Case Studies xxxi
Figures xxxiii
Tables xxxvii

PART ONE PRINCIPLES AND CONCEPTS

1. Economics, Institutions, and Development: A Global Perspective	3
How the Other Three-Quarters Live	3
Economics and Development Studies	7
The Nature of Development Economics	7
Why Study Development Economics? Some Critical Questions	9
The Important Role of Values in Development Economics	11
Economies as Social Systems: The Need to Go Beyond Simple Economics	12
What Do We Mean by Development?	13
Traditional Economic Measures	13
The New Economic View of Development	14
Three Core Values of Development	16
The Three Objectives of Development	18
Summary and Conclusions	18
❖ CASE STUDY The Economy of Brazil	20
<i>Concepts for Review/Questions for Discussion/Notes/Further Reading</i>	23
2. Diverse Structures and Common Characteristics of Developing Nations	26
Some Classifications of Developing Countries	27
The Structure of Third World Economies	32
Size and Income Level	32

Historical Background 33
 Physical and Human Resources 33
 Ethnic and Religious Composition 34
 Relative Importance of the Public and Private Sectors 34
 Industrial Structure 35
 External Dependence: Economic, Political, and Cultural 36
 Political Structure, Power, and Interest Groups 37
 Common Characteristics of Developing Nations 37
 Low Levels of Living 38
 Low Levels of Productivity 47
 High Rates of Population Growth and Dependency Burdens 48
 High and Rising Levels of Unemployment and Underemployment 50
 Substantial Dependence on Agricultural Production and
 Primary-Product Exports 51
 Prevalence of Imperfect Markets and Incomplete Information 53
 Dominance, Dependence, and Vulnerability in International Relations 54
 Conclusion 55

❖ **CASE STUDY The Economy of Nigeria 57**

Concepts for Review/Questions for Discussion/Notes/Further Reading 58

APPENDIX 2.1 Social Indicators as Alternative Measures of Development:
**The Physical Quality of Life and Human Development Indexes 62*

3. Theories of Development: A Comparative Analysis

69

Leading Theories of Economic Development: Five Approaches 70
 The Linear-Stages Theory 71
 Rostow's Stages of Growth 71
 The Harrod-Domar Growth Model 72
 Obstacles and Constraints 74
 Necessary versus Sufficient Conditions: Some Criticisms of the Stages Model 74
 Structural-Change Models 75
 The Lewis Theory of Development 75
 Structural Change and Patterns of Development 80
 Conclusions and Implications 81
 The International-Dependence Revolution 82
 The Neocolonial Dependence Model 82
 The False-Paradigm Model 84
 The Dualistic-Development Thesis 84
 Conclusions and Implications 85
 The Neoclassical Counterrevolution 86

Challenging the Statist Approach: Free Markets, Public Choice, and Market-friendly Approaches	86
Traditional (“Old”) Neoclassical Growth Theory	88
Conclusions and Implications	89
The New Growth Theory	90
Motivation for the New Growth Theory	90
Endogenous Growth	91
Criticisms of the New Growth Theory	93
Theories of Development: Reconciling the Differences	93
❖ CASE STUDY The Economy of Cuba	96
<i>Concepts for Review/Questions for Discussion/Notes/Further Reading</i>	99

4. Historic Growth and Contemporary Development: Lessons and Controversies

104

The Growth Game	104
The Economics of Growth: Capital, Labor, and Technology	105
Capital Accumulation	105
Population and Labor Force Growth	106
Technological Progress	107
Conclusion	110
The Historical Record: Kuznets’s Six Characteristics of Modern Economic Growth	110
High Rates of Per Capita Output and Population Growth	111
High Rates of Total Factor Productivity Increase	112
High Rates of Economic Structural Transformation	112
High Rates of Social, Political, and Ideological Transformation	112
International Economic Outreach	113
Limited International Spread of Economic Growth	114
Conclusions: The Interdependence of Growth Characteristics	114
The Limited Value of the Historical Growth Experience:	
Differing Initial Conditions	115
Physical and Human Resource Endowments	116
Relative Levels of Per Capita Income and GNP	116
Climatic Differences	117
Population Size, Distribution, and Growth	117
The Historical Role of International Migration	118
The Growth Stimulus of International Trade	120
Basic Scientific and Technological Research and Development Capabilities	120
Stability and Flexibility of Political and Social Institutions	121
Conclusions	122

