Contents

Suggested Outlines for a One-Semester Course

xxxv

PART ONE: BASIC CONCEPTS

1	Introduction	3
	<i>For Whom the Bell Tolls / What Economics Is 3 / Definitions / Measurement in Economics / Light and Fruit / Economics in the Social Sciences / Economics in Government / Economic Description and Policy 6 / Normative vs. Positive Economics / Why Economists Disagree / The Methodology of Economics 7 / Other Things Equal / The Post Hoc Fallacy / The Whole and the Part: The Fallacy of Composition / Subjectivity / Uncertainty in Economic Life / The Credibility Hypothesis / Preview</i>	
	Summary Concepts for Review Questions for Discussion	
	Appendix: 1 How to Read Graphs	15
	<i>The Production-Possibility Frontier / Production-Possibility Graph / Slopes and Lines / Some Special Graphs</i>	
	Summary to Appendix Concepts for Review Questions for Discussion	
2	Basic Problems of Economic Organization	24
	A. Problems of Economic Organization	24
	<i>Inputs and Outputs / Custom, Instinct, Command, and Market / The Law of Scarcity</i>	
	B. The Technological Choices Open to Any Society	27
	<i>Society's Production-Possibility Frontier 27 / Efficiency / Some Uses of the P-P Frontier / Pictures in an Exhibition / The Law of Diminishing Returns 32 / Constant Returns to Scale / Some Examples / Diminishing Returns Using the Production-Possibility Frontier / Law of Increasing Relative Costs / Increasing Returns to Scale</i>	
	Summary Concepts for Review Questions for Discussion	
3	Price Functioning in a Mixed Economy	41
	<i>Market, Command, and Mixed Economies</i>	
	A. A Market's Solution to the Basic Economic Problems	42
	<i>Not Chaos but Economic Order / The Market Mechanism 43 / Solution of the Three Problems / Who Rules? / The Invisible Hand and "Perfect Competition"</i>	
	B. The Economic Role of Government	47
	<i>The Three Functions of Government 47 / Efficiency / Equity / Stability</i>	
	C. Capital, Division of Labor, and Money	51
	<i>Capital 51 / Capital and Time / Specialization, Exchange, and Division of Labor 53 / The Perils of Overspecialization / The Use of Money 55</i>	
	Summary Concepts for Review Questions for Discussion	

xxi

4	The Bare Elements of Supply and Demand	59
	<i>The Market Mechanism 59 / A System of Prices / Analysis of Supply and Demand 60 / The Demand Schedule / The Demand Curve / The Supply Schedule and Supply Curve / Equilibrium of Supply and Demand / Effect of a Shift in Supply or Demand Curves / Three Hurdles / What Supply and Demand Accomplished: General Equilibrium 69 / The Role of Perfect Competition 70 / Perfect Competition as an Ideal Case / Four Markets</i>	
	Summary Concepts for Review Questions for Discussion	

PART TWO: MACROECONOMICS: FLUCTUATIONS OF OUTPUT AND PRICES

5	Overview of Macroeconomics: Aggregate Supply and Demand	77
	A. Macroeconomic Issues	78
	<i>Objectives and Instruments in Macroeconomics 78 / Objectives / Instruments / Tools and Targets in Practice</i>	
	B. Aggregate Supply and Demand	88
	<i>Inside the Black Box: Aggregate Supply and Demand 88 / Aggregate Supply and Demand Curves / Long-Run vs. Short-Run AS / Output in the Short and Long Run / Aggregate Supply and Demand at Work 94 / Economic Policy / The Road Ahead</i>	
	Summary Concepts for Review Questions for Discussion	
6	Measuring National Output	102
	<i>The Yardstick of an Economy's Performance 102 / Real vs. Nominal GNP: "Deflating" by a Price Index / Two Measures of National Product: Goods-Flow and Earnings-Flow / A Simple Example / The Problem of "Double Counting" / Details of the National Accounts 108 / Investment and Capital Formation / From Gross National Product to Net National Product / Imports and Exports / GNP and NNP: A Look at Numbers / From GNP to Disposable Income / The Identity of Measured Saving and Investment / Beyond GNP to Net Economic Welfare (NEW) 117</i>	
	Summary Concepts for Review Questions for Discussion	
7	Consumption and Investment	122
	A. Consumption and Saving	123
	<i>Budgetary Expenditure Patterns / Consumption, Saving, and Income / The Consumption Function in Detail / The Marginal Propensity to Consume / The Marginal Propensity to Save / Brief Review of Definitions / Consumption for the Nation 129 / Determinants of Consumption / The National Consumption Function</i>	
	B. The Instability of Investment	132
	<i>The Investment Demand Curve / Shifts in the Investment Demand Curve / Real vs. Nominal Interest Rates / The Cleavage between Saving and Investment Motivations 138 / On to Output Determination 139</i>	
	Summary Concepts for Review Questions for Discussion	

