
The Age of Electronic Messages

John G. Truxal

The MIT Press
Cambridge, Massachusetts
London, England

Contents

Series Foreword xiii

Preface xv

1 The Technology of Communications 2

1.1 Social Changes 2

1.2 Political Effects 2

1.3 Transportation 3

1.4 Manufacturing 3

1.5 Service Industries 3

1.6 Entertainment 4

1.7 Factors in Decisions about a New Technology 4

1.8 Measuring Information—A Central Concept 5

1.9 The Plan of the Book 6

2 Messages without Errors 7

2.1 Redundancy in Language 8

2.2 Spelled Speech 9

2.3 Communicating Numbers 9

2.4 Digital Root 11

2.5 Casting Out Nines 13

2.6 Transmission with Error Correction 14

2.7 Hamming Code 16

2.8 Bar Codes 20

2.9 Universal Product Code 23

Appendix 2.1 Telephone Numbers 33

Review Questions 44

Problems 45

3 Electrical Safety 52

- 3.1 Basic Concepts of Electricity 52
- 3.2 Lightning 59
- 3.3 Home Electrical Energy 62
- 3.4 Shock from a Toaster 69
- 3.5 Electrical Effects on People 73
- Appendix 3.1 Scientific Notation 82
- Appendix 3.2 One Problem in Human Experimentation 83
- Review Questions 85
- Problems 87

4 The Building Blocks of Signals 94

- 4.1 Sine Signals 94
- 4.2 Concept of Frequency 99
- 4.3 Sound Signals 103
- 4.4 Human Communication 107
- 4.5 More Complex Signals 109
- 4.6 Uses of Spectrograms 113
- 4.7 Personal Verification 116
- 4.8 Sound Signals of All Types 121
- 4.9 Spectrum and Spectrogram 128
- 4.10 Many Signals through One System 133
- 4.11 Testing Automobile Engines 137
- Review Questions 139
- Problems 141

5 Resonance 145

- 5.1 Free Response 145
- 5.2 Forced or Driven Response 147
- 5.3 Systems with Multiple Resonances 154
- 5.4 Uses of Resonance 159
- 5.5 An Application of Resonance 163
- 5.6 Computer Speech 165
- 5.7 Problems of ASR 167
- 5.8 Generation of Human Speech 168
- 5.9 Example of ASR 172
- Review Questions 173
- Problems 174

6 The Engineer Looks at Hearing 181

- 6.1 The “Black Box” Approach to Hearing 183
- 6.2 Frequency Response of Human Hearing 185
- 6.3 Sensitivity of Human Hearing 188
- 6.4 Audiometry 193
- 6.5 Other “Black Box” Characteristics 194
- 6.6 The Stethoscope 201
- 6.7 Parts of the Ear 204
- 6.8 Outer Ear 206
- 6.9 Middle Ear 208
- 6.10 Inner Ear 210
- Review Questions 213
- Problems 214

7 Digital Signals 223

- 7.1 A Tactile Communication System 224
- 7.2 Morse Code 227
- 7.3 Sampling 228
- 7.4 Quantizing 235
- 7.5 Coding 236
- 7.6 Breaking the USPS Code 238
- 7.7 Limits of Human Communication 242
- 7.8 Digital Audio 244
- Review Questions 251
- Problems 252

8 Signals through Space 261

- 8.1 Light 262
- 8.2 Other Electromagnetic Signals 265
- 8.3 Biological Effects of High-Frequency Electromagnetic Signals 271
- 8.4 Biological Effects of Non-Ionizing Radiation 271
- 8.5 Standards for Exposure 274
- 8.6 Project Sanguine-Seafarer-ELF 278
- 8.7 A Natural Resource Gone 287
- Appendix 8.1 EMP (Electromagnetic Pulse) 291
- Review Questions 295
- Problems 296

9 Radio 305

- 9.1 Radio Signals 308
- 9.2 Frequencies for Radio 310
- 9.3 Modulation 313
- 9.4 Some Radio History 314
- 9.5 Amplitude Modulation, or AM 318
- 9.6 Geographical Coverage of a Radio Station 324
- 9.7 Speech Scramblers 327
- 9.8 Frequency Modulation, or FM 330
- 9.9 Radio Navigation 335
- 9.10 Radar 342
- 9.11 Radar Countermeasures 350
- 9.12 Police Radar 351
- Review Questions 355
- Problems 357

10 Medical Ultrasonic Imaging 367

- 10.1 Echolocation 368
- 10.2 Sonar for Submarine Detection 369
- 10.3 Echoes from the Body 371
- 10.4 Basic Equipment 375
- 10.5 Health Effects 380
- 10.6 Conclusion 383
- Review Questions 383
- Problems 384

11 Television 387

- 11.1 Telecommunication of a Picture 389
- 11.2 Structure of the Video or Picture Signal 390
- 11.3 Other Video Structures 399
- 11.4 History of Television 402
- 11.5 Chromaticity Diagram 406
- 11.6 Human Color Vision 408
- 11.7 Color Television 414
- Appendix 11.1 Human Vision 418
- Review Questions 436
- Problems 438

12 Broadcasting and Narrowcasting 457

- 12.1 Video Signal 458
 - 12.2 Broadcast Signal 461
 - 12.3 TV Broadcasting 464
 - 12.4 Digital Television 466
 - 12.5 Unconventional TV Broadcasting 468
 - 12.6 Cable TV 471
 - Review Questions 474
 - Problems 475
- Index 483
