CAN INDUSTRIAL HEMP PRODUCTION BE A FEASIBLE ALTERNATIVE FOR AGRO-INDUSTRIAL DEVELOPMENT IN COLOMBIA?

Author: Xiomara Fernanda Quinones Ruiz

Supervisors:
Professor Dr. Jan Priewe
Professor Dr. Volker Boehme-NeBler

Thesis submitted in partial fulfillment of the requirements of the Master's Degree of International and Development Economics
University of Applied Sciences Berlin
June 12th, 2006
# Industrial hemp as a feasible alternative for industrial development in Colombia?

**Contents**

## Abstract
- 2

## List of Diagrams, Figures and Tables
- 5

## Abbreviations
- 6

### 1.0 Introduction
- 7
  1.1 Research questions, hypotheses and ordering of chapters
  - 9
  1.2 Research methodology
  - 11

### 2.0 Background of and problems in Colombia
- 11

### 3.0 Industrial hemp
- 18
  3.1 Generalities
  - 18
    3.1.1 Crop description
    - 20
      3.1.1.1 Farming conditions
      - 20
      3.1.1.2 Harvesting, retting and fiber separation
      - 20
    3.1.2 World production of industrial hemp
    - 24
      3.1.2.1 Case study 1: Germany and the European Union
      - 24
      3.1.2.2 Case study 2: Current status of hemp production in Spain
      - 26
  3.2 General economic analysis of hemp production
  - 27
    3.2.1 Possible yields
    - 27
    3.2.2 Estimated costs and returns projections
    - 28
    3.2.3 The role of subsidies in Germany and the European Union
    - 33
  3.3 Political issues
  - 35

### 4.0 An agricultural development strategic framework for industrial hemp production
- 37

### 5.0 Conclusions
- 42