❖ **CASE STUDY The Economy of Kenya 123**

Concepts for Review/Questions for Discussion/Notes/Further Reading 125

**COMPARATIVE CASE STUDY KOREA AND ARGENTINA:
Contributions of Alternative Approaches to Development 129**

PART TWO ~ PROBLEMS AND POLICIES: DOMESTIC

5. Growth, Poverty, and Income Distribution

137

The Growth Controversy 137

Some Basic Concepts; Size and Functional Distributions of Income 139

Size Distributions 139

Lorenz Curves 141

Dualistic Development and Shifting Lorenz Curves: Some Stylized Typologies 142

Gini Coefficients and Aggregate Measures of Inequality 145

Functional Distributions 146

A Review of Evidence: Inequality and Absolute Poverty in Third
World Countries 148

Inequality: Variations among Countries 148

Absolute Poverty: Extent and Magnitude 150

• Economic Characteristics of Poverty Groups 155

Rural Poverty 155

Women and Poverty 156

Ethnic Minorities, Indigenous Populations, and Poverty 159

Income Levels, Growth, and the Extent of Poverty: The Kuznets
Hypothesis and Other Tests 160

Redefining Development Goals: Growth with Improved
Income Distribution 163

The Role of Economic Analysis: Redistribution from Growth 164

Growth versus Income Distribution 164

GNP as a Biased Index of National Development and Welfare 166

Constructing a Poverty-weighted Index of Social Welfare 168

Combining the Economics of Growth and Distribution 170

The Range of Policy Options: Some Basic Considerations 171

Areas of Intervention 172

Policy Options 172

Summary and Conclusions: The Need for a Package of Policies 176

❖ **CASE STUDY The Economy of India 177**

❖ **CASE STUDY The Economy of South Africa 179**

Concepts for Review/Questions for Discussion/Notes/Further Reading 182

6. Population Growth and Economic Development: Causes, Consequences, and Controversies	189
The Basic Issue: Population Growth and the Quality of Life	190
A Review of Numbers: Population Growth—Past, Present, and Future	191
World Population Growth through History	191
Structure of the World's Population	194
The Hidden Momentum of Population Growth	198
The Demographic Transition	200
The Causes of High Fertility in Developing Countries: The Malthusian and Household Models	202
The Malthusian Population Trap	202
Criticisms of the Malthusian Model	205
The Microeconomic Household Theory of Fertility	207
The Demand for Children in Developing Countries	210
Some Empirical Evidence	211
Implications for Development and Fertility	211
The Consequences of High Fertility: Some Conflicting Opinions	212
Population Growth Is Not a Real Problem	212
Population Growth Is a Real Problem	216
Goals and Objectives: Toward a Consensus	219
Some Policy Approaches	221
What Developing Countries Can Do	221
What the Developed Countries Can Do: Resources, Population, and the Global Environment	225
How Developed Countries Can Assist Developing Countries with Their Population Programs	226
❖ CASE STUDY The Economy of China	228
<i>Concepts for Review/Questions for Discussion/Notes/Further Reading</i>	230
7. Unemployment: Issues, Dimensions, and Analyses	235
The Employment Problem: Some Basic Issues	235
Dimensions of Third World Unemployment: Evidence and Concepts	237
Employment and Unemployment: Trends and Projections	237
Four Dimensions of the Employment Problem	239
Labor Force: Present and Projected	243
Labor Underutilization: Some Definitional Distinctions	244
Linkages among Unemployment, Poverty, and Income Distribution	245
The Phenomenon of Jobless Growth and the Output-Employment Lag	247
Economic Models of Employment Determination	249

The Traditional Competitive Free-Market Model 249
 Output and Employment Growth: Conflict or Congruence? 251
 Appropriate Technology and Employment Generation:
 The Price-Incentive Model 253

