THEORY

TOWARD A GENERAL THEORY
OF MARKETING

SHELBY D. HUNT

.E. Sharpe
Armonk, New York
London, England

CONTENTS

Preface	xiii
1 Introduction	3
1.1 Three Contradictions?	3
1.2 Objectives of Monograph	7
1.3 The Nature of Marketing	8
1.3.1 The Scope of Marketing	11
1.3.2 Is Marketing a Science?	17
1.4 The Nature of Science	19
1.5 The Unity of Scientific Method	22
1.5.1 Discovery Versus Justification	24
1.6 Conclusions on Marketing Science	29
1.7 The Three Dichotomies Model: An Evaluation	30
1.7.1 The Positive/Normative Dichotomy in Philosophy of Science	31
1.7.2 Is the Positive/Normative Dichotomy False?	32
1.7.3 Is the Positive/Normative Dichotomy Dangerous?	33
1.7.4 Is the Positive/Normative Dichotomy Unnecessary?	33
1.7.5 Is the Positive/Normative Dichotomy Meaningless?	35
1.7.6 Is the Positive/Normative Dichotomy Useless?	36
1.7.7 Is All of Marketing Thought Normative?.	37
1.8 The Three Dichotomies Model as a General Taxonomical Framework for Marketing	41
1.9 Plan of Monograph	42
Questions for Analysis and Discussion	44
2 On the Marketing Discipline	48
2.1 On Marketing as	"~ 48
2.1.1 A University Discipline	49
2.1.2 An Applied Discipline	53
2.1.3 A Professional Discipline	55

CONTENTS

2.1.4	A Set of Responsibilities	58
2.1.5	Conclusion on the Nature of the Marketing Discipline	64
2.2	On the Nature of Marketing Research	64
2.2.1	Research Questions in Marketing	65
2.2.2	Conclusion on the Nature of Marketing Research	72
2.3	On Marketing's Aversion to Qualitative Methods	73
2.3.1	The Nature of Scholarly Journals	73
2.3.2	Three Reasons for the Aversion	74
2.3.3	The Fourth Reason: The "Standard Argument"	75
2.3.4	Conclusion on the Aversion to Qualitative Methods	80
	Questions for Analysis and Discussion	80
	The Morphology of Explanation	85
3.1	Explanations in Marketing	85
3.2	Criteria for Evaluating Explanatory Models	86
3.3	Deductive-Nomological Explanation	88
3.4	Statistical Explanation	89
3.4.1	Theories of Probability	90
3.4.2	Statistical Explanation and the Social Sciences	91
3.4.3	Deductive-Statistical Explanation	92
3.4.4	Inductive-Statistical Explanation	93
3.5	Are Logical Empiricist Models of Explanation Adequate?	98
3.5.1	Is the D-N Model Dead?	98
3.5.2	Is the I-S Model Dead?	100
3.6	The Pattern Model	103
3.7	Functionalist Explanation	105
3.7.1	Uses of the Terms <i>Function</i> and <i>Functional Explanation</i>	105
3.7.2	Preliminary Problems of Functional Explanation	107
3.7.3	The Logic of Functional Explanation	108
3.7.4	Functionalism in the Context of Discovery	111
3.8	Summary and Conclusions	112
	Questions for Analysis and Discussion	113
	Explanation: Issues and Aspects	116
4.1	Explanation, Prediction, and Retrodiction	116
4.1.1	Explanations as Potential Predictions	117
4.1.2	Predictions as Potential Explanations	120
4.1.3	Are Explanations and Predictions Potential Retrodictions?	121
4.2	Causal Explanations	122
4.2.1	The Notion of Causality	123
4.2.2	Evidence for Causation	126

