<b>PART I</b>	<b>Introduction</b>	<b>1</b>
<b>CHAPTER 1</b>	<b>Introducing Money and the Financial System</b>	<b>2</b>
	Getting Started	3
	The Financial System and the Economy	4
	Financial Markets	6
	Financial Institutions	7
	Money	9
	Economic Analysis as a Tool	10
	Developing an Economic Approach	10
	Applying an Economic Approach	11
	Review Questions	12
	Analytical Problems, Data Question	13
	Other times, other places . . . The Only Thing Constant in the Financial System Is Change	6
	Consider this . . . Is the Financial System Truly Global?	7
<b>CHAPTER 2</b>	<b>Money and the Payments System</b>	<b>14</b>
	Meeting the Needs of Exchange with Money	15
	Barter	15
	Government Allocation	16
	Money	16
	What Can Serve as Money?	20
	The Payments System	21
	Commodity Money	21
	Fiat Money	21
	Checks	23
	Electronic Funds	23
	Measuring the Money Supply	25
	Measuring Monetary Aggregates	25
	Selecting Monetary Aggregates	28
	Review Questions, Analytical Problems	32
	Data Questions	33
	Appendix: Calculating Price Indexes	34
	Consider this . . . Did the CIA Damage Iraq's Currency?	20
	Other times, other places . . . What's Money? Ask a Taxi Driver!	22
	Using the news . . . Finding Up-to-Date Information on Money	27
	Moving from theory to practice . . . Keep the Change, <i>The Economist</i> , 11/21/98	30
<b>CHAPTER 3</b>	<b>Overview of the Financial System</b>	<b>35</b>
	What Is the Purpose of the Financial System?	36
	Key Services Provided by the Financial System	38
	Risk Sharing	39
	Liquidity	39
	Information	40
	Financial Markets in the Financial System	41

Matching Savers and Borrowers: Debt and Equity	41
Providing Risk-Sharing, Liquidity, and Information Services	43
Financial Intermediaries in the Financial System	45
Matching Savers and Borrowers	46
Providing Risk-Sharing, Liquidity, and Information Services	46
Competition and Change in the Financial System	48
Financial Innovation	48
Changes in Financial Integration and Globalization	49
Financial Regulation	51
Provision of Information	52
Maintenance of Financial Stability	52
Advancement of Other Policy Objectives	53
Effects of Regulation	54
Review Questions, Analytical Problems	58
Data Question	59
Appendix: Financial Instruments	59
Case Study Where Do Households Put Their Savings?	47
Consider this . . . Financial Innovation: Home Mortgages or Rock Star Bonds?	49
Other times, other places . . . The Growth of International Bond and Stock Markets	51
Moving from theory to practice . . . Stuffing Yen into a Drawer, <i>The Wall Street Journal</i> , 7/21/98	56

## **PART II**

### **Interest Rates 65**

#### **CHAPTER 4 Interest Rates and Rates of Return 66**

Comparing Debt Instruments	66
Timing of Payments	67
Present Value	70
Using Yield to Maturity as a Yardstick	73
Bond Yields and Prices	78
Why Can Price and Face Value Differ?	78
How Are Bond Yields and Prices Related?	80
Finding the Total Rate of Return	84
Real versus Nominal Interest Rates	85
Review Questions	89
Analytical Problems	92
Data Questions	93
Consider this . . . Can They STRIP? Creating New Financial Instruments	69
Consider this . . . Who Will Buy Those Fabulous Fifties?	80
Using the news . . . Keeping Up with Bond Prices and Yields	82
Other times, other places . . . Principal Derailed: Inflation and Long-Term Bond Prices	86
Moving from theory to practice . . . Sweet Fifteen: Shorter Mortgages Are Gaining Support, <i>The Wall Street Journal</i> , 9/17/98	90

#### **CHAPTER 5 The Theory of Portfolio Allocation 94**

Determinants of Portfolio Choice	95
Wealth	96
Expected Returns on Assets	97
Risk Associated with Asset Returns	98
Liquidity of Assets	101
Costs of Acquiring Information	101