Conclusion 256

❖ **CASE STUDY The Economy of Egypt 257**

Concepts for Review/Questions for Discussion/Notes/Further Reading 259

8. Urbanization and Rural-Urban Migration: Theory and Policy 263

The Migration and Urbanization Dilemma 263

Urbanization: Trends and Projections 264

The Urban Informal Sector 268

Women in the Informal Sector 272

Urban Unemployment 274

Migration and Development 274

Internal Migration in Developing Nations: Some General Facts 278

The Migration Process 278

Migrant Characteristics 279

Toward an Economic Theory of Rural-Urban Migration 280

A Verbal Description of the Todaro Model 280

A Diagrammatic Presentation 283

Five Policy Implications 284

Summary and Conclusions: The Shape of a Comprehensive Migration
 and Employment Strategy 287

❖ **CASE STUDY The Economy of Mexico 289**

Concepts for Review/Questions for Discussion/Notes/Further Reading 291

9. Agricultural Transformation and Rural Development 295

The Imperative of Agricultural Progress and Rural Development 295

Agricultural Stagnation and Growth, 1950–1990 297

The Structure of Third World Agrarian Systems 301

Two Kinds of World Agriculture 301

Peasant Agriculture in Latin America, Asia, and Africa 304

The Important Role of Women 314

The Economics of Agricultural Development: Transition from Peasant
 Subsistence to Specialized Commercial Farming 317

Subsistence Farming: Risk Aversion, Uncertainty, and Survival 318

The Transition to Mixed and Diversified Farming	323
From Divergence to Specialization: Modern Commercial Farming	324
Conclusions	324

Toward a Strategy of Agricultural and Rural Development: Some Main Requirements	325
Improving Small-Scale Agriculture	325
Conditions for Rural Development	327

❖ **CASE STUDY The Economy of Bangladesh** 330

❖ **CASE STUDY The Economy of Ghana** 332

Concepts for Review/Questions for Discussion/Notes/Further Reading 334

10. The Environment and Development

340

Economics and the Environment 340

Environment and Development: The Basic Issues 341

Sustainable Development and Environmental Accounting 341

Population, Resources, and the Environment 343

Poverty and the Environment 343

Growth versus the Environment 343

Rural Development and the Environment 344

Urban Development and the Environment 344

• The Global Environment 345

The Scope of Environmental Degradation: A Brief Statistical Review 345

Rural Development and the Environment: A Tale of Two Villages 348

Traditional Economic Models of the Environment 351

Privately Owned Resources 351

Common Property Resources 353

Criticisms of the Neoclassical Common Property Framework 354

• Public Goods and Bads: Regional Environmental Degradation and the
Free-Rider Problem 355

Criticisms of the Public-Good Framework 357

Urban Development and the Environment 358

The Ecology of Urban Slums 358

Industrialization and Urban Air Pollution 360

Problems of Congestion and the Availability of Clean Water and Sanitation 363

The Need for Policy Reform 364

The Global Environment: Rain Forest Destruction and Greenhouse Gases 366

Policy Options in Developing and Developed Countries 368

What Less Developed Countries Can Do 368

How Developed Countries Can Help LDCs 369

What Developed Countries Can Do for the Global Environment 371

❖ **CASE STUDY The Economy of Pakistan 373***Concepts for Review/Questions for Discussion/Notes/Further Reading 374***11. Education and Development****378**

Education and Human Resources 378

Education in Developing Regions 380

Public Educational Expenditure 380

Enrollments 381

Literacy 383

Costs and Earnings 383

The Gender Gap: Women and Education 385

The Economics of Education and Employment 386

Educational Supply and Demand: The Relationship between
Employment Opportunities and Educational Demands 386