8	The Theory of Output Determination	142
	A. Classical and Keynesian Approaches to Output Determination	142
	<i>Classical Model / The Keynesian Revolution / Theories and Policy</i>	
	B. Output Determination: The Multiplier Model	149
	<i>Using the Consumption and Savings Schedules / How Output Is Determined at the Level Where Savings and Investment Schedules Intersect 149 / The Meaning of Equilibrium / Output Determination by Consumption and Investment / An Arithmetic Analysis / The Multiplier 154 / Graphical Picture of the Multiplier / The Multiplier in Macroeconomics Today 156 / An Intuitive Picture</i>	
	<i>Summary Concepts for Review Questions for Discussion</i>	
	Appendix: 8 Algebra of the Multiplier	161
	<i>Question for Discussion</i>	
9	Fiscal Policy in Theory and Practice	163
	A. Fiscal Policy in the Multiplier Model	163
	<i>Fiscal Policy and Output Determination 165 / Taxation and CC Schedule Shifts / A Numerical Example / Fiscal-Policy Multipliers 169 / The Paradox of Thrift 171 / Paradox Resolved</i>	
	B. Fiscal Policy in Action	174
	<i>The Making of Fiscal Policy 174 / Automatic vs. Discretionary Policy / Automatic Stabilizers / Limitations of Automatic Stabilizers / Discretionary Fiscal Policy / How Large Are Multipliers? 177 / Qualifications</i>	
	<i>Summary Concepts for Review Questions for Discussion</i>	
10	Aggregate Supply and Business Cycles	183
	<i>Incessant Fluctuations</i>	
	A. The Supply Side	184
	<i>Determinants of Aggregate Supply 184 / Sources of Growth in Potential Output / What Causes Cycles? / Okun's Law 187 / Are Most Cycles Aggregate Demand Cycles? / Supply-Side Economics 189</i>	
	B. Business Cycles	192
	<i>Cycles in the Twentieth Century / Features of the Business Cycle / Business-Cycle Theories 194 / External and Internal Factors / The Political Business Cycle / A Synthesis of Internal and External Models / The Acceleration Principle / Interaction of Multiplier and Accelerator / Forecasting Business Cycles 199 / Econometric Modeling and Forecasting / The Accuracy of Economic Forecasts / Is the Business Cycle Avoidable?</i>	
	<i>Summary Concepts for Review Questions for Discussion</i>	
11	Unemployment	206
	<i>Importance of Unemployment. 206 / Economic Impact / Social Impact / Measuring Unemployment 209 / Economic Interpretation of Unemployment 210 / Labor Market Issues 213 / Who Are the Unemployed? / Three Kinds of Unemployment / Teenage Unemployment Primarily Frictional / The Natural Rate of Unemployment / The Rising Natural Rate / Lowering the Natural Rate</i>	
	<i>Summary Concepts for Review Questions for Discussion</i>	

12	Inflation: Definitions and Costs	225
	<i>What Is Inflation?</i> 225 / <i>Price Indexes</i> / <i>Inflation's Long History</i> / <i>Three Strains of Inflation</i> / <i>Do Inflation Accelerate?</i> / <i>The Impact of Inflation</i> 232 / <i>Impacts on Income and Wealth Distribution</i> / <i>Effects on Output and Employment</i> / <i>Analysis of Inflation's Costs</i> 235 / <i>Balanced, Anticipated Inflation</i> / <i>Unbalanced Inflation: Inflation-Induced Distortions</i> / <i>Unanticipated Inflation</i> / <i>Unbalanced and Unanticipated Inflation</i> / <i>Recapitulation</i> / <i>The Macroeconomic Reaction</i> / <i>Final Appraisal</i>	
	Summary Concepts for Review Questions for Discussion	