Advantages of Diversification	102
Putting It All Together: Explaining Portfolio Allocation	107
Review Questions	109
Analytical Problems	112
Data Questions	113
Case Study How Much Risk Should You Tolerate in Your Portfolio?	100
Case Study Modeling Risk Premiums in Financial Markets	105
Other times, other places . . . Are Investors (Globally) Well Diversified?	107
Moving from theory to practice . . . Getting Europeans to Invest in Stocks, <i>The New York Times</i> , 3/1/98	110

## CHAPTER 6 Determining Market Interest Rates 114

Supply and Demand in the Bond Market and Loanable Funds	115
The Demand Curve	115
The Supply Curve	117
Market Equilibrium	117
Explaining Changes in Equilibrium Interest Rates	120
Shifts in Bond Demand	120
Shifts in Bond Supply	127
Using the Model to Explain Changes in Interest Rates	131
Back to the Bond Market's Votes	134
The International Capital Market and the Interest Rate	136
Small Open Economy	137
Large Open Economy	138
Review Questions, Analytical Problems	143
Data Question	145
Consider this . . . Where Do Savings Come from?	123
Other times, other places . . . Do Interest Rates Rise During Wartime?	130
Moving from theory to practice . . . The Bond Market's Star Turn, <i>The New York Times</i> , 8/23/98	140

## CHAPTER 7 Risk Structure and Term Structure of Interest Rates 146

Risk Structure of Interest Rates	147
Default Risk	147
Liquidity	153
Information Costs	154
Taxation	155
Using the Risk Structure for Forecasting	159
Term Structure of Interest Rates	160
Segmented Markets Theory	162
Expectations Theory	163
Preferred Habitat Theory	167
Using the Term Structure for Forecasting	169
Review Questions, Analytical Problems	175
Data Question	177
Using the news . . . Using Bond Yields to Assess Risk	148
Consider this . . . Will a Consumption Tax Kill Munis' Allure?	159
Other times, other places . . . Asian Flu for European Bonds?	160
Using the news . . . How to Read the Yield Curve	161
Consider this . . . Can the Treasury Change the Shape of the Yield Curve?	171
Moving from theory to practice . . . A Successful Bet on Inflation Bonds, <i>The Wall Street Journal</i> , 7/13/98	172

**PART III****Financial Markets 179****CHAPTER 8****The Foreign-Exchange Market and Exchange Rates 180**

- Exchange Rates and Trade 181
  - Nominal versus Real Exchange Rates 182
- Foreign-Exchange Markets 184
- Determining Long-Run Exchange Rates 185
  - Supply and Demand 185
  - Economic Fundamentals and Long-Run Exchange Rate Trends 187
  - The Law of One Price and the Purchasing Power Parity Theory 189
  - Does the Theory Match Reality? 190
- Determining Short-Run Exchange Rates 191
  - Comparing Expected Returns on Domestic and Foreign Assets 192
  - Foreign-Exchange Market Equilibrium 195
  - Interest Rate Parity 197
- Exchange Rate Fluctuations 200
  - Changes in Domestic Real Interest Rates 200
  - Changes in Domestic Expected Inflation 200
  - Changes in Foreign Interest Rates 202
  - Changes in the Expected Future Exchange Rate 204
  - Currency Premiums in Foreign-Exchange Markets 206
  - A (Big) New Kid on the Block: The Euro 207
- Review Questions 210
- Analytical Problems 211
- Data Question 212
- Using the news . . . Reading Exchange Rates 186
- Case Study Should You Bank on International Investments? 199
- Other times, other places . . . Interest and Exchange Rates in the 1980s 205
- Moving from theory to practice . . . Rate Cut for the Euro, *The Wall Street Journal*, 12/4/98 208

