TABLE OF CONTENTS

	Page
Abstract.....	V
Preface.....	IX
List of Tables.....	XIII
Chapter I: A Brief Review of the Literature on the Relation between Growth and Distribution.....	1
Chapter II: An Equilibrium Model of Income Distribution.....	6
II.1 Introduction.....	6
II.2 An Equilibrium Model of Income Distribution.....	8
II.3 The Solution Matrix.....	12
II.3.1 The Linkages Matrix.....	12
II.3.2 The Other Submatrices in the Solution.....	19
II.4 Assumptions of the Model.....	21
Chapter III: An Application to Japan.....	25
III.1 Studies on Japanese Income Distribution.....	25
III.2 Data Base and Estimation of the Coefficients of the Model.....	31
III.2.1 The Consumption Coefficients.....	31
III.2.2 The Input-Output Coefficients.....	39
III.2.3 The Value Added Coefficients.....	39
III.2.4 A Note on the Selection of Years.....	43
III.3 The Model Results.....	44
III.3.1 The Model Results for 1959.....	44
III.3.2 The Model Results for 1969.....	60
III.4 Summary.....	72

TABLE OF CONTENTS (Continued)

Chapter IV:	A Simulation Exercise.....	76
IV.1	Simulation Experiments.....	76
IV.2	The Results.....	79
IV.3	Summary.....	89
Chapter V:	Summary and Conclusion.....	90
Appendix 1:	Correspondence between NFIE and Input-Output Categories.....	96
