Contents

Introduction to the series v

Introduction xi

1. Presidential address 1
Franklin M. Fisher

Part I. Time Series Estimation

2. Small sample properties of estimators of the moving average process 27
James Davidson

3. Diagnostic testing and exact maximum likelihood estimation of dynamic models 63
M. H. Pesaran

4. Specification analysis in a dynamic model 89
Yash P. Gupta and Esfandiar Maasoumi

5. On the relative efficiency of various estimators of regression models with moving average disturbances 105
A. C. Harvey and I. D. McAvinchey

Part II. Explorations in Simultaneous Equation Estimation

6. Parameter sensitivity, dynamic behavior, and model reliability: An initial exploration with the MQEM monetary sector 121
Edwin Kuh and John Neese

7. Estimation of the consumption function: A systems approach to employment effects on the purchase of durables 169
Michael McAleer, Alan A. Powell, Peter B. Dixon, and Tony Lawson

8. Selection of econometric models by the information criterion 199
Gregory C. Chow

9. Two types of residuals and the classical identifiability test statistic 215
Gordon Fisher

Part III. Topics in Estimation

10. On the problem of missing measurements in the estimation of economic relationships 233
Jan Kmenta

11. A family of improved shrinkage factors for the ordinary ridge estimator 259
A. Ullah, H. D. Vinod, and R. K. Kadiyala

Part IV. Methods of Algorithms

12. Edgeworth approximations to the distribution of various test statistics 281
J. D. Sargan and Y. K. Tse

13. Some extensions and comparisons in the theory of Gauss–Seidel iterative techniques for solving large equation systems 297
A. J. Hughes-Hallett

Part V. Estimation with Discrete Data and Demand Analysis

14. AFDC participation: Measured variables or unobserved characteristics, permanent or transitory 321
Jerry A. Hausman and David A. Wise

15. Estimators of the covariance structure of a model for longitudinal data 341
Tom Wansbeek and Arie Kapteyn

16. Maximum likelihood estimators of the latent multivariate normal processes when the observations are intervals 357
Leon L. Wegge

17. A dynamic generalized linear expenditure system of the demand for consumer goods in Greece 379
Theodore Gamaletsos

Part VI. Expectations and Market Behaviour

18. Micro-analysis of realizations, plans and expectations in the IFO and INSEE business texts by multivariate log-linear probability models 393
Heinz König, Marc Nerlove, and Gilles Oudiz

19. Inflationary expectations and the wage–price dynamics: An econometric analysis 421
Kajal Lahiri and Jung Soo Lee