Social versus Private Benefits and Costs 390

Education, Society, and Development: Some Issues 393

Education and Economic Growth 393

Education, Inequality, and Poverty 394

Education, Internal Migration, and the Brain Drain 396

Education of Women, Fertility, and Child Health 399

Education and Rural Development 399

Summary and Conclusions: Major Educational Policy Options 401

Policies Largely External to Educational Systems 403

Policies Internal to Educational Systems 403

❖ **CASE STUDY The Economy of Malaysia 405***Concepts for Review/Questions for Discussion/Notes/Further Reading 407*❖ **COMPARATIVE CASE STUDY BANGLADESH AND NIGERIA
Poverty Policy 412****PART THREE PROBLEMS AND POLICIES: INTERNATIONAL****12. Trade Theory and Development Experience****419**

The Importance of International Trade and Finance 419

Five Basic Questions about Trade and Development 421

The Importance of Trade for Development: A Statistical Review 423

Third World Exports: Trends and Patterns 423

Importance of Exports to Different Developing Nations 424

Demand Elasticities and Export Earnings Instability 427

The Terms of Trade and the Prebisch-Singer Thesis	428
The Traditional Theory of International Trade	430
Relative Factor Endowments and International Specialization: The Neoclassical Model	431
Trade Theory and Development: The Traditional Arguments	435
Some Criticisms of Traditional Free-Trade Theory in the Context of Third World Experience	436
Fixed Resources, Full Employment, and the International Immobility of Capital and Skilled Labor	437
Fixed, Freely Available Technology and Consumer Sovereignty	441
Internal Factor Mobility and Perfect Competition: The Structuralist Critique and the Phenomenon of Increasing Returns, Imperfect Competition, and Controlled Markets	442
The Absence of National Governments in Trading Relations	444
Balanced Trade and International Price Adjustments	446
Trade Gains Accruing to Nationals	446
Some Conclusions on Trade and Economic Development: The Limits of Theory	447
❖ CASE STUDY The Economy of South Korea	451
<i>Concepts for Review/Questions for Discussion/Notes/Further Reading</i>	453
13. The Trade Policy Debate: Export Promotion, Import Substitution, and Economic Integration	458
Trade Strategies for Development: Export Promotion versus Import Substitution	459
Export Promotion: Looking Outward and Seeing Trade Barriers	460
Import Substitution: Looking Inward but Still Paying Outward	465
The IS Industrialization Strategy and Results	468
Foreign-Exchange Rates, Exchange Controls, and the Devaluation Decision	474
Summary and Conclusions: Trade Optimists and Trade Pessimists	478
Trade Pessimist Arguments	478
Trade Optimist Arguments	479
Reconciling the Arguments: The Data and the Consensus	480
South-South Trade and Economic Integration: Looking Outward and Inward	482
The Growth of Trade among Developing Countries	482
Economic Integration: Theory and Practice	482
Regional Trading Blocs and the Globalization of Trade	485
Trade Policies of Developed Countries: The Need for Reform	487
Rich-Nation Tariff and Nontariff Trade Barriers and the 1995 Uruguay Round GATT Agreement	487

The Problem of Adjustment Assistance 488

Domestic Economic Policies 489

❖ **CASE STUDY The Economy of Jamaica 491**

Concepts for Review/Questions for Discussion/Notes/Further Reading 492

14. Balance of Payments, Third World Debt, and the Macroeconomic Stabilization Controversy 498

The Balance of Payments Account 499

General Considerations 499

A Hypothetical Illustration: Deficits and Debts 501

Financing and Reducing Payments Deficits: Some Initial Policy Issues 503

Recent Trends in LDC Balance of Payments 504

The Third World Debt Crisis 506

Background and Analysis 506

Dimensions of the Crisis 508

Attempts at Alleviation: Macroeconomic Instability, IMF Stabilization Policies, and Their Critics 514

The IMF Stabilization Program 514

Global Dimensions of the LDC Debt Problem 517

• Has the Debt Problem Disappeared? Winners and Losers 518

Conclusions 520

❖ **CASE STUDY The Economy of Venezuela 521**

Concepts for Review/Questions for Discussion/Notes/Further Reading 522

APPENDIX 14.1 A Brief History and Analysis of the International Monetary Fund and the World Bank 526

