

Materials Science and Technology

A Comprehensive Treatment

Edited by
R.W. Cahn, P. Haasen, E.J. Kramer

Volume 5
Phase Transformations in Materials

Volume Editor: Peter Haasen

Weinheim · New York · Basel · Cambridge

Contents

1	Thermodynamics and Phase Diagrams of Materials	1
	<i>A. D. Pelton</i>	
2	Diffusion in Crystalline Solids	75
	<i>G. E. Murch</i>	
3	Statistical Theories of Phase Transitions	143
	<i>K. Binder</i>	
4	Homogeneous Second Phase Precipitation	213
	<i>R. Wagner, R. Kampmann</i>	
5	Transformations Involving Interfacial Diffusion	305
	<i>G. R. Purdy</i>	
6	Diffusionless Transformations	339
	<i>L. Delaey</i>	
7	Spinodal Decomposition	405
	<i>K. Binder</i>	
8	High Pressure Phase Transformations	473
	<i>A. L. Ruoff</i>	
9	Atomic Ordering	497
	<i>W. Pitsch, G. Inden</i>	
10	Solidification	553
	<i>H. Müller-Krumbhaar, W. Kurz</i>	
	Index	633
