Introduction	1
1 What Are the Issues?	4
2 Long-run Money Supply: The Development of Financial Structures	14
2.1 Introduction	14
2.2 The Relationship between Financial Development and Economic Development	15
2.3 Financial Structure and Monetary Policy	21
2.4 Financial Structure at Different Stages of Development	23
3 The Development of Banking Structure, with particular reference to Scotland	24
3.1 Introduction	24
3.2 A Scottish Case Study	25
3.3 Comparison with other Banking Systems	32
3.4 The Development of Financial Centres	34
4 Financial Interdependence	36
4.1 Introduction	36
4.2 Dual Gap Analysis	37
4.3 Demand for Money in Developing Countries	39
4.4 Segmented Markets	43
4.5 Interest Rate Strategy	46
4.6 Interdependence and the Money Supply	49

5	The Money Multiplier Theory of Money Supply Determination	53
	5.1 Introduction	53
	5.2 Derivation of Money Multipliers	54
	5.3 Stability of the Multiplier Base and the Multiplier Coefficients	59
	5.4 Conclusion	62
6	The Portfolio Theory of Money Supply Determination	64
	6.1 Introduction	64
	6.2 Critique of the Multiplier Approach	64
	6.3 The Portfolio Approach	67
	6.4 Money Supply Theories and the Eurocurrency Market	74
	6.5 Conclusion	78
7	Non-Bank Financial Intermediaries	80
	7.1 Introduction	80
	7.2 Are Banks Unique?	81
	7.3 Segmentation of Financial Intermediation	87
	7.4 NBFIs and Monetary Control	91
	7.5 Conclusion	96
8	Liquidity Preference and the Nature of a Monetary Economy	98
	8.1 Introduction	98
	8.2 Asset Yields	99
	8.3 Portfolio Choice and Employment Determination	102
	8.4 Effective Demand in a Barter Economy	106
	8.5 Conclusion	109
9	Wealth Effects	110
	9.1 Introduction	110
	9.2 The Origins of Wealth Effects	111
	9.3 The Incidence of Wealth Effects	114
	9.4 Wealth Effects and Self-righting Properties of Economies	117
	9.5 Conclusion	121
10	Crowding Out	122
	10.1 Introduction	122
	10.2 The Nature and Importance of Crowding Out	123

10.3	How Does Financial Crowding Out Occur?	126
10.4	Crowding Out in IS–LM Models	130
10.5	Conclusion	133

11 Speculation and Financial Instability 135

11.1	Introduction	135
11.2	Classical and Keynesian Approaches to Speculation	136
11.3	Minsky's Theory of Investment	138
11.4	Minsky's Theory of Systemic Fragility	142
11.5	Moderating Factors in Modern Financial Structures	144
11.6	Conclusion	147

12 A Case Study Investigation of Minsky's Financial Instability Hypothesis 149

12.1	Introduction	149
12.2	An Overview of Developments in the Postwar Financial System	150
12.3	Five Cases of Financial Failure	154
12.4	Policy Lessons of the Events of the Mid-1970s	162
12.5	Conclusion	164

13 Schools of Thought in Monetary Economics 166

13.1	Introduction	166
13.2	Five World Views in Monetary and Macroeconomics	167
13.3	Methodological Rules of the Game	171
13.4	Interpretations of What Keynes 'Really Meant'	178
13.5	Conclusion	183

14 Monetarism – A Sympathetic Exposition 184

14.1	Introduction	184
14.2	Monetarist Microfoundations	185
14.3	The Effect of a Change in the Rate of Monetary Growth	192
14.4	Monetarists, OPEC and Trade Unions	195
14.5	Conclusion	196

15 Monetarism – A Keynesian Critique 197

15.1	Introduction	197
15.2	Weaknesses in the Transmission Mechanism	199
15.3	Not All Unemployment is Voluntary	204
15.4	Reflation Without Inflation	207
15.5	Conclusion	211

16	DCE and the Monetary Approach to the Balance of Payments	212
16.1	Introduction	212
16.2	Sterilization and the Overseas Origins of Domestic Money Supplies	213
16.3	DCE Targets and IMF Loans	219
16.4	The Monetary Approach to the Balance of Payments	222
16.5	Objections to the Monetary Approach to the Balance of Payments	226
16.6	Conclusion	228
17	Monetary Policy: Some General Principles	231
17.1	Introduction	231
17.2	Two Guiding Principles for Monetary Policy	232
17.3	Targets and Instruments	237
