## Contents

*Preface* vii  
*Acknowledgments* ix  

1. Nonlinear dynamism of innovation: executive summary 1  

### PART I DIFFUSION OF INNOVATION AND ECONOMIC GROWTH  

2. Dynamics of product diffusion and economic development 33  
3. Kondratiev business cycles and innovation dynamism 51  
4. Sequence of bubble, crash and depression 79  
5. Trunk innovations and institutional change 89  

### PART II DYNAMICS OF TECHNOLOGICAL DEVELOPMENT AND EMERGENCE OF NEW INDUSTRIES  

6. Technological development and the innovation paradigm 127  
7. Comprehensive description of the innovation paradigm and the role of the development trajectory 165  
8. National systems of innovation and industrial competitiveness 190  
9. Technology fusion and the evolution of innovation paradigms 234  

### PART III NONLINEAR DYNAMICS OF INNOVATION AND KNOWLEDGE TRANSFER  

10. Knowledge transfer and complexity in innovation systems 279  
11. Technology foresight and long-term perspectives 314  

### PART IV NEW INSIGHT INTO THE ECONOMICS OF TECHNOLOGICAL CHANGE  

12. Nonlinear dynamics of economic development 365
