

Biopolymers

Edited by A. Steinbuechel

Volume 3b

Polyesters II

Properties and Chemical Synthesis

Edited by Y Doi and A. Steinbuechel

WILEY-VCH

Contents

1	Methods for Analysis of Poly(3-hydroxyalkanoate) Composition	1
	<i>Ing. Theo C. de Rijk, Ing. Pieter van de Meer, Dr. Gerrit Eggink, Dr. Ruud A. Weusthuis</i>	
2	Intracellular Degradation of PHAs	23
	<i>Dr. Terumi Saito, Dr. Teruyuki Kobayashi</i>	
3	Extracellular Polyhydroxyalkanoate Depolymerases: The Key Enzymes of PHA Degradation	41
	<i>Priv.-Doz. rex. nat. Dieter Jendrossek</i>	
4	Microbial Degradation of Aliphatic Polyesters	85
	<i>Dr. Yutaka Tokiwa, Dr. Hardaning Pranamuda</i>	
5	Molecular and Material Design of Biodegradable Poly(hydroxyalkanoate)s	105
	<i>Dr. Hideki Ahe, Dr. Yoshiharu Doi</i>	
6	Structure, Composition and Solution Properties of PHAs	133
	<i>Dr. Naoko Yoshie, Prof. Yoshio Inoue</i>	
7	Crystallization and Material Properties of Polyhydroxyalkanoates	157
	<i>Dr. Robert H. Marchessault, Dr. Ga-er Yu</i>	
8	Structure and Hydrolysis of Polyester Single Crystals	203
	<i>Dr. Tadahisa Iwata, Dr. Yoshiharu Doi</i>	
9	Physical and Processing Properties of Polyhydroxyalkanoate Copolymers	231
	<i>Dr. Michael M. Satkowski, Dr. David H. Melik, Dr. Jean-Phillipe Autran, Phillip R. Green, Dr. Isao Noda, Dr. Lee A. Schechtman</i>	
10	Fermentative Production of Building Blocks for Chemical Synthesis of Polyesters	265
	<i>Dr. Sang Yup Lee, Dr. Sang Hyun Park, M. Eng. Soon Ho Hong, M. Eng. Young Lee, M. Eng. Seung Hwan Lee</i>	
11	General Methodology for Chemical Synthesis of Polyesters	327
	<i>Dr. Jukka V. Seppälä, Lie. Sci. Hani Korhonen, Dr. Janne Kylmä, Lie. Sci. Jukka Tuominen</i>	

XII Contents

12 Mechanisms of Aliphatic Polyester Formation	371
<i>Dr. Andrzej Duda, Dr. Stanislaw Penczek</i>	
13 Chemical Synthesis and Properties of Well-defined Oligomeric Esters	431
<i>Dr. Ikuo Taniguchi and, Dr. Yoshiharu Kimura</i>	
14 Index	449