13	Inflation: Causes and Cures	241
	<i>Alternative Sources of Inflation</i> 241 / <i>Inertial Inflation</i> / <i>Shocks to Inflation</i> / <i>Demand-Pull Inflation</i> / <i>Cost-Push Inflation</i> / <i>Inertial Inflation Revisited</i> / <i>Price Levels vs. Inflation</i> / <i>The Phillips Curve</i> 247 / <i>Early Phillips Curves</i> / <i>Applications of Early Phillips Curves</i> / <i>The Phillips Curve Shifts</i> / <i>The Natural Rate of Unemployment</i> / <i>The Shifting Phillips Curve</i> / <i>The Vertical Long-Run Phillips Curve</i> / <i>Reiteration</i> / <i>Open Issues</i> 253 / <i>Is the Phillips Curve Dead?</i> / <i>How Long Is the Long Run?</i> / <i>Liquidation or Adaptation?</i> / <i>How Much Does It Cost to Reduce Inflation?</i> / <i>Wanted: An Effective Incomes Policy</i> 256 / <i>To TIP or Not to TIP?</i> / <i>The Cruel Dilemma</i>	
	Summary Concepts for Review Questions for Discussion	

PART THREE: MACROECONOMICS: MONEY, INTEREST RATES, AND DEFICITS

14	Money and Commercial Banking	265
	A. History of Money and Banks	265
	<i>The Evolution of Money</i> 266 / <i>Components of the Money Supply</i> / <i>Other Monetary Aggregates</i> / <i>Banking as a Business</i> 271 / <i>A Business Venture</i> / <i>How Banks Developed from Goldsmith Establishments</i> / <i>Modern Fractional-Reserve Banking</i> / <i>Legal Reserve Requirements</i>	
	B. The Process of Creation of Bank Deposits	275
	<i>Can Banks Really Create Money?</i> / <i>How Deposits Are Created: First-Generation Banks</i> / <i>Chain Repercussions on Other Banks</i> / <i>Final System Equilibrium</i> / <i>Deposit Destruction</i> / <i>Two Qualifications to Deposit Creation</i>	
	Summary Concepts for Review Questions for Discussion	
	Appendix: 14 Stock Market Fluctuations	284
	<i>The Great Crash</i> <i>The Efficient Market Theory</i> / <i>Rationale for the Efficient-Market View</i> / <i>Macro Errors in Mood</i> / <i>Is Randomness Rational?</i> / <i>Objections</i> / <i>Investment Strategies</i>	
	Summary to Appendix Concepts for Review Question for Discussion	

15	The Federal Reserve and Central Bank Monetary Policy	294
	<i>How Monetary Policy Works to Control Spending</i> 294 / <i>Recapitulation</i> / <i>How Central Banking Works</i> 297 / <i>Structure of the Federal Reserve</i> / <i>Overview of the Fed's Operations</i> / <i>Balance Sheet of the Federal Reserve Banks</i> / <i>The Nuts and Bolts of Monetary Policy</i> 301 / <i>Open-Market Operations</i> / <i>Operating Procedures</i> / <i>Discount-Rate Policy: A Second Instrument</i> / <i>Reserve Requirements</i> / <i>Minor Instruments</i> / <i>International Reserve Movements</i> / <i>Other Activities</i> / <i>On to Money Demand</i>	
	Summary Concepts for Review Questions for Discussion	

16	Monetarism and the Demand for Money	313
	A. The Demand for Money	313
	<i>Money's Functions / Demand for Money 315 / Transactions Demand / Asset Demand</i>	
	B. How Money Affects Output	317
	<i>Supply and Demand for Money / Overall Equilibrium / Monetary Policy in the AD-AS Framework / Real Interest Rates and Monetary Policy</i>	
	C. Monetarism	322
	<i>Velocity of Circulation of Money / The Quantity Equation of Exchange: An Identity / The Crude Quantity Theory / Modern Monetarism 235 / The Essence of Monetarism / Comparison with Mainstream Economic Thinking / The Monetarist Platform / A Nominal GNP Rule? / Trial Balances</i>	
	Summary Concepts for Review Questions for Discussion	
	Appendix: 16 The Rational-Expectations Revolution	334
	<i>The Rational-Expectations Postulates / Assumption I: Rational Expectations / Assumption II: Flexible Prices and Wages / Rational Expectations and the Labor Market / Involuntary Unemployment / Why High Unemployment? / Policy Ineffectiveness / Fixed Rules Optimal / Monetarist Rules and the Lucas Critique / Elements of the Debate / A Summing Up</i>	
	Summary to Appendix Concepts for Review Questions for Discussion	
17	The Fiscal-Monetary Mix and Government Deficits	345
	A. Deficits and the Monetary-Fiscal Mix	345
	<i>Old-Fashioned Public Finance / Modern Public Finance 347 / Structural vs. Cyclical Deficits / Cyclical vs. Structural Budgets / Today's Skyrocketing Deficits / The Fiscal-Monetary Mix 351 / Demand Management / The Policy Mix / The Actual Mix / Do Deficits Crowd Out Investment? 353 / Crowding Out and the Money Market / Crowding Out from Structural Deficits / Investment Encouragement / Empirical Evidence / Recapitulation / A New Discipline?</i>	
	B. The Public Debt and Modern Fiscal Policy	357
	<i>Meaning and History of Government Debt 358 / Historical Trends / Some Old Myths / Genuine Debt Burdens 360 / External vs. Internal Debt / Efficiency Losses from Taxation / Displacement of Capital / Effects on Private Emotions and Investment</i>	
	Summary Concepts for Review Questions for Discussion	
	Appendix: 17 Advanced Treatment of Monetary and Fiscal Policy	366
	<i>Classical Themes Modern Treatments: IS-LM Analysis / The IS Curve / The LM Curve / Interaction / A Monetarist LM Curve / Effect of Policy Shifts / Monetary Policy / Fiscal Policy / Crowding Out / Effects of Policy in the Monetarist Case / The Monetary-Fiscal Mix</i>	
	Summary to Appendix Concepts for Review Questions for Discussion	