**CHAPTER 9****Derivative Securities and Derivative Markets 213**

- Forward Transactions and Derivatives 214
- Futures 215
  - Futures Pricing 216
  - Using Futures to Manage Risk 217
- Options 221
  - Options Pricing 222
  - Using Options to Manage Risk 224
- Benefits of Derivative Markets for the Financial System 225
  - Standardization and Liquidity 227
  - Anonymous Trading and Information 228
- Review Questions 232
- Analytical Problems 233
- Data Question 234
- Appendix: Swaps 234
- Using the news . . . Reading Financial Futures Listings 217
- Using the news . . . Reading Options Listings 223
- Other times, other places . . . Futures Trading, Index Arbitrage, and the Stock Market Crash of 1987 224
- Case Study Citron Pressed—The Orange County Fiasco 225
- Case Study Barings Lost—The Queen's Banker Goes Bust 226
- Moving from theory to practice . . . A Corporate Bond Future for Europe, *Financial Times*, 8/3/98 230

<b>CHAPTER 10</b>	<b>Information and Financial Market Efficiency</b>	<b>237</b>
	Rational Expectations	238
	The Efficient Markets Hypothesis	240
	Determining an Asset's Expected Price	242
	Price Fluctuations	243
	Investment Strategies	244
	Actual Efficiency in Financial Markets	248
	Pricing Anomalies	248
	Mean Reversion	249
	Excessive Volatility	250
	Market Efficiency and the Crash of 1987	250
	Value Investing versus Efficient Markets	254
	Costs of Inefficiency in Financial Markets	254
	Costs of Excessive Price Fluctuations	255
	Information Costs	258
	Review Questions, Analytical Problems	259
	Data Question	260
	Consider this . . . Are Investors Really Rational?	246
	Other times, other places . . . Charting the Civil War with the Gold Market	247
	Case Study What Goes Up . . .	252
	Moving from theory to practice . . . So, Is the Stock Market Overvalued?, <i>The Wall Street Journal</i> , 3/30/98	256
<b>CHAPTER 11</b>	<b>Reducing Transactions Costs and Information Costs</b>	<b>261</b>
	Obstacles to Matching Savers and Borrowers	262
	Transactions Costs	262
	Asymmetric Information and Information Costs	263
	Adverse Selection	264
	"Lemons Problems" in Financial Markets	264
	Reducing Information Costs	265
	Moral Hazard	268
	Moral Hazard in Equity Financing	268
	Moral Hazard in Debt Financing	270
	Information Costs and Financial Intermediaries	273
	Financial Intermediaries and Adverse Selection	274
	Financial Intermediaries and Moral Hazard	275
	Review Questions	279
	Analytical Problems, Data Question	280
	Consider this . . . Are Stock Market Signals Affected by Adverse Selection?	268
	Consider this . . . Can Falling Prices Raise Information Costs?	272
	Other times, other places . . . Corporate Raiders Then and Now	274
	Moving from theory to practice . . . On the Cutting Edge of Corporate Control in China, <i>The Wall Street Journal</i> , 10/28/98	276
<b>PART IV</b>	<b>Financial Institutions</b>	<b>281</b>
<b>CHAPTER 12</b>	<b>What Financial Institutions Do</b>	<b>282</b>
	Securities Market Institutions	284
	Information: Investment Banking	284
	Liquidity and Risk Sharing: Secondary Markets	286

Investment Institutions	289
Mutual Funds	289
Finance Companies	292
Contractual Saving: Insurance Companies	293
Principles of Insurance Management	293
Life Insurance Companies	297
Property and Casualty Insurance Companies	298
Regulation of Insurance Companies and Recent Trends	299
Contractual Saving: Pension Funds	299
Ownership of Pension Funds Assets	301
Funding of Pension Funds	301
Regulation of Private Pension Plans	302
Public Pension Plans	302
Recent Trends	302
Depository Institutions	303
Commercial Banks	304
Savings Institutions	305
Credit Unions	305
Government Financial Institutions	308
Direct Role: Federal Credit Agencies	308
Indirect Role: Loan Guarantees	308
Recent Trends	309
Financial Institutions: Blurring the Lines	309
Review Questions	314
Analytical Problems, Data Question	315
Using the news . . . A Tombstone for Something New?	287
Consider this . . . Can Investors Keep “Captives” at Bay?	295
Case Study What Kind of Financial Institution Is a Hedge Fund?	306
Moving from theory to practice . . . Trimming the Hedges, <i>The Economist</i> , 12/5/98	312

