Table of Contents

1. Introduction 1

2. Basic questions, early theories and empircal evidence 7
2.1 What is business cycle theory about? 7
2.2 A brief sketch of early theories 11
2.3 Stylized facts 16

3. Stability of the economy 23
3.1 Introduction 23
3.2 Stability of steady state equilibria 25
3.2.1 Backward oriented systems 25
3.2.2 One-step forward looking systems 29
3.2.3 Sunspots 33
3.3 Structural stability of a dynamical system 37

4. Survey of modern business cycle theory 41
4.1 Introduction 41
4.2 Business cycles in a stable economic system 43
4.2.1 Political business cycle models 43
4.2.2 Monetarist business cycle models 46