**PART FOUR: MICROECONOMICS:
SUPPLY, DEMAND, AND PRODUCT MARKETS**

18	Output and Price as Determined by Supply and Demand	377
	<i>Preview / Microeconomics vs. Macroeconomics? / The Fundamentals of Supply and Demand / Review</i>	

A. Elasticity of Demand and Supply	379
<i>Elasticity of Demand 379 / Graphical Depiction / Measurement of Elasticity / Graphical Measurement of Elasticity / Elasticity of Supply 383 / Momentary, Short-Run, and Long-Run Equilibrium 384 / Time Element in Demand</i>	
B. Applications of Supply and Demand	387
<i>Some Examples of Supply-and-Demand Analysis 387 / Incidence of a Tax / A Common Fallacy / Four Examples of Supply and Demand at Work / Costs and Supply / Government Intervention in Markets 391 / Is the Law of Supply and Demand Immutable? / Prices Fixed by Law / Minimum Floors and Maximum Ceilings / Efficiency and "Equity" of Supply-Demand Pricing 394 / Evaluation of Government Intervention / Equity through Taxes; Efficiency through Markets</i>	
Summary Concepts for Review Questions for Discussion	
Appendix: 18 Cases on Supply and Demand	399
<i>Case 1. Constant Cost / Case 2. Increasing Costs and Diminishing Returns / Case 3. Completely Inelastic or Fixed Supply and Economic Rent / Case 4. A Backward-Bending Supply Curve / Case 5. A Possible Exception: Decreasing Cost / Case 6. Shifts in Supply / Case 7. Dynamic Cobweb</i>	
Concepts for Review	
<hr/>	
19 The Theory of Demand and Utility	409
<i>Summing Individual Demands to Get Market Demand / Demand Shifts from Changes in Income and Other Sources 409 / Cross Relations of Demand / The Law of Diminishing Marginal Utility 411 / Marginal Utility and the Law of Diminishing Marginal Utility / A Numerical Example / Early Attempts at Validation / Equilibrium Condition: Equal Marginal Utilities per Dollar for Every Good 414 / Why Demand Curves Slope Downward / Economics of the Use of Time / Consumers as Wizards? / An Alternative Approach: Substitution Effects and Income Effects 415 / Substitution Effect / Income Effect / The Paradox of Value 416 / Consumer Surplus 417 / Applications of Consumer Surplus</i>	
Summary Concepts for Review Questions for Discussion	
Appendix: 19 Geometrical Analysis of Consumer Equilibrium	422
<i>The Indifference Curve / Law of Substitution / The Indifference Map / Budget (or Consumption-Possibility Line) The Equilibrium Position of Tangency Changes in Income and Price / Income Change / Single-Price Change / Deriving the Demand Curve Balanced-Price Changes and the Quantity Theory</i>	
Summary to Appendix Concepts for Review Questions for Discussion	
<hr/>	
20 Business Organization and Income	433
A. Big, Small, and Infinitesimal Business	433
<i>Tiny Business 433 / The Single Proprietorship 434 / Business Growth and the Need for Short-Term Capital / The Partnership 436 / "This Is the Way We Grow" / New Needs and Sources of Capital / Disadvantages of the Partnership Form</i>	
B. The Corporation	438
<i>Incorporating 438 / Corporation Structure 438 / Advantages and Disadvantages of the Corporate Form 439 / Private Advantage / Social Advantage / How a Corporation Can Raise Capital 440 / Bonds / Bank Debt / Common Stocks / Hybrids / Advantages of Different Securities / The Giant Corporation 442 / Divorce of Ownership and Control in the Large Corporation / The Pendulum Swings Right 444</i>	
Summary Concepts for Review Questions for Discussion	