## CHAPTER 13    The Business of Banking    316

How Banks Earn Profits	317
Bank Liabilities	317
Bank Assets	320
Bank Net Worth	321
Bank Failure	322
Determining Bank Profits	322
The Relationship Between Banks and Savers	325
Managing Moral Hazard	325
Managing Liquidity Risk	326
The Relationship Between Banks and Borrowers	329
Managing Credit Risk	330
Managing Interest Rate Risk	335
Expanding the Boundaries of Banking	338
Opportunities and Financial Innovation	339
Off-Balance-Sheet Lending	340
Review Questions	347
Analytical Problems	348
Data Questions	349
Appendix: Measuring the Duration of Bank Assets and Liabilities	349
Consider this . . . How Do Banks Account for Loan Losses?	323
Consider this . . . When Is Credit-Risk Analysis “Discrimination”?	331
Case Study Credit Card Lending	334

- Consider this . . . Teller Line or On-Line? 340  
 Moving from theory to practice . . . Scrambling for Lifeboats in Jakarta, *The New York Times*,  
 9/23/98 344

## CHAPTER 14 The Banking Industry 351

- Origins of Today's Banking Industry 352  
 Who Regulates Banks 353  
     Chartering and Examination 354  
     Regulating Commercial Banks 354  
     Regulating Savings Institutions 355  
     Regulating Credit Unions 355  
 Why the Banking Industry Is Regulated 357  
     Bank Runs 357  
     The Cost of a Bank Run 358  
 Government Intervention in the Banking Industry 359  
     Lender of Last Resort 360  
     Federal Deposit Insurance 361  
     Restrictions on Banking Industry Competition 365  
 The Banking Industry in Other Countries 374  
     Japanese Banking 374  
     German Banking 376  
     Integration of European Banking 377  
 Review Questions 380  
 Analytical Problems, Data Question 381  
 Other times, other places . . . Lessons from the Free Banking Period 353  
 Consider this . . . Is Bank Consolidation Good for Business? 366  
 Case Study Is Banking a Declining Industry? 372  
 Moving from theory to practice . . . Banks Better Buck Up, *The Economist*, 11/28/98 378

## CHAPTER 15 Banking Regulation: Crisis and Response 382

- The Pattern of Regulation 383  
 Lender of Last Resort 383  
     The Great Depression 384  
     Success in Recent Years 385  
     Concluding Remarks 387  
 Anticompetitive Bank Regulation 387  
     The Credit Crunch of 1966 390  
     Banks' Response 390  
     Regulatory Response 392  
     Concluding Remarks 393  
 The U.S. Deposit Insurance Crisis of the 1980s 394  
     Beginning of the Crisis: Worsening Conditions in S&Ls 394  
     Financial System Response 394  
     Regulatory Response: The S&L Bailout 396  
     The Widening Crisis: Commercial Banks 398  
     Options for Regulatory Reform 401  
     Current Issues in Regulatory Reform 404  
     Concluding Remarks 405  
 Lessons from Banking Regulation for Other Institutions 406  
     Insurance Regulation 406  
     Pension Fund Regulation 407  
 Review Questions 411

Analytical Problems	412
Data Question	413
Consider this . . . How Does a Lender of Last Resort Protect the Payments System?	386
Other times, other places . . . Money Market Mutual Funds: Japan and the United States	389
Consider this . . . How Severe Is the Deposit Insurance Crisis in Japan?	400
Moving from theory to practice . . . Crisis and Response in Japan, <i>The Financial Times</i> , 11/16/98	408

