Information Systems for Sustainable Development

Table of Contents

Preface.....vii

Section I: Environmental Performance and Eco-Efficiency

Chapter I. EPE According to ISO 14031: Concept, Experience, and Revision Issues.....1
Eberhard K. Seifert, Wuppertal Institute, Germany

Chapter II. Life Cycle Assessment Databases as Part of Sustainable Development Strategies: The Example of Ecoinvent.....15
Roland Hirschier, Swiss Federal Laboratories for Materials Testing & Research, Switzerland
Paul W. Gilgen, Swiss Federal Laboratories for Materials Testing & Research, Switzerland

Chapter III. Ecoinvent Database: Quality Control and User Interfaces for a Web-Based Life Cycle Assessment Database.....25
Rolf Frischknecht, Centre for Life Cycle Inventories, Switzerland

Chapter IV. Organisation Models and Information Systems for Production-Integrated Environmental Protection (OPUS).....39
Hans-Dietrich Haasis, Institute of Shipping Economics and Logistics, Germany
Gunnar Jiirgens, Continental Teves AG & Co. oHG, Germany
Torsten Kriwald, Institute of Shipping Economics and Logistics, Germany

Chapter V. Integration of Material Flow Management Tools in Workplace Environments.....	47
<i>Jan Hedemann, ifu Institut für Umweltinformatik Hamburg GmbH, Germany</i>	
<i>Andreas Moller, University of Lüneburg, Germany</i>	
<i>Peter Müller-Beilschmidt, ifu Institut für Umweltinformatik Hamburg GmbH, Germany</i>	
<i>Dirk Rohdemann, SAP AG, Germany</i>	
<i>Mario Schmidt, Fachhochschule Pforzheim, Germany</i>	
<i>Bernd Schmitt, SAP AG, Germany</i>	
Chapter VI. Eco-Efficient Controlling of Material Flows with Flow Cost Accounting: ERP-Based Solutions of the ECO Rapid Project.....	62
<i>Stefan Enzler, Institut für Management und Umwelt, Germany</i>	
<i>Helmut Krcmar, Technische Universität München, Germany</i>	
<i>Roland Pfennig, Green IT GmbH, Germany</i>	
<i>Wolfgang Scheide, Green IT GmbH, Germany</i>	
<i>Markus Strobel, Institut für Management und Umwelt, Germany</i>	
Chapter VII. Advanced Middleware for eScience Applied to Environmental Integrated Systems.....	76
<i>Catherine Houstis, Institute of Computer Science, FORTH, Greece</i>	
<i>Spyros Lalis, Institute of Computer Science, FORTH, Greece</i>	
<i>Emmanuel Vavalis, Institute of Computer Science, FORTH, Greece</i>	
<i>Marios Pitikakis, Institute of Computer Science, FORTH, Greece</i>	
<i>George V. Vasilakis, Institute of Computer Science, FORTH, Greece</i>	
Chapter VIII. Linking Economic Optimisation and Simulation Models to Environmental Material Flow Networks for Ecoefficiency.....	94
<i>Bernd Page, University of Hamburg, Germany</i>	
<i>Volker Wohlgemuth, University of Hamburg, Germany</i>	
Chapter IX. Virtual Networking without a Backpack? Resource Consumption of Information Technologies.....	.109
<i>Justus von Geibler, Wuppertal Institute, Germany</i>	
<i>Michael Kuhndt, Wuppertal Institute, Germany</i>	
<i>Volker Türk, Wuppertal Institute, Germany</i>	

Section II: Supporting Change Toward Sustainability

Chapter X. A Social Context Model for Discussion Process Analysis.....	128
<i>Aldo de Moor, Tilburg University, The Netherlands</i>	
<i>Rolf Kleef, AIDEnvironment, The Netherlands</i>	
Chapter XI. E-Organization and the Sustainable Information Society...	146
<i>Uwe Schneidewind, University of Oldenburg, Germany</i>	
Chapter XII. Corporate Sustainability Reporting: A Case for the Internet.....	164
<i>Ralf Isenmann, University of Kaiserslautern, Germany</i>	
Chapter XIII. Web Portals: A Tool for Environmental Management__	213
<i>Martin Kreeb, University of Hohenheim, Germany</i>	
<i>Werner Schulz, University of Hohenheim, Germany</i>	
<i>Christof Vofielier, University of Hohenheim, Germany</i>	
<i>Helmut Krcmar, Technical University Munich, Germany</i>	
<i>Annette Rudel, Technical University Berlin, Germany</i>	
Chapter XIV. From "Industrial Symbiosis" to "Sustainability Networks".....	229
<i>Alfred Posch, Karl-Franzens-University Graz, Austria</i>	
Chapter XV. Information Systems for Co-Operative Procurement of Organic Food as a Basis for Decentralised Eco-Villages.....	243
<i>Stefan Naumann, University of Applied Sciences Trier, Germany</i>	
Chapter XVI. ORISS: A Web-Based Carpooling System.....	260
<i>Simon Giesecke, RWTH Aachen University, Germany</i>	
<i>Gerriet Reents, Carl von Ossietzky University, Germany</i>	
Chapter XVII. Citizen-Centered Environmental Information Dissemination via Multiple Information Channels.....	...111
<i>Thomas Rose, FIT, Germany</i>	
<i>Gertraud Peinel, FIT, Germany</i>	
<i>Kostas Karatzas, IT Environmental Consultant, Greece</i>	
<i>Per Henrik Johansen, Norgit AS, Norway</i>	
<i>Jon Erik Lindberg, Norgit AS, Norway</i>	

Chapter XVIII. Accessing Public Sector Environmental Data and Information: Development and Demonstration of a National Portal291

Chris Jarvis, Environment Agency, UK

John Kupiec, Environment Agency, UK

Section III: Risk Management

Chapter XIX. The Integration of Safety, Environmental and Quality Management Systems.....304

Werner Straufi, Kisters AG, Germany

Klaus-Dieter Herrmann, Kisters AG, Germany

Christoph Roenick, Kisters AG, Germany

Chapter XX. Support of Integrated Management Systems by the Use of In-Plant Information, Management and Monitoring Systems——317

Stefan Broker, Institute of Environmental Management Consultancy, Germany

Chapter XXI. Remote Monitoring of Nuclear Power Plants in Baden-Württemberg, Germany.....333

Walter Hiirster, T-Systems GEI GmbH, Germany

Klaus Bieber, T-Systems GEI GmbH, Germany

Bruno Klahn, T-Systems GEI GmbH, Germany

Reinhard Micheler, T-Systems GEI GmbH, Germany

Thomas Wilbois, T-Systems GEI GmbH, Germany

Roland Obrecht, Ministry of Environment & Transport, Stuttgart, Germany

Fritz Schmidt, IKE, University of Stuttgart, Germany

Chapter XXII. Development of a Decision Support Tool for Technological Risk Management with Remote Sensing and GIS.....342

Nektarios Chrysoulakis, Foundation for Research & Technology - Hellas, Greece

Poulicos Prastacos, Foundation for Research & Technology - Hellas, Greece

Constantinos Cartalis, University of Athens, Greece

About the Editors.....354

About the Authors.....356

Index.....374