Appendix: 20 Elements of Accounting 447

The Balance Sheet / Accounting Conventions / Inventories and Depreciation / The Income Statement, or Statement of Profit and Loss / Depreciation / The Relationship between the Income Statement and the Balance Sheet / Retained Earnings / Summary of Elementary Accounting Relationships / The New Balance Sheet / Intangible Assets / Goodwill / Accounting Abuses Economics and Accounting / Inflation Accounting / Economics Based on Accounts

Summary to Appendix Concepts for Review Questions for Discussion

21 Analysis of Costs 461

Total Cost: Fixed and Variable 461 / Fixed Cost / Variable Cost / Definition of Marginal Cost 462 / Diminishing Returns and U-Shaped Cost Curves / Average or Unit Cost 465 / Average Fixed Cost / Average Variable Cost / The Points of Minimum Average Cost / Longest-Run Envelope Curve 468 / Opportunity Cost 469 / Opportunity Cost and Decisions / Preview

Summary Concepts for Review Questions for Discussion

22 Competitive Supply 475

Supply Behavior of a Competitive Industry 475 / Summing All Firm Supply Curves to Get Market Supply / Competitive Supply Where Price Equals Marginal Cost / Perfect Competition / Competitive Supply and Marginal Cost / Deriving the Firm's Supply Curve from Its MC Curve / Total Cost and Short-Run Shutdown Conditions / Total Cost and Long-Run Breakeven Conditions / Decreasing Costs and the Breakdown of Perfect Competition / Efficiency and Competitive Markets 482 / The Concept of Efficiency / Synthesis of Marginal Cost and Marginal Utility / Consumer Surplus / Multimarket Equilibrium / An Alternative Way of Viewing Efficiency / The Central Role of Marginal-Cost Pricing / Two Cheers for the Market, but Not Three

Summary Concepts for Review Questions for Discussion

Appendix: 22 Economics of Uncertainty: Speculation, Risk, and Insurance 492

The Role of Speculation / Geographical Price Patterns / Speculation and Price Behavior over Time / Stabilizing Seasonal Patterns / Stabilizing Foreseeable Fluctuations / Spreading of Risks / Gambling and Diminishing Marginal Utility / Law and Chance of Diminishing Marginal Utility / Why Ideal Stabilization by Speculators Is Optimal Economics of Insurance What Can Be Insured? / Social Insurance

Summary to Appendix Concepts for Review Questions for Discussion

23 Imperfect Competition: Monopoly and Regulation 502

A. Sources and Patterns of Imperfect Competition 503

Perfect Competition Contrasted with Imperfect Competition / Imperfect Competition Defined / Patterns of Imperfect Competition 504 / Sources of Market Imperfections / Cost Patterns and Structure of Market Imperfection / Barriers to Competition / Imperfect Competition: Monopoly, Oligopoly, and Differentiated Products

B. Maximum-Profit Monopoly Equilibrium 511

Price, Quantity, and Total Revenue / Marginal Revenue and Price Graphed / Point of Maximum Profit / Graphical Depiction of Monopoly / Perfect Competition as a Polar Special Case of Imperfect Competition / Let Bygones Be Bygones

C. Monopoly: Its Social Costs and Regulation 517

Costs of Monopoly 518 / Deficient Output of Monopoly / Measure of the Waste from Monopoly / Excess Profit of Monopoly / Intervention Strategies 520 / The Nature of Regulation 521 /

<i>Economic Regulation of Imperfect Competition / Why Regulate Industry? / Public-Utility Regulation of Natural Monopoly / Public-Utility Regulation / The Deregulation Movement</i>	
Summary Concepts for Review Questions for Discussion	
24	Imperfect Competition and Antitrust Policy 530
	A. Patterns of Imperfect Competition 530
	<i>Oligopoly: Competition among the Few / Collusive Oligopoly / Dominant-Firm Oligopoly / Monopolistic Competition: Large-Group Free Entry</i>
	B. Life in the Boardroom 538
	<i>Do Firms Maximize Profits? / Markup Pricing / The Schumpeterian Hypothesis / The Pros and Cons of Imperfect Competition Recapitulated / Resume</i>
	C. Antitrust Theory and Policy 542
	<i>The Framework Statutes 543 / Basic Issues in Antitrust: Conduct, Structure, and Mergers 544 / Illegal Conduct / Structure: Is Bigness Badness? / Mergers: Law and Practice / New Directions: For Efficiency Alone?</i>
	Summary Concepts for Review Questions for Discussion
	Appendix: 24 Economic Warfare and Game Theory 553
	<i>Basic Concepts / The Prisoner's Dilemma / Can Benevolence Survive?</i>
	Concepts for Review Questions for Discussion

