

**Julia von Maltzan Pacheco**

# **The Influence of Ratings on International Finance Markets**

With a foreword  
by Prof. Dr. Gerd Hansen

**Deutscher Universitats-Verlag**

## List of Contents

<b>1. Capital Flows to Emerging Markets</b> .....	<b>1</b>
1.1 Capital Flows: Past and Presence.....	1
1.2 Theoretical and Empirical Research on Country Risk.....	7
1.2.1 Classical Default Models.....	9
1.2.1.1 The Debt-Service Capacity Approach.....	9
1.2.1.2 The Cost-Benefit Approach.....	10
1.2.2 Currency and Banking Crisis Models.....	11
1.2.2.1 The First Generation of Currency Crisis Models.....	11
1.2.2.2 The Second Generation of Currency Crisis Models.....	12
1.2.2.3 Banking Crisis Models.....	12
1.2.2.4 Models of Multiple Equilibria and Self-fulfilling Crisis.....	13
1.2.2.5 Contagion Causing Default.....	14
1.2.3 Empirically Significant Crisis Indicators.....	15
1.3 Structure of the Study.....	17
<b>2. Risk and Economic Activity</b> .....	<b>19</b>
2.1 Economic Theory and Risk.....	19
2.2 Some More Thoughts About Risk and Its Perception.....	21
2.3 Evaluating Risk.....	23
2.3.1 Measurements of Discrete and Continuous Variables.....	23
2.3.2 Measurements of Non Observable Variables.....	25
2.4 Risk Indicators and Their Application in the 'Real' World.....	26
2.4.1 Macroeconomic Risk.....	27
2.4.2 Political and Legal Risk.....	28
2.4.2.1 Political Risk.....	28
2.4.2.2 Legal Risk.....	30
2.4.3 Financial Risk.....	30
2.4.3.1 Exchange Rate Risk.....	31
2.4.3.2 Credit Market Risk.....	32
2.4.3.3 Equity Market Risk.....	32
2.4.3.4 Debt Market Risk.....	32
2.4.3.5 Capital Market Risk.....	33
2.4.3.6 Suppliers of Financial Risk Indicators.....	33
2.5 Measuring Risk Perception in Financial Markets.....	34
2.5.1 The Relation Between Lenders and Borrowers.....	34
2.5.2 Market Efficiency.....	35

- 2.5.3 Pricing Default Risk: Some Measurement Methods..... 35
  - 2.5.3.1 The Signalling Theory..... 36
  - 2.5.3.2 The Option Pricing Model..... 36
  - 2.5.3.3 The Interest Spread Model..... 38
  - 2.5.3.4 The Default Premium Model ..... 39
- 3. Sovereign Risk: Who Rates Whom and How?..... 43**
  - 3.1 The History of the Rating Industry..... 43
  - 3.2 The Rating Categories..... 46
  - 3.3 The Role of Rating Agencies in Financial Markets..... 49
    - 3.3.1 Rating as Default Indicator..... 50
    - 3.3.2 Rating as Risk Indicator for Other Financial Instruments ..... 54
  - 3.4 The Rating Procedure..... 55
  - 3.5 Potential and Problems of Rating Agencies..... 57
  - 3.6 Give Small Rating Agencies Upward Biased Ratings?!..... 62

**The Influence of Ratings on International Finance Markets**  
**- Empirical Part - i ^ - 67**

---

- 4. Ratings' Impact on Financial Market Returns..... 69**
  - 4.1 Methodology of Event Studies..... 69
    - 4.1.1 Event Definition..... 71
    - 4.1.2 Selection Criteria..... 72
    - 4.1.3 Normal and Abnormal Returns..... 72
      - 4.1.3.1 Constant-Mean-Return Model..... 73
      - 4.1.3.2 Market Model..... 73
      - 4.1.3.3 Normal and Abnormal Returns for Government Bonds ..... 74
      - 4.1.3.4 Normal and Abnormal Returns for Stock Markets..... 74
    - 4.1.4 Testing Procedure..... 75
      - 4.1.4.1 Abnormal Government Bond Yields..... 75
      - 4.1.4.2 Abnormal Stock Market Returns..... 76
      - 4.1.4.3 Derivation of the Test-Statistic for the Null-Hypothesis..... 77
      - 4.1.4.4 Non-Parametric Methods..... 78
  - 4.2 Data and Sample Selection..... 79
  - 4.3 Relative Yield Spreads and Rating Changes — Empirical Results..... 81
  - 4.4 Stock Market Returns and Rating Changes - Empirical Results..... 89
  - 4.5 The Wilcoxon's Sign Rank Test..... 95
  - 4.6 Interpretation and Conclusion..... 96
  - 4.7 Appendix..... 99

4.7.1	Definition of Bond Prices.....	99
4.7.2	Event study, daily data set: yield spreads.....	99
4.7.3	Event study, daily data set: excess stock market returns.....	104
4.7.4	Annual Stock Market Returns.....	106
4.7.5	The Wilcoxon's Sign Rank Test: Results.....	131
<b>5.</b>	<b>Rating and Their Determinants: An Empirical Attempt.....</b>	<b>143</b>
5.1	Theoretical Background. <sup>1</sup> .....	143
5.2	Data.....	145
5.3	Estimation Method.....	146
5.3.1	Fixed-Effect Model in One-Way Error Component Regressions.....	146
5.3.2	Simultaneous Equations with One-Way Error Components.....	146
5.4	Results of Simultaneous Equation System.....	148
5.5	Appendix.....	152
5.5.1	Data description:.....	152
<b>6.</b>	<b>Granger Causality between Ratings and Yields.....</b>	<b>157</b>
6.1	Econometric Background.....	160
6.2	Data.....	161
6.2.1	Data for Annual Panel.....	162
6.2.2	Data for Monthly Panel.....	162
6.3	Estimation Methodology.....	162
6.3.1	Simultaneous Equations with Error Components.....	162
6.3.1.1	Single Equation Estimation.....	162
6.3.1.2	System Estimation.....	163
6.3.2	Dynamic Panel Data Models.....	164
6.4	Result of Granger-Causality Tests.....	167
6.5	Appendix.....	172
6.5.1	Granger Causality Test, Unbalanced Annual Panels.....	172
6.5.2	Granger Causality Test, Unbalanced Monthly Panels.....	172
6.5.3	Granger Causality Test, Balanced Monthly Panel.....	176
<b>7.</b>	<b>Policy Conclusion.....</b>	<b>181</b>
7.1	Rating Agencies and International Financial Markets.....	181
7.2	What Remains to Be Done?.....	182
7.2.1	Policy Implications for Emerging Markets.....	182
7.2.1.1	Macroeconomic Policies to Prevent Financial Crisis.....	183
7.2.1.2	Financial Liberalisation, Domestic Banking Reforms, and Corporate Governance.....	185
7.2.1.3	Capital Controls: The Solution?.....	187

- 7.2.2 Reconstructing the International Financial System.....190
  - 7.2.2.1 Transparency and Risk Management within Financial Markets.....191
  - 7.2.2.2 Hedge funds' Impact on Financial Markets.....192
  - 7.2.2.3 The Private Sector: Burden-Sharing and Market Discipline.....193
  - 7.2.2.4 Who Should Be the Lender of Last Resort?.....194
- 7.3 Final Remarks.....196
- Literature.....199**
