Conservation of Polyurethane Foam in Art and Design

PUR Research Project by
Thea van Oosten
Aleth Lome
Olivier Beringuer

AMSTERDAM UNIVERSITY PRESS

Table of Contents

Preface	7
Introduction	9
1 Polyurethanes, manufacture and applications	13
2 Chemistry, properties and degradation	29
3 History of polyurethane foam conservation	47
4 Ageing behaviour of polyurethane foam	57
4.1 Materials and methods	57
4.2 Consolidation of polyurethane foam	61
4.3 Sun Block for polyurethane ether foam	69
5 Assessing the condition of polyurethane foam	81
5.1 Condition of polyurethane ester and ether foam	81
5.2 Condition of polyurethane foam of works of art and design objects	86
5.3 Instruction for the consolidation of new and aged polyurethane ether foam	87
6 Case studies	91
6.1 <i>Zuccaia</i> (1991) by Piero Gilardi	91
The adventurous consolidation of a polyurethane ether foam Nature Carpet by Aleth Lome	
6.2 <i>Sassi</i> (1972), by Piero Gilardi	107
Restoration project carried out by the Barbara Ferriani Conservation Studio, Milan	
Acknowledgements	115
Glossary	117
General information	121
Bibliography	123