## **CHAPTER 16** Banking in the International Economy 414

Organization of International Banks	415
Overseas Organization of U.S. Banks	416
Organization of Foreign Banks in the United States	417
Leaders in Global Banking	418
Managing Exchange Rate Risk	418
Services Provided by International Banks	420
Reducing Transactions Costs	420
Providing Information Services	421
The Rise of Euromarkets	423
Euromarket Customers	425
Loans in Euromarkets	426
Financial Regulation in International Banking	427
Capital Requirements	428
Deposit Insurance	429
Central Bank Intervention	430
International Coordination	430
Review Questions	431
Analytical Problems, Data Question	434
Consider this . . . Why Did Closing BCCI Take So Long?	419
Consider this . . . Will Europe Kill the Eurobond?	426
Other times, other places . . . Do Sovereigns Default?	428
Moving from theory to practice . . . A Lack of Leadership?, <i>The Financial Times</i> , 10/7/98	432

## **PART V**

## The Money Supply Process and Monetary Policy 435

### **CHAPTER 17** The Money Supply Process 436

The Fed and the Monetary Base	437
The Fed's Liabilities	438
The Fed's Assets	439
How the Fed Changes the Monetary Base	439
Comparing Open Market Operations and Discount Loans	444
The Simple Deposit Multiplier	445
Multiple Deposit Expansion	445
Multiple Deposit Contraction	451
The Money Multiplier and Decisions of the Nonbank Public	452
Determinants of Portfolio Choice	454
Concluding Remarks	456
Bank Behavior: Excess Reserves and Discount Loans	457
Excess Reserves	457
Discount Loans	458
Deriving the Money Multiplier and the Money Supply	459
Review Questions	467

Analytical Problems	470
Data Question	472
Appendix: The Money Supply Process for <i>M2</i>	472
Consider this . . . What Are the Origins of Multiple Deposit Expansion?	447
Other times, other places . . . The Money Multiplier and Money Supply During the Early 1930s	462
Case Study Using the Money Supply Equation to Predict Money Growth	464
Moving from theory to practice . . . The Fed, the Monetary Base, and Economic Recovery, <i>The Financial Times</i> , 11/18/98	468

## **CHAPTER 18**      **Changes in the Monetary Base**      474

Balance Sheet of the Federal Reserve System	474
The Fed's Assets	475
The Fed's Liabilities	476
Determining the Monetary Base	477
Changes in the Monetary Base	478
Determinants That Increase the Monetary Base	479
Determinants That Decrease the Monetary Base	482
Concluding Remarks	483
The Federal Budget Deficit and the Monetary Base	484
Alternative Strategies	486
The Government Budget Constraint and the Monetary Base	488
Review Questions, Analytical Problems	492
Data Questions	493
Using the news . . . Federal Reserve Data and Change in the Monetary Base	480
Other times, other places . . . Dealing with the Debt: The Treasury–Federal Reserve Accord	485
Moving from theory to practice . . . The Budget Deficit and the Monetary Base in Russia, <i>The Financial Times</i> , 12/9/98	490

## **CHAPTER 19**      **Organization of Central Banks**      494

Power Sharing in the Federal Reserve System	495
Creation of the System	495
Federal Reserve Banks	496
Member Banks	498
Board of Governors	499
Federal Open Market Committee	499
Power and Authority Within the Fed	500
How the Fed Operates	502
Handling External Pressure	502
Examples of Treasury–Fed Conflict	504
Factors That Motivate the Fed	505
Fed Independence	506
Central Bank Independence in Other Countries	508
Organization and Independence of the European Central Bank	509
Review Questions	511
Analytical Problems	514
Data Questions	515
Consider this . . . Importance of Selecting a Fed Chairman	503
Other times, other places . . . Conflicts Between the Treasury and the Central Bank in Japan over Independence	507
Moving from theory to practice . . . A Team for the ECB, <i>The Financial Times</i> , 10/17–18/98	512