PART FIVE: WAGES, RENT, AND PROFITS: THE DISTRIBUTION OF INCOME

25	Incomes and Living Standards 561
	A. Inequality of Incomes and Wealth 561
	<i>From Bad to Less Bad / Two Worlds? / Measurement of Inequality 564 / Income and Wealth / Distribution of Income in the United States / How to Measure Inequality among Income Classes / Trends of Inequality / Distribution of Wealth'</i>
	B. Sources of Inequality 570
	<i>Inequality in Earnings 570 / Differences in Ability and Incomes / Income Differences among Occupations / Is College Worthwhile? / Other Factors Affecting Wages / Inequalities in Property Income 573 / Wealth and Risk Taking / Economic Stratification and Inheritance / Markets and Inequality</i>
	Summary Concepts for Review Questions for Discussion
26	Theory of Production and Marginal Products 579
	<i>The Theory of Production 579 / Demands for Factors Are Interdependent / Technical Law Relating Output to Inputs: The "Production Function" / Marginal Products Defined / Marginal Products and Diminishing Returns / Distribution Solved by Marginal Products / Many Inputs / The Aggregate American Production Function 584 / The Efficiency of Competitive Factor Pricing 585 / Do Firms Exploit Workers? / Marginal-Product Theory of the Single Firm 587 / Marginal-Revenue-Product and the Maximizing of Profit / Marginal Products and Least Cost / Finale</i>
	Summary Concepts for Review Questions for Discussion

Appendix: 26 Production Theory and Firm Decisions

592

A Numerical Production Function The Law of Diminishing Marginal Product Least-Cost Factor Combination for a Given Output / Equal-Product Curves / Equal-Cost Lines / Equal-Product and Equal-Cost Contours: Least-Cost Tangency / Least-Cost Conditions / Marginal-Revenue-Product Condition of Maximum-Profit / Demand Curve for Inputs Exhaustion of Product

Summary for Appendix Concepts for Review Questions for Discussion

27 Pricing of Factor Inputs: Rents on Land and Other Resources

601

Demand for Factors Is a Derived Demand / Determination of Factor Prices by Supply and Demand 602 / Land Rent / Rent and Costs / Henry George's Single-Tax Movement: Taxing Land's Surplus / Modern Taxation Theory / Supply and Demand for Any Factor / Factor Pricing and Efficiency: Rent and Factor Prices as Devices to Ration Scarce Resources 607 / The Tragedy of the Commons / Conclusions

Summary Concepts for Review Questions for Discussion

28 Wages, Salaries, and the Labor Market

613

A. Wage Determination under Perfect Competition

613

Real Wage Determination for a Single Grade / Behind Demand: Resources, Capital, Technology / Supply of Labor 615 / General Supply-of-Labor Curve / Empirical Findings / Wage Differences across Groups 617 / Compensating Wage Differentials / Differences in Labor Quality / Rent Elements in Wages of Unique Individuals / Noncompeting Groups in the Labor Market / General Equilibrium in the Labor Market / Two Classical Views 621 / The Iron Law of Wages: Malthus and Marx / The Lump-of-Labor Fallacy

B. Discrimination by Race and Sex

624

The Melting Pot / The Roots of Discrimination / Discrimination in Diagrams / Effects of Equality of Opportunity / Economic Disadvantages for Women / Changing Occupational and Industrial Patterns by Sex / Sexual Discrimination / Empirical Evidence / Changing Attitudes

Summary Concepts for Review Questions for Discussion

29 Labor Unions and Collective Bargaining

632

A. The American Labor Movement

632

Growth and Decline / National and Local Unions and the AFL-CIO / Brief History of the American Labor Movement 634 / The Knights of Labor / The American Federation of Labor / How Collective Bargaining Works 635 / What Are the Issues? / Role of Government in Collective Bargaining 637 / Pro-labor Laws / Postwar Legislation / Current Labor Issues 638 / Strikes / Deregulation and Foreign Competition / Productivity Restraints

