Contents

Introduction: Choosing the Correct Statistics *page* 1

Introduction 1
Summarising and Describing 1
Summarising Data 1
Describing Method Performance 1
Comparisons and Significance Testing 2
Comparing Results or Means with a Given Value 2
Comparing Results or Averages with One Another 2
Statistical Information Relating to Methods 3
Accuracy (Mean Results) 3
Precision or Spread of Data (Dispersion) 3
Calibrating Instruments 3
Significance or How Likely Is It? 4
Data Checking 4
Setting up QC Charts **4**

Descriptive Statistics **5**

Cumulative Frequency 5
Histogram 5
Frequency Polygon 6
Cumulative Distribution 6
Frequency Curve 6
Random Sample 7

Distribution Descriptives **7**

Measures of Location 7
Arithmetic Mean 8
Median 8
Mode 8
Measures of Dispersion 8
Variance 9
Standard Deviation 9
Standard Deviation of the Mean 9
Range 9
Relative Standard Deviation 9
Coefficient of Variation 9
Skewness 9
Kurtosis 10

Probability Distributions **10**

The Normal Distribution 10
Normal Probability Paper 11
Skew Distributions 11

Confidence Limits **13**

Accuracy and Precision **13**

Accuracy 13
Precision 13

Significance Testing 14

F-Test 14
The Student f-Test 15
Comparison with a Known Value 15
Comparison of Two Independent Sets of Data 15
Paired Comparisons 16

Outlier Tests **17**

The Dixon Test 17
The Grubbs Tests 18
The Cochran Test 18
The Bartlett Test 19
Robust Statistics 20

The ANalysis Of VAriance **21**

Nature of Variation 21
One Way ANalysis Of VAriance 21
Two Way ANalysis Of VAriance 23

Linear Regression **27**

Correlation Coefficient 30
Variation in a Result Estimated from a Regression Line 31
Confidence Intervals for the Slope, Intercept and Predicted Value 32

Polynomial Regression **32**

Repeatability Standard Deviation **34**

Reproducibility Standard Deviation **35**

Repeatability *(r)* 35
Reproducibility *(R)* 35

Control Charts **36**

Construction of a Shewhart Chart 36
Shewhart Decision Rules 37
Construction of CuSum Charts 37
Scaling 38
How to Construct a Truncated v-Mask . 39
CuSum Decision Rules 40
Application of Control Charts **40**

Statistical Sampling **41**

Appendix A **42**

Table 1: Critical Values for the Dixon Test 42
Table 2: Critical Values for the Cochran Test 43
Table 3: Critical Values for the Grubbs Tests 46
Table 4: Critical Values for the Student r-Test 49
Table 5: 95% Critical Values for the F-Test 51
Table 5: 97.5% Critical Values for the F-Test 52
Table 5: 99% Critical Values for the F-Test 53
Table 5: 99.5% Critical Values for the F-Test 54
Table 6: 95% Critical Values for the Bartlett Test 55
Table 6: 99% Critical Values for the Bartlett Test 56

Table 7: Critical Values for the Pearson Skewness Test 57
Table 8: Critical Values for the Kurtosis Test 57

Appendix B **58**
List of Symbol Notation 58

Appendix C **59**
Questions and Solutions 59

Appendix D **97**
Normal Probability Paper 97

Subject Index **98**
