List of figures	viii
List of tables	ix
Foreword	x
Acknowledgements	xii
<b>Introduction</b>	<b>1</b>
Background	1
Telecommunications subscriber equipment	2
The economic and technological significance of TSE	6
Methods	7
Outline of the book	9
 <i>Part I Theory and Concepts</i>	
<b>1 Economies of Scale and Scope</b>	<b>11</b>
Analysis of scale and scope in the TSE industry	11
Economies of scale: critique	12
Economies of scope: critique	16
Dimensions of scale and scope in manufacturing industry	21
Scale and scope dynamics	36
<b>2 Manufacturing and Competitiveness</b>	<b>42</b>
Introduction	42
The production function	43
Competitive strategy and manufacturing	44
Capital investment in manufacturing	46
Product design and process change	48
Automation	50
Labour in manufacturing	51
Quality and supplier relationships	55
The management of manufacturing	58
Issues for empirical investigation	59

Appendix to Chapter 2: manufacturing in TSE – an outline of the processes	60
<i>Part II Evidence from the TSE Industry</i>	
<b>3 Market Structure and Commercial Developments in the TSE Industry</b>	65
Segmenting the industry	65
Regulatory change and markets	66
Product markets	77
The TSE industry	88
Global alliances	90
<b>4 Economies of Scale in TSE Production</b>	95
Firms' scale of operation	95
The manufacturing dimension	99
The supply of components	100
Marketing and sales	104
Scale and R & D	106
A note on multiproduct scale economies	107
<b>5 Economies of Scope – Flexibility and the Benefits of Integration</b>	109
Flexibility and integration	109
Capacity utilisation	110
Shareable inputs in TSE production	112
Technical links	117
Multiproduct marketing by TSE firms	122
Flexibility and production networks	124
<b>6 Competitive Manufacturing</b>	128
Aspects of manufacturing	128
Advanced manufacturing technology	128
Direct labour in manufacturing	134
Design-for-manufacture	135
Just-in-Time (JIT) and quality control	137
Manufacturing and production in the TSE industry	139
<i>Part III Prospects and Implications</i>	
<b>7 Future Trends – The Evolution of TSE</b>	143
Telecommunications and information technology	143
Product trends	145
Production technology trends	147
The medium-term competitive environment	150
TSE and related markets	152

TSE firms and industry structure	155
<b>8 Conclusions</b>	159
Glossary of Terms	164
References	169
Index	175