B. Imperfections of the Labor Market and Collective Bargaining

641

Imperfections in Labor Markets / Four Ways Unions Seek to Raise Wages 641 / Restriction of Labor Supply / Raising Standard Wage Rates / Shifting the Derived Demand Curve Upward / Combatting Monopoly Power / Theoretical Indeterminacy of Collective Bargaining / The Importance of Controlling Entry / Effects on Wages and Employment 644 / Has Unionization Raised Wages? / Effects on Employment / The Consequences of Decline

Summary Concepts for Review Questions for Discussion

30	Interest, Profits, and Capital	650
	<i>Concepts in Capital Theory 650 / Land, Labor, and Capital / The Rate of Return on Capital / Financial Assets and Interest Rates / Present Value of Assets / Exact Definition of the Rate of Return on Capital / Review / Theory of Capital 653 / Roundaboutness / Diminishing Returns and the Demand for Capital / Determination of Interest and the Return to Capital / Graphical Determination of the Return on Capital / Summary / Some Major Qualifications / Real vs. Nominal Interest Rates / Macroeconomic Shocks and Policies / Profits 660 / Reported Profit Statistics / Determinants of Profits / Awash with Profits? / The Next Steps</i>	
	Summary Concepts for Review Questions for Discussion	
	Appendix: 30 Theoretical Aspects of Interest and the Return to Capital	665
	<i>Productivity or Impatience? / Determination of the Interest Rate / Present Value Extended / Acting to Maximize Present Value / Interest under Socialism?</i>	
	Summary to Appendix Concepts for Review Questions for Discussion	

PART SIX: EQUITY, EFFICIENCY, AND GOVERNMENT

31	General Equilibrium of Markets	675
	<i>General Equilibrium and the Invisible Hand Theory 675 / Simultaneous General Equilibrium / Efficiency of a Competitive General Equilibrium / Efficiency Depicted by the Utility-Possibility Frontier / Qualifications to the Invisible Hand Theory 679 / Market Failures / Arbitrary Distribution of Dollar Votes / A Modern Restatement of the Invisible Hand Theory / Welfare Economics</i>	
	Summary Concepts for Review Questions for Discussion	
	Appendix: 31 Review of Commodity and Factor Pricing: General Equilibrium and Ideal Pricing	684
	<i>Parable of Ideal Pricing / The Feasibility of Central Planning / Decentralization / Pricing in a Utopian State: Consumer-Good Prices The Distribution of Income / Social Dividends / Pricing of Nonhuman Productive Resources and Intermediate Goods / The Example of Land Rent / Resource Pricing Generally / Role of the Interest Rate in an Ideal Economy / Wage Rates and Incentive Pricing / Marginal-Cost Pricing of Final Goods / Summary of Utopian Pricing / Brief History of Welfare Pricing / Mixed-Economy Welfare Economics</i>	
	Summary to Appendix Concepts for Review Questions for Discussion	
32	Economic Role of Government: Public Choice and Externalities	696
	A. The Growth and Functions of Government	696
	<i>The Growth of Government / Spending and Taxing / The Growth of Government Controls and Regulation / The Functions of Government 699 / The Legal Framework / Macroeconomic Stabilization / Allocation / Redistribution</i>	
	B. Public Choice	702
	<i>How Governments Choose 703 / The Political Game / Public Choice and the Utility-Possibility Frontier / Different Voting Rules 705 / Unanimity / Majority Rule / Cyclical Voting: The Voting Paradox / Implications of Public Choice 709 / The American Political Framework / Government Failures</i>	

C. Public Choice: The Case of External Effects 712
Public vs. Private Goods / Collective vs. Market Goods / Market Inefficiency with Externalities
 715 / *Analysis of Inefficiency / Policies to Correct Externalities* 718 / *Private Approaches /*
Collective Action / Final Perspective
 Summary Concepts for Review Questions for Discussion

33 Economic Role of Government: Expenditure and Taxation 725

A. Government Expenditures 725

Federal, State, and Local Functions / Federal Expenditure / State and Local Expenditures

B. Economic Aspects of Taxation 728

Principles of Taxation 728 / *Benefit vs. Ability-to-Pay Principles / Pragmatic Compromises in*
Taxation / Federal Taxation 730 / *The Major Types of Taxes / The Progressive Personal Income*
Tax / The Flat Tax / Efficiency and Progressivity 736 / *The Laffer Curve / State and Local Taxes*
 738 / *Intergovernmental Grants-in-Aid / Conclusion: The Thorny Problem of Tax Incidence* 739 /
Incidence of Federal Taxes and Transfers