15. Foreign Finance, Investment, and Aid: Controversies and Opportunities 533

The International Flow of Financial Resources 533

Private Direct Foreign Investment and the Multinational Corporation 534

Multinational Corporations: Size, Patterns, and Trends 535

Private Foreign Investment: Some Pros and Cons for Development 537

Private Portfolio Investment: Boon or Bane for LDCs? 543

Foreign Aid: The Development Assistance Debate 545

Conceptual and Measurement Problems 545

Amounts and Allocations: Public Aid 547

Why Donors Give Aid 550

Why LDC Recipients Accept Aid	554
The Growing Role of Nongovernmental Organizations (NGOs)	555
The Effects of Aid	556
Conclusions: Toward a New View of Foreign Aid	557
❖ CASE STUDY The Economy of Uganda	559
<i>Concepts for Review/Questions for Discussion/Notes/Further Reading</i>	560
❖ COMPARATIVE CASE STUDY	
THAILAND AND THE PHILIPPINES Trade Strategy	565

PART FOUR POSSIBILITIES AND PROSPECTS

16. Planning, Markets, and the Role of the State	573
The Planning Mystique	573
The Nature of Development Planning	574
Basic Concepts	574
Planning in Mixed Developing Economies	575
The Rationale for Planning in Developing Economies	576
Market Failure	576
Resource Mobilization and Allocation	577
Attitudinal or Psychological Impact	577
Foreign Aid	578
The Planning Process: Some Basic Models	578
Characteristics of the Planning Process	578
Planning in Stages: Three Basic Models	579
The Crisis in Planning: Problems of Implementation and Plan Failures	586
Theory versus Practice	587
Reasons for Plan Failures	589
Government Failure and the Resurgent Preference for Markets over Planning	591
Problems of State Intervention and the Rise of Market Preferences	591
Sociocultural Preconditions and Economic Requirements for a Market Economy	594
Role and Limitations of the Market in LDCs	595
Development Planning and the State: Concluding Observations	598
❖ CASE STUDY The Economy of the Philippines	601
<i>Concepts for Review/Questions for Discussion/Notes/Further Reading</i>	602

17. Financial Reform and Fiscal Policy

607

- The Painful Road to Macroeconomic Stability 607
- Financial Systems and Monetary Policy 608
 - Differences between MDC and LDC Financial Systems 608
 - The Role of Central Banks 611
 - The Emergence of Development Banking 613
 - The Role of Informal Finance for Small-Scale Enterprise 615
- Reforming Third World Financial Systems 617
 - Financial Liberalization, Real Interest Rates, Savings, and Investment 617
 - Financial Policy and the Role of the State 619
- Fiscal Policy for Development 620
 - Taxation: Direct and Indirect 620
- Public Administration: The Scarcest Resource 626
- State-owned Enterprises: Improving Some, Privatizing Others 629
 - Privatization: Theory and Experience 631
- Military Expenditures and Economic Development 633
 - Significance and Economic Impact 633
 - The End of the Cold War: Disarmament, Conflict Resolution, and Human Development 637
- ❖ **CASE STUDY The Economy of Taiwan 639**
 - Concepts for Review/Questions for Discussion/Notes/Further Reading 640*

18. Critical Issues for the Twenty-first Century:**Globalization, the Environment, Economic Transition, Africa, and International Economic Reform**

646

- Global Interdependence and the Growth of Third World Markets 646
- The Global Environmental Threat: Greenhouse Gases and Ozone Depletion 648
 - Pollutants and Their Consequences for the Global Environment 648
 - MDC and LDC Contributions to Greenhouse Gases 649
 - Rain Forest Preservation as a Public Good: Who Should Pay? 652
 - Searching for Solutions: The 1992 Earth Summit 653
- The Economic Crisis in Sub-Saharan Africa 655
- Economic Transition in Eastern Europe and the Former Soviet Republics: Implications for Third World Development Assistance 658
- Globalization and International Financial Reform 660
- Summary and Concluding Remarks 662

❖ CASE STUDY The Economy of Saudi Arabia 664

Concepts for Review/Questions for Discussion/Notes/Further Reading 665

COMPARATIVE CASE STUDY CHILE AND POLAND

Privatization: What, When, and to Whom? 669

Glossary 676