**CHAPTER 20**    **Monetary Policy Tools**    516

- Open Market Operations    516
  - Implementing Open Market Operations    517
  - Open Market Operations versus Other Policy Tools    520
  - Fed Watching and FOMC Directives    520
  - Open Market Operations in Other Countries    522
- Discount Policy    522
  - Using the Discount Window    523
  - Policing the Discount Window    523
  - Benefits of Discount Policy    525
  - Drawbacks of Discount Policy as a Monetary Policy Tool    526
  - Discount Policy in Other Countries    526
- Reserve Requirements    527
  - Changes in Reserve Requirements    527
  - Measurement and Compliance    528
  - Criticism of Reserve Requirements    528
  - Reserve Requirements in Other Countries    531
- Fed Watching: Analyzing the Policy Tools    531
  - The Federal Funds Market    532
  - Open Market Operations    533
  - Changes in Discount Rate    533
  - Changes in Reserve Requirements    535
  - Other Disturbances of the Monetary Base    536
  - The Federal Funds Rate and Monetary Policy    537
  - Concluding Remarks    540
- Review Questions    541
- Analytical Problems    542
- Data Question    543
- Consider this . . . A Day's Work at the Open Market Trading Desk    519
- Consider this . . . How Do You Decode FOMC Directives?    521
- Other times, other places . . . An Early Mistake in Setting Reserve Requirements    530
- Moving from theory to practice . . . Fed Cuts Short-Term Rates, *The New York Times*, 11/18/98    538

**CHAPTER 21**    **The Conduct of Monetary Policy**    544

- Goals of Monetary Policy    545
  - Price Stability    545
  - High Employment    545
  - Economic Growth    546
  - Financial Market and Institution Stability    546
  - Interest Rate Stability    547
  - Foreign-Exchange Market Stability    547
- Problems in Achieving Monetary Policy Goals    547
  - Using Targets to Meet Goals    549
  - Monetary Aggregates and Interest Rates as Targets    550
  - Selecting Intermediate Targets    553
  - Selecting Operating Targets    555
- The Monetary Policy Record    556
  - Early Interest in Targets: 1951–1970    556
  - Experimenting with Monetary Targets: 1970–1979    558
  - De-emphasizing Interest Rates: 1979–1982    559
  - Policy After 1982: Back to Interest Rates    560
  - Increasing International Concerns: The 1980s and 1990s    562
  - Concluding Remarks    562

Reevaluating Fed Targeting Policy	562
Alternative Intermediate Targets	563
The Future of Targeting	564
International Comparison of Monetary Policy Conduct	566
Review Questions	571
Analytical Problems, Data Question	572
Other times, other places . . . Does the Conduct of Monetary Policy Respond to Political Pressures?	561
Case Study Is Inflation Targeting a Good Idea?	565
Moving from theory to practice . . . A 1990s Approach to Monetary Policy, <i>The Financial Times</i> , 7/22/98	568

## **CHAPTER 22**    **The International Financial System and Monetary Policy**    573

Foreign-Exchange Intervention and the Money Supply	574
Foreign-Exchange Intervention and the Exchange Rate	576
Unsterilized Intervention	577
Sterilized Intervention	578
Recent Fed Interventions	579
Balance of Payments	581
The Current Account	582
The Capital Account	583
The Official Settlements Balance	584
Relationships Among the Accounts	585
Exchange Rate Regimes and the International Financial System	585
Fixed Exchange Rates and the Gold Standard	586
Adapting Fixed Exchange Rates: The Bretton Woods System	588
Central Bank Intervention After Bretton Woods	595
Fixed Exchange Rates in Europe	596
How Successful Are Fixed Exchange Rates Likely to Be in the Long Run?	604
Review Questions	605
Analytical Problems	606
Data Questions	607
Case Study Do Sterilized Interventions Affect the Exchange Rate?	580
Using the news . . . The U.S. Balance of Payments	582
Consider this . . . Are the IMF and the World Bank Obsolete?	589
Consider this . . . Does It Matter If the Dollar Is the Reserve Currency?	595
Other times, other places . . . Speculative Attack: 1990s Style	598
Case Study Financial Collapse in Mexico	599
Case Study Financial Collapse in Asia	601
Moving from theory to practice . . . Central Banks Send the Yen Soaring, <i>The Wall Street Journal</i> , 6/18/98	602

