

Memory and Attention

An Introduction to Human
Information Processing

SECOND EDITION

Donald A. Norman

University of California, San Diego

John Wiley & Sons, Inc.
NEW YORK · LONDON · SYDNEY · TORONTO

Contents

Chapter 1	<i>The Problems</i>	1
	Basic Issues	2
	Organization of the Book	3
	Suggested Readings	5
Chapter 2	<i>Attention</i>	6
	The Phenomena	7
	Attention (James)	7
	Selective Attention and the Cocktail Party Problem	12
	Some Experiments on the Recognition of Speech, with One and with Two Ears (Cherry)	13
	Experiments and Early Theories	17
	The Filter Model	23
	Perception and Communication (Broadbent)	23
	The Filter Model Fails and Is Modified	24
	Verbal Cues in Selective Attention (Treisman)	26
	Early versus Late Selection	30
	Choosing between Approaches	32
	Attention: Selective Processes in Vision and Hearing (Moray)	34
	<i>Suggested Readings</i>	38
Chapter 3	<i>The Acquisition of Information</i>	38
	Stimulus Analyzing Mechanisms	39
	Data driven and Conceptually driven Processing	40
	The Importance of Context	41
	Decision Units	43
	The Perception of Speech (Miller)	44
	A Speech-Understanding System	49
	Knowledge and Its Representation in a Speech Understanding System (Reddy and Newell)	50

Interactions between Data driven and Conceptually driven Processing	58
The Parsing Paradox: Bottom-Up or Top-Down (Palmer)	59
<i>Suggested Readings</i>	60
Chapter 4 Attention, Effort, and Resources	63
Emotion and Arousal	63
Automaticity	65
Mental Pathologies	67
Pathology of Attention (McGhie)	67
A Capacity Model of Attention	70
Attention and Effort (Kahneman)	71
On Data-limited and Resource-limited Processes (Norman and Bobrow)	74
A Theory of Attention	78
<i>Suggested Readings</i>	81
Chapter 5 Short-term Memory	83
Memory of the Present	83
The Information in Brief Presentations (Sperling)	86
The Magical Number Problem	89
The Magical Number Seven, Plus or Minus Two (Miller)	89
Experiments on Short-term Memory	96
Experimental Procedures	96
The Study of Errors	97
Rehearsal	100
Memory for Nonverbal Material	101
Early Theories of Short-term Memory	102
Primary Memory (Waugh and Norman)	104
How Many Memories?	108
<i>Suggested Readings</i>	110
Chapter 6 Depth of Processing	113
Control Structures	114

Control Processes in Memory (Atkinson and Shiffrin)	114
Organization and Memory	116
Rehearsal	118
Maintenance and Elaboration	119
The Interaction of Primary and Secondary Rehearsal (Bjork)	120
Levels of Processing	120
Levels of Processing: A Framework for Memory	
Research (Craik and Lockhart)	121
<i>Suggested Readings</i>	128

Chapter 7 Mnemonics 130

An Anecdote	132
Plans for Remembering (Miller, Galanter, and Pribram)	132
Mnemonic Techniques	135
Rhymes	135
Method of Loci	136
The Greek Art of Memory (Yates)	136
Analytic Substitutions (Loisette)	143
Narrative Stories (Bower and Clark)	148
Mnemonic Principles	152
<i>Suggested Readings</i>	155

Chapter 8 The Representation of Knowledge 157

Words and Images	157
Spatial and Verbal Components of the Act of Recall (Brooks)	158
Sentences and Saying	158
Sentences and Pointing	159
Diagrams and Saying	159
Diagrams and Pointing	160
The Results	161
Visual Images	162
Scanning Visual Images (Kosslyn)	164
The Representation of Information in Long-term Memory	167

On Propositional Representation (Norman, Rumelhart, and LNR)	168
Semantic Networks	173
Human Associative Memory (Anderson and Bower)	174
The Representation of Information in Memory (Norman, Rumelhart, and LNR)	176
How to Make a Language User (Collins and Quillian)	181
A Process Model (Rumelhart, Lindsay, and Norman)	184
Features and Prototypes	185
Episodic and Semantic Memory	187
Episodic versus Semantic Memory (Tulving)	187
Some Properties of Representations	190
Maps	192
Networks and Lists	193
Representation in Humans	195
<i>Suggested Readings</i>	196
Chapter 9 Practice and Skilled Performance	199
Performing from Memory	199
Practice, Practice, Practice	200
Musical Performance	201
Musical Memory in Piano Playing and Piano Study (Hughes)	202
Chess Players	205
What Happens with Practice?	206
Juggling	207
Bugs	209
Automatization through Particularization	210
Chapter 10 Unfinished Business	213
Individual Differences	214
Hemispheric Specialization	215
Consciousness	217
Remembering	219

The Tip-of-the-Tongue Problem	219
The “Tip-of-the-Tongue” Phenomenon (Brown and McNeill)	220
Remembering or Reconstructing	223
Representativeness and Availability	224
Accessibility of Information (Tversky and Kahneman)	225
Memory for Real Events	229
Retrieval as Problem Solving (Lindsay and Norman)	230
<i>Suggested Readings</i>	232
<i>References</i>	234
<i>Index</i>	255
