

John M. FitzGerald, Ph.D.
Associate Professor of Data Processing
California State Polytechnic University

Ardra F. FitzGerald
Assistant Reference Librarian
California State Polytechnic University

Fundamentals of Systems Analysis

John Wiley & Sons

New York London Sydney Toronto

Contents

PART ONE

1 INTRODUCTION TO SYSTEMS ANALYSIS 3

2 FEASIBILITY STUDY 30

THE PRELIMINARIES 1

<i>The Systems Situation</i>	3
<i>Definition of Systems and Procedures</i>	5
<i>Definition of Systems Analysis</i>	7
<i>The Systems Analyst</i>	9
<i>Relationship of the Systems Department to the Rest of the Organization</i>	10
<i>Functions of the Systems Department</i>	11
<i>Philosophies of Systems Design</i>	12
<i>Desirable Characteristics of a System</i>	13
<i>Consideration of Alternatives</i>	14
<i>What Is the "Area under Study"?</i>	15
<i>Documentation of the System</i>	17
<i>The Most Overlooked Tool of a Systems Analyst: the Library</i>	18
<i>What Your Library Contains . . .</i>	
<i>Basics</i>	18
<i>Organization of the Book</i>	22
<i>Selections for Further Study</i>	22
<i>Questions</i>	25
<i>Situation Cases</i>	25

<i>What Is a Feasibility Study?</i>	30
<i>Why Conduct a Feasibility Study?</i>	31
<i>Two Types of Feasibility Studies</i>	32
<i>How to Conduct Each Type of Feasibility Study</i>	33
<i>Feasibility Study Written Report</i>	39
<i>Proceed . . . If Requested</i>	40
<i>Selections for Further Study</i>	40
<i>Questions</i>	41
<i>Situation Cases</i>	42

Contents

PART TWO

THE SYSTEM STUDY ITSELF 47

3 PROBLEM DEFINITION 49

<i>How Do You Know You Have a Problem?</i>	49
<i>The Problem-Reporting Machinery</i>	50
<i>Where Problem Signals Come From</i>	50
<i>Develop a TO DO List</i>	51
<i>Define the Problem . . . Subject, Scope, Objectives</i>	54
<i>Verbal Presentation</i>	56
<i>Problem Definition Written Report</i>	56
<i>Other Considerations</i>	57
<i>Selections for Further Study</i>	58
<i>Questions</i>	59
<i>Situation Cases</i>	60

4 PREPARE AN OUTLINE OF THE SYSTEMS STUDY 64

<i>Plan for the Study</i>	64
<i>Organize the Study into Major Areas</i>	65
<i>Plan the Attack to Succeed . . . Techniques</i>	69
<i>Selections for Further Study</i>	70
<i>Questions</i>	72
<i>Situation Cases</i>	72

5 GENERAL INFORMATION ON THE AREA UNDER STUDY 76

<i>Why General Information?</i>	76
<i>Identify the Area under Study</i>	77
<i>Background of Industry, Company, and Area under Study</i>	78
<i>Legal Requirements</i>	80
<i>The Organization Itself</i>	80
<i>Company Politics</i>	82
<i>Selections for Further Study</i>	84
<i>Questions</i>	86
<i>Situation Cases</i>	86

Contents

6 INTERACTIONS BETWEEN THE AREAS BEING STUDIED 90

<i>Structure of the Organization</i>	90
<i>Interactions Between Outputs, Inputs, and Resources</i>	92
<i>Departmental Interactions</i>	94
<i>Selections for Further Study</i>	96
<i>Questions</i>	96
<i>Situation Cases</i>	97

7 UNDERSTANDING THE EXISTING SYSTEM 100

<i>Why Understand the Existing System?</i>	100
<i>Develop Your Own Approach</i>	101
<i>Interviewing</i>	102
<i>What to Ask during the Interview</i>	106
<i>Searching Records</i>	107
<i>Estimating and Sampling</i>	108
<i>Gaining the Confidence of the Area under Study</i>	112
<i>Develop a Method to Document the Data</i>	113
<i>Prepare a Summary on the Existing System</i>	118
<i>Selections for Further Study</i>	119
<i>Questions</i>	122
<i>Situation Cases</i>	122

8 DEFINE THE NEW SYSTEMS REQUIREMENTS 128

<i>Why Define Requirements?</i>	128
<i>Long-range Plans</i>	129
<i>Define Specific Requirements of the New System</i>	131
<i>Document the Requirements for the New System</i>	132
<i>Preparing a Summary of the New System Requirements</i>	140
<i>Evaluation Criteria for the New System</i>	142
<i>Selections for Further Study</i>	143
<i>Questions</i>	144
<i>Situation Cases</i>	144

Contents

9 DESIGNING THE NEW SYSTEM 149

<i>Problem-Solving versus Decision-Making</i>	149
<i>Design Background</i>	150
<i>Systems Concepts</i>	151
<i>Patterns of Systems Design . . .</i>	
<i>A Step-By-Step Approach</i>	153
<i>Computerized System Design</i>	155
<i>Audit Trails</i>	159
<i>Selections for Further Study</i>	161
<i>Questions</i>	163
<i>Situation Cases</i>	164

