Contents

List of Contributors	ix
Preface To Classic Line 1014 1075	Xi
Ta-Chung Liu, 1914-1975 Publications of Ta-Chung Liu	xiii xvii
Tubications of Tu-Chang Lia	AVII
Society, Politics, and Economic Development Revisited	
I. ADELMAN, CYNTHIA TAFT MORRIS, AND SVANTE WOLD	
Disjoint Principal-Components Method	2
Statistical Results	5
Principal-Components Analysis within Groups	7
Conclusion	17
References	17
On Global Stability of Some Stochastic Economic Processes:	
A Synthesis	
R. N. BHATTACHARYA AND M. K. MAJUMDAR	
1. Introduction	19
II. Basic Definitions	20
III. Some Economic Examples	24
IV. Invariant Measures for Diffusions	27
V. Stability Results for the Economic Models	38
References	42
The Design of Mechanisms for Efficient Allocation	
of Public Goods	
WILLIAM A. BROCK	
I. Introduction	45
II. A Simple Method	48
III. The Design Problem under Coalition Formation	51
IV. Examples of Quadratic Incentive Design Using (3.3) and (3.4)	58

58

٧i	CONTENTS

V. Externalities in Consumption VI. The Design of Individually Incentive Compatible Mechanisms	61
in an Abstract Setting	66
VII. The Design of Mechanisms for Efficient Accumulation	
of Public Capital	73
VIII. Suggestions for Further Research and Summary	78
References	79
Critical Observations on the Labor Theory of Value and Sraffa's Standard Commodity	
EDWIN BURMEISTER	
I. Introduction	81
II. A Single Leontief-Sraffa Technique of Production	82
III. A Pure Labor Theory of Value at Positive Profit Rates	83
IV. Necessary and Sufficient Conditions for a Pure Labor Theory	63
of Value in a Leonteif-Sraffa Technology	84
V. Sraffa's Standard Commodity	88
VI. Sraffa's "Real Wage" Measure and the Constant-Returns-	00
to-Scale Assumption	92
VII. A Pure Labor Theory of Neoclassical Production Functions VIII. Simultaneous Validity of the Pure Labor Theory	94
and the Neoclassical Parable	96
77. 1 5 5 1 101 1	
IX. A Few Fundamental Objections	100
References	100 102
References The Selection of Variables for Use in Prediction