Summary Concepts for Review Questions for Discussion

34 Poverty, Equality, and Efficiency 744

Measurement and Trends in Poverty 744 / *Definition of Poverty / Who Are the Poor? / Causes of*
Poverty / Trends in Inequality and Poverty / The Costs of Equality 748 / *Equity vs. Efficiency /*
How Big Are the Leaks? / Adding up the Leaks / Programs to Reduce Poverty 751 / *The Rise of*
the Welfare State / Income-Support and Welfare Programs / The Incentive Problem for the Poor /
The Negative Income Tax

Summary Concepts for Review Questions for Discussion

35 Winds of Change: Economic Alternatives 759

A. Evolution of Doctrine 759

The Growth of Mainstream Economics 759 / *Classical Economics: Smith, The Prophet of Laissez-*
Faire / Classical Economics: Malthus and Ricardo / Neoclassical Economics / The Keynesian
Revolution / Mainstream Economics / Modern Critiques 763 / *Chicago School / Critiques of*
Modern Capitalism / Radical Economics

B. Marxism and Alternative Economic Systems 767

Marxism 768 / *Biography of Karl Marx / Socialism* 770 / *Soviet Communism* 771 / *Soviet History /*
The Soviet Economy Today / Comparative Economic Growth / Reforms and Alternative Socialist
Models / A Final View: Economic and Political Freedoms 778

Summary Concepts for Review Questions for Discussion

PART SEVEN: ECONOMIC GROWTH AND INTERNATIONAL TRADE

36 Economic Growth: Theory and Evidence 785

A. The Theory of Economic Growth 785

Stages of History / Fact and Fiction / Economic Theories 787 / *The "Magnificent Dynamics" of*
Smith and Malthus / Models of Capital Accumulation / Geometric Analysis of Capital
Accumulation / Technical Advance and Continued Growth

B. The Trends and Sources of Economic Growth	793
<i>The Approximate Facts of Modern Development / Seven Basic Trends of Economic Development / Analyzing the Laws of Motion of the Mixed Economy / The Sources of Economic Growth 796 / The Growth Accounting Approach / Detailed Studies / The Productivity Slowdown and Spurring Growth / Epilogue</i>	
Summary Concepts for Review Questions for Discussion	
Appendix: 36 Modern Economic Growth Theories	803
<i>Schumpeterian Innovation Harrod-Domar Growth Models / The Natural Rate of Growth / Explaining the Trends / A Needed Synthesis / The Expanding Universe / The Golden Rule / Leontief's Interindustry Input-Output</i>	
Summary to Appendix Concepts for Review Questions for Discussion	
<hr/>	
37 The Economics of Developing Countries	812
<i>Defining Developing Economies</i>	
A. Population and Economic Conditions	814
<i>The Legacy of Malthus 814 / The New Malthusians / Modern Views on Population 816 / Birth and Death Rates / The Demographic Transition / Population Explosion</i>	
B. The Process of Economic Development	819
<i>Life in Low-Income Countries / The Four Elements in Development / Human Resources / Natural Resources / Capital Formation / Debt and the Debt Crisis / Technological Change and Innovations / Vicious Cycle / Theories of Economic Development 823 / Recent Approaches to Development / Strategies of Economic Development</i>	
Summary Concepts for Review Questions for Discussion	
<hr/>	
38 International Trade and the Theory of Comparative Advantage	831
A. The Principle of Comparative Advantage	832
<i>Trends in American Foreign Trade / The Gains from Trade and the Law of Comparative Advantage 833 / Trade Arising from Diversity between Regions / Comparative Advantage / A Simple Case: Europe and America / Ricardo's Approach / The Gains from Trade / Effects of Tariffs and Quotas / A Dialogue / A Graphical Presentation of Comparative Advantage 837 / Other Sources of International Trade 839 / Qualifications and Conclusions</i>	
B. The Balance of International Payments	840
<i>Debits and Credits / Details of the Balance of Payments / Stages of the Balance of Payments</i>	
Summary Concepts for Review Questions for Discussion	
Appendix: 38 Comparative Advantage Amplified and Qualified	846
<i>America without Trade / Technical Progress / Europe without Trade The Opening Up of Trade / Limits to the Price Ratio / Exact Determination of the Final Price Ratio / Gains to Trade for Small Countries / Extensions to Many Commodities and Countries / Many Commodities / Many Countries / Triangular and Multilateral Trade</i>	
Summary to Appendix Concepts for Review Questions for Discussion	
<hr/>	
39 Protective Tariffs, Quotas, and Free Trade	857