10 ECONOMIC COST COMPARISONS 168

<i>General Concepts</i>	168
<i>Two Concepts of Cost Analysis</i>	169
<i>Payback Period</i>	170
<i>Marginal Efficiency of Investment</i>	171
<i>Compare Current System with the New System</i>	172
<i>Detailed Example of Costs</i>	173
<i>Basic Noneconomic Benefits . . .</i>	
<i>Intangibles</i>	176
<i>Considerations if a Computer Is Required</i>	176
<i>Selections for Further Study</i>	177
<i>Questions</i>	178
<i>Situation Cases</i>	178

11 SELLING THE SYSTEM 188

<i>Background Knowledge</i>	188
<i>Basic Objections to Overcome</i>	189
<i>Gaining Acceptance through the Written Report</i>	191
<i>Gaining Acceptance through the Verbal Presentation</i>	194
<i>The Presentation Itself</i>	195
<i>Visual Aids</i>	197
<i>Ending the Presentation</i>	198
<i>Selections for Further Study</i>	199
<i>Questions</i>	203
<i>Situation Cases</i>	203

Contents

12 IMPLEMENTATION, FOLLOW-UP, AND RE-EVALUATION 208

<i>The Implementation Process</i>	208
<i>Implementation of a Manual System</i>	209
<i>Implementation of a Computer- Based System</i>	211
<i>Purpose of the Follow-Up</i>	215
<i>Why Re-evaluation Is Required</i>	216
<i>Final System Documentation</i>	216
<i>Selections for Further Study</i>	218
<i>Questions</i>	220
<i>Situation Cases</i>	220

PART THREE

THE TOOLS OF SYSTEMS ANALYSIS 225

13 CHARTING 227

<i>What Is Charting?</i>	227
<i>General Categories of Charts</i>	227
<i>General Charting Guidelines</i>	228
<i>Six Flow Charts</i>	229
<i>Gantt Chart</i>	237
<i>Work Distribution Chart</i>	243
<i>Organization Chart</i>	243
<i>Decision Tables</i>	247
<i>PERT/CPM</i>	249
<i>Selections for Further Study</i>	261
<i>Questions</i>	263
<i>Situation Cases</i>	263

14 FORMS DESIGN 274

<i>Objectives of Forms Control</i>	274
<i>Objectives of Forms Design</i>	278
<i>Know the Machines to Be Used</i>	279
<i>Types of Paper</i>	280
<i>Techniques of Forms Design and Layout</i>	281
<i>Form Width</i>	285
<i>Form Length</i>	286
<i>Carbon Copies and Carbon Paper</i>	287
<i>Types of Forms</i>	288
<i>Success is a Miscellaneous Checklist</i>	291
<i>Types of Print</i>	293
<i>Selections for Further Study</i>	295
<i>Questions</i>	297
<i>Situation Cases</i>	298

Contents

15 RECORDS RETENTION 301

<i>Purpose of a Records Retention Program</i>	301
<i>Active . . . Storage . . . Legal Life</i>	302
<i>Record Retention Schedule</i>	302
<i>Records Inventory</i>	304
<i>Types of Filing Systems</i>	306
<i>Security of Records</i>	310
<i>Microforms</i>	310
<i>Selections for Further Study</i>	321
<i>Questions</i>	323
<i>Situation Cases</i>	323

16 REPORT ANALYSIS 328

<i>What Is Report Analysis?</i>	328
<i>Analyzing Reports</i>	330
<i>Criteria of a Good Reporting System</i>	332
<i>Characteristics of a Good Report</i>	332
<i>Weaknesses of Reports</i>	333
<i>Exception Reporting</i>	334
<i>Selections for Further Study</i>	336
<i>Questions</i>	337
<i>Situation Cases</i>	337

17 PROCEDURE WRITING 340

<i>Why Write Procedures . . . Four Basic Reasons</i>	340
<i>Styles of Procedure Writing</i>	341
<i>Techniques of Writing Procedures</i>	343
<i>Types of Written Documentation</i>	345
<i>Procedure Writing in Retrospect</i>	346
<i>Selections for Further Study</i>	349
<i>Questions</i>	350
<i>Situation Cases</i>	350

18 TECHNIQUES FOR THE SYSTEMS MANAGER 355

<i>Project Control</i>	355
<i>Progress Reports</i>	360
<i>General Functions of the Manager of Systems Analysis</i>	362
<i>Symptoms of Organizational Problems</i>	363
<i>Job Descriptions</i>	364
<i>Information Storage and Retrieval as a Tool</i>	366
<i>Management Information Systems</i>	368

Contents

<i>Data Communications</i>	370
<i>In-House Systems Staff or Outside Consultants?</i>	372
<i>Selections for Further Study</i>	374
<i>Questions</i>	376
<i>Situation Cases</i>	376

19 GOVERNMENT DOCUMENTS 384

<i>The Topsy Turvy World of Government Documents</i>	384
<i>The U. S. Government Printing Office</i>	387
<i>The Department of Defense</i>	405
<i>The Department of Commerce</i>	409
<i>National Aeronautics and Space Administration</i>	416
<i>The Atomic Energy Commission</i>	419
<i>Department of Health, Education and Welfare</i>	422
<i>Miscellaneous Documents</i>	435
<i>Advice to the Novice</i>	437
<i>Selections for Further Study</i>	438
<i>Questions</i>	439
<i>Situation Cases</i>	439

GLOSSARY 443

APPENDICES 469

<i>I. Outline for Conducting a Systems Study</i>	471
<i>II. Sample Index Pages for Library Use</i>	480
<i>III. How to Evaluate Files</i>	493
<i>IV. Information Retrieval</i>	506

INDEX 515
