# TABLE OF CONTENTS

Preface	v
Introduction	xiii
PART ONE: REORIENTATION OF POLICY	
I. Income Inequality: Some Dimensions of the Problem	
<i>Montek S. Ahluwalia</i>	3
Limitations of the data	4
The extent of inequality: relative and absolute poverty	6
The determinants of inequality	16
Economic characteristics of poverty groups	19
Appendix to Chapter I	27
II. The Economic Framework	
<i>Montek S. Ahluwalia and Hollis Chenery</i>	38
Redefining objectives: growth and distribution	38
Toward a theory of distribution and growth	42
Alternative strategies	47
Appendix to Chapter II	50
III. The Political Framework	
<i>C.L.G. Bell</i>	52
The politics of redistribution	53
Forms of policy intervention	56
Mobilizing support	65
The administrative system	67
The planner as a political actor	69
Conclusions	71
IV. The Scope for Policy Intervention	
<i>Montek S. Ahluwalia</i>	73
Areas of intervention	73
Factor prices, employment, and income	74
Ownership and control of assets	78
Education and human capital	81
Taxation and resource mobilization	83
Public provision of consumption goods	85
Intervention in commodity markets	86
The state of technology	88
The choice of policy packages	89
V. Formulating a Strategy	
<i>C.L.G. Bell and John H. Duloy</i>	91
Target groups	91
A typology of countries	93

	The projection model	94
	Some alternative strategies	99
	Appendix to Chapter V	104
VI.	Rural Target Groups	
	<i>C.L.G. Bell and John H. Duloy</i>	113
	Effects of leakages	113
	The rural poor	116
	Small farmers	125
	Submarginal farmers and landless laborers	133
	Conclusions	135
VII.	Urban Target Groups	
	<i>D. C. Rao</i>	136
	Strategy options	139
	Production sector strategies	143
	Transfer strategies	147
	Conclusions	156
VIII.	International Dimensions	
	<i>Richard Jolly</i>	158
	The dimensions of international inequality	159
	Background to international policy	161
	International trade	163
	Technology and investment	170
	The role of international agencies and aid	174
	Conclusions	179
PART TWO: QUANTIFICATION AND MODELING		
IX.	Available Planning Models	
	<i>Hollis Chenery and John H. Duloy</i>	183
	Alternative frameworks for analysis	184
	Production and the demand for labor	186
	Labor supply and educational structure	189
	Consumption and income distribution	191
	Conclusions	194
X.	Sectoral, Regional, and Project Analysis	
	<i>John H. Duloy</i>	195
	Multilevel planning	195
	Sectoral models	197
	Regional models	201
	Project analysis	205
XI.	A Model of Distribution and Growth	
	<i>Montek S. Ahluwalia and Hollis Chenery</i>	209
	A growth model for a segmented economy	210
	Simulating growth and distribution patterns	218

Redistribution through growth: some policy alternatives	223
Conclusions: the choice of strategy	234
XII. Statistical Priorities	
<i>C.L.G. Bell and John H. Duloy</i>	236
The poverty profile	237
Priorities for aggregate analysis	240
Special surveys	243
XIII. Research Directions	
<i>Hollis Chenery and John H. Duloy</i>	245
Toward a theory of income distribution in developing countries	245
Economy-wide analysis	246
Partial analysis	247
Conclusions	248
PART THREE: ANNEX AND BIBLIOGRAPHY	
Annex. Redistribution with Growth: Some Country Experience	
An Overview, <i>Richard Jolly</i>	253
India, <i>Pranab K. Bardhan</i>	255
Cuba, <i>Dudley Seers</i>	262
Tanzania, <i>Reginald H. Green</i>	268
Sri Lanka, <i>Lal Jayawardena</i>	273
South Korea, <i>Irma Adelman</i>	280
Taiwan, <i>Gustav Ranis</i>	285
Bibliography	291
