterparts.....	83
