## Phylogeny and the Classification of Fossil and Recent Organisms

Proceedings of a Symposium  
Organized by the Deutsche Forschungsgemeinschaft

Edited by  
NORBERT SCHMIDT-KITTLER, Mainz  
and  
RAINER WILLMANN, Kiel

With 92 Figures and 2 Tables

1989    Schriftleitung: Prof. Dr. OTTO KRAUS, Hamburg

B 30 088

Institut für Angewandte Geowissenschaften  
T U Darmstadt

**Standort** Pal. 410

# Contents

Preface . . . . .	5
I. Introduction . . . . .	9
KRAUS, O.: Phylogenetic Systematics: Introductory remarks . . .	11
II. Theoretical Aspects . . . . .	25
Ax, P. The integration of fossils in the Phylogenetic System of organisms . . . . .	27
BÖGER, H.: The stem-group problem . . . . .	45
RIEPEL, O.: Character incongruence: noise or data? . . . . .	53
RIEPEL, O.: Ontogeny, phylogeny, and classification . . . . .	63
SCHMIDT-KITTLER, N.: How well are we served with the normative commitments of Phylogenetic Systematics? . . . . .	83
WILLMANN, R.: Evolutionary or biological species? . . . . .	95
REMANE, J.: Critical remarks to cladistic analysis and cladistic classification . . . . .	111
BOY, J.A.: Is Phylogenetic Systematics applicable to completely extinct groups? . . . . .	125
III. Case Studies . . . . .	139
1. Zoology and Palaeozoology . . . . .	139
BERTHOLD, T.: Comparative conchology and functional morphology of the copulatory organ of the Ampullariidae (Gastropoda, Monotocardia) and their bearing upon phylogeny and palaeontology . . . . .	141
HAAS, W.: Suckers and arm hooks in Coleoidea (Mollusca, Cephalopoda) and their bearing for Phylogenetic Systematics . . . . .	165
HAHN, G.: Reconstruction of the phylogenetic relationships among the higher taxa of trilobites (Trilobita) . . . . .	187
LAUTERBACH, K.-E.: Trilobites and Phylogenetic Systematics - A reply of Prof. G. HAHN . . . . .	201
FAHLBUSCH, V.: Evolutionary lineages in mammals (Mammalia) . .	213
2. Palaeobotany . . . . .	225
MOSBRUGGER, V.: Phylogenetic Systematics in palaeobotany and botany . . . . .	227
JAHNS, H. M.: Problems in lichen taxonomy (Lichenes) . . . . .	247
IV. Aspects derived from functional morphology . . . . .	253
VOGEL, K.: Constructional morphology and the reconstruction of phylogeny . . . . .	255
V. Conclusions . . . . .	265
WILLMANN, R.: Palaeontology and the systematization of natural taxa . . . . .	267
VI. Index . . . . .	293
