Plural Rationality and Interactive Decision Processes

Proceedings of an IIASA (International Institute for Applied
Systems Analysis) Summer Study on Plural Rationality and
Interactive Decision Processes

Held at Sopron, Hungary, August 16–26, 1984

FB Mathematik TUD

Inv.-Nr. B 20 493

CONTENTS

I. CULTURAL ASPECTS OF RATIONAL PERCEPTION

Introduction	3
The approach to plural rationality through soft systems methodology <i>Peter Checkland (UK)</i>	8
Beyond the politics of interest <i>Michiel Schwarz and Michael Thompson (UK)</i>	22
The plural rationality and interest of national planners: experiences in Hungary <i>Gustav H. Bäger (Hungary)</i>	37
Beyond rationality <i>Stuart E. Dreyfus (USA)</i>	55
The culture of decision making <i>Martin H. Krieger (USA)</i>	65
Different dissolutions of the man-and-world problem <i>Laszlo Zsolnai and Istvan Kiss (Hungary)</i>	75
Rationality and equivalent redescriptions <i>Douglas Maclean (USA)</i>	83

II. FRAMEWORKS FOR RATIONAL DECISION MAKING

Introduction	97
Back from prospect theory to utility theory <i>Howard Raiffa (USA)</i>	100
Negotiation and mediation in conflicts. II. Plural rationality and interactive decision processes <i>Andrzej Wierzbicki (Poland)</i>	114
On the structure, stabilization and accuracy of the decision process <i>Reinhard Tietz (FRG)</i>	132
Uses of experimental games <i>Anatol Rapoport (Canada)</i>	147

III. GROUP DECISION MAKING

Introduction	165
Plausible outcomes for games in strategic form <i>Martin Shubik (USA)</i>	167
Game and bargaining solutions for group decision problems <i>Günter Fandel (FRG)</i>	187
Interactive group decision making by coalitions <i>Heinz Isermann (FRG)</i>	202
On the role of dynamics and information in international negotiations: the case of fishery management <i>Veijo Kaitala and Raimo Härmäläinen (Finland)</i>	212
Macromodels and multiobjective decision making <i>Manfred Peschel (GDR)</i>	222

IV. INTERACTIVE DECISION SUPPORT

Introduction	231
On the components in interactive multiobjective programming methods <i>Hirotaka J. Nakayama (Japan)</i>	234
An integrated programming package for multiple-criteria decision analysis <i>Manfred Grauer (GDR), Manfred Strubegger and Sabine Messner (Austria)</i>	248
A trajectory-oriented extension of DIDASS and its applications <i>A. Lewandowski, T. Rogowski and T. Kręglewski (Poland)</i>	261
Decision support based on the skeleton method – the HG package <i>H. Górecki, G. Dobrowolski, T. Rys, M. Więcek and M. Żebrowski (Poland)</i>	269
A principle for solving qualitative multiple-criteria problems <i>Pekka J. Korhonen (Finland)</i>	281
A decision support system for planning and controlling agricultural production with a decentralized management structure <i>Marek Makowski and Janusz Sosnowski (Poland)</i>	296

V. EXPERIMENTAL SESSIONS

Introduction	309
On the determination of the optimal temperature for the growth of an early cucumber crop in a greenhouse <i>Alexander Udink ten Cate (The Netherlands)</i>	311
DISCRET – a package for multicriteria optimization and decision problems with discrete alternatives <i>Janusz Majchrzak (Poland)</i>	319
Application of DIDASS methodology to a flood control problem – numerical experiments <i>A. Lewandowski, T. Rogowski and T. Kręglewski (Poland)</i>	325
An experimental session with the HG package <i>M. Żebrowski, G. Dobrowolski and T. Rys (Poland)</i>	329
An interactive method for decision support in a two-person game with an example from regional planning <i>Lech Krus (Poland)</i>	336
Two empirical tests with approaches to multiple-criteria decision making <i>Eberhard Bischoff (UK)</i>	344
Index of keywords	349