4.3	Explanatory Incompleteness, Explanation Chains, and Infinite Regress	129
4.3.1	Marketing Explanation Chains	129
4.4	Other Forms of Explanatory Incompleteness	131
4.4.1	Enthymemes	131
4.4.2	Partial Explanations	131
4.4.3	Explanation Sketches	131
4.5	The Fundamental Explananda of Marketing	132
4.6	A Product Life Cycle Explanation	134
4.7	A Consumer Behavior Explanation	135
4.7.1	A Reconstruction of the Explanation	136
4.7.2	Structural Analysis of the Explanation	137
4.8	A Price Discrimination Explanation	138
4.9	A Wheel of Retailing Explanation	139
4.9.1	The Wheel of Retailing and Competition for Differential Advantage	140
4.10	Summary and Conclusions	142
	Questions for Analysis and Discussion	143
5	The Morphology of Scientific Laws	145
5.1	Role of Laws in Marketing Research	146
5.2	The First Criterion: Generalized Conditionals	147
5.3	The Second Criterion: Empirical Content	150
5.4	The Third Criterion: Nomic Necessity	152
5.5	The Fourth Criterion: Systematic Integration	154
5.5.1	Role of Empirical Generalizations	158
5.6	Summary	160
	Questions for Analysis and Discussion	161
6	Scientific Laws: Issues and Aspects	164
6.1	The Time Issue	164
6.1.1	Equilibrium Laws	165
6.1.2	Laws of Atemporal Coexistence	168
6.1.3	Laws of Succession	170
6.1.4	Process Laws	171
6.2	Axioms, Fundamental Laws, and Derivative Laws	172
6.2.1	Bridge Laws	174
6.3	Extension and Universality	176
6.3.1	Singular Statements	177
6.3.2	Existential Statements	178
6.3.3	Statistical Laws	179

CONTENTS

6.3.4 Universal Laws	182
6.4 Summary and Conclusions	184
6.5 Problems in Extension: The Psychophysics of Prices	186
Questions for Analysis and Discussion	189
The Morphology of Theory	191
7.1 The Notion of Theory	191
7.2 Misconceptions of Theory	193
7.3 The "Systematically Related" Criterion	195
7.3.1 Formal Language Systems	197
7.3.2 Axiomatic Formal Systems	199
7.3.3 Rules of Interpretation	201
7.3.4 Issues of Formalization	202
7.3.5 The "General Theory of Marketing": A Partial Formalization	204
7.3.6 The Theory of Buyer Behavior: A Partial Formalization	206
7.4 The "Lawlike Generalizations" Criterion	208
7.5 The "Empirically Testable" Criterion	209
7.5.1 The Nature of Empirical Testing	211
7.5.2 The Empirical Testing Process	212
7.5.3 On Confirmation	215
7.6 Summary	217
Questions for Analysis and Discussion	217
Theory: Issues and Aspects	222
8.1 Classificational Schemata	222
8.1.1 Logical Partitioning	224
8.1.2 Grouping Procedures	227
8.1.3 Criteria for Evaluating Classificational Schemata	229
8.2 Positive Versus Normative Theory	236
8.3 Deterministic Versus Stochastic Theory	239
8.3.1 The Nature of Deterministic Theory	240
8.3.2 Uncertainty in Explanation	241
8.3.3 Determinism and Marketing Theory	242
8.4 The Nature of General Theories	244
Questions for Analysis and Discussion	246
Toward a General Theory of Marketing	248
9.1 An Overview of Resource-Advantage (R-A) Theory	249
9.1.1 The Structure and Foundations of R-A Theory	251
9.2 R-A Theory Is a General Theory of Competition	255
9.2.1 Explanatory Power	255

9.2.2 Perfect Competition Theory and R-A Theory	257
9.3 The Theory of Market Processes	261
9.3.1 Effective Competition	261
9.3.2 Alderson's Functionalist Theory	263
9.3.3 Market Processes and R-A Theory	266
9.4 A Positive Foundation for Strategy	268
9.4.1 Business Strategy	268
9.4.2 Marketing Strategy	272
9.5 Strategy and R-A Theory	274
9.5.1 Market Segmentation Strategy and R-A Theory	275
9.5.2 Resource-based Strategy and R-A Theory	277
9.5.3 Competence-based Strategy and R-A Theory	279
9.5.4 Industry-based Strategy and R-A Theory	280
9.5.5 Market Orientation Strategy and R-A Theory	281
9.5.6 Relationship Marketing Strategy and R-A Theory	282
9.6 A Final Note	284
Questions for Analysis and Discussion	285
References	289
Index	309