## **PART VI**

## **The Financial System and the Macroeconomy**    609

### **CHAPTER 23**    **The Demand for Money**    610

Transactions Motives	611
Real Money Balances	611
Velocity and the Demand for Real Balances	612
Changes in Velocity over Time	613
Portfolio Allocation Motives	618
Motives for Holding Money: Keynes's Liquidity Preference Theory	619
Broader Portfolio Factors: Friedman's Money Demand Model	621

Comparing the Two Models: Keynes versus Friedman	622
Explaining Money Demand	622
The Money Demand Function	623
Measuring Money Demand	624
Review Questions, Analytical Problems	629
Data Question	630
Consider this . . . The Money Growth Slowdown in the Early 1990s: Was Velocity the Culprit?	614
Other times, other places . . . The Case of the Missing Money	625
Moving from theory to practice . . . Russia: A Money Misunderstanding Is the Root of Its Evil, <i>The Economist</i> , 12/19/98	626

## CHAPTER 24 Linking the Financial System and the Economy: The *IS-LM-FE* Model 631

A Model for Goods and Asset Markets: Assumptions	632
The <i>IS</i> Curve	633
Saving, Investment, and Aggregate Demand	633
Determinants of National Saving	634
Determinants of National Investment	635
Constructing the <i>IS</i> Curve	636
The <i>IS</i> Curve for an Open Economy	638
Shifts of the <i>IS</i> Curve	640
Determining Output: The Full Employment Line	642
The <i>LM</i> Curve	644
Asset Market Equilibrium	644
Constructing the <i>LM</i> Curve	645
Shifts of the <i>LM</i> Curve	649
The Financial System and the Economy: The <i>IS-LM-FE</i> Model	652
Using the Model to Explain the Economy's Equilibrium	653
Restoring Equilibrium: Price-Level Adjustment	654
Money, Output, and Prices in the Long Run	657
Review Questions	660
Analytical Problems	661
Data Question	663
Appendix: Derivation of the <i>IS</i> Curve	663
Consider this . . . Are Savings Internationally Mobile?	640
Other times, other places . . . The Gulf War and "Confidence"	642
Moving from theory to practice . . . How Costly Is Y2K?, <i>The Wall Street Journal</i> , 5/4/98	658

## CHAPTER 25 Aggregate Demand and Aggregate Supply 667

The Aggregate Demand Curve	668
Deriving the Aggregate Demand Curve	668
Shifts of the Aggregate Demand Curve	670
The Aggregate Supply Curve	673
Short-Run Aggregate Supply Curve	673
Long-Run Aggregate Supply Curve	679
Shifts in the Short-Run Aggregate Supply Curve	680
Shifts in the Long-Run Aggregate Supply Curve	680
Equilibrium in Aggregate Demand and Aggregate Supply	683
Short-Run Equilibrium	683
Long-Run Equilibrium	684
The Real Business Cycle View	686

Economic Fluctuations in the United States	687
Shocks to Aggregate Demand, 1964–1969	687
Supply Shock, 1973–1975	688
Credit Crunch and Aggregate Demand, 1990–1991	688
Are Investment Incentives Inflationary?	689
Review Questions, Analytical Problems	692
Data Questions	694
Consider this . . . Do Tax Cuts Stimulate Aggregate Demand?	671
Other times, other places . . . Shock Therapy and Aggregate Supply in Poland	681
Consider this . . . Can Shifts in Aggregate Demand Affect Output in the Long Run?	685
Moving from theory to practice . . . Memo to Tokyo: Print Money, <i>The Economist</i> , 7/25/98	690

## CHAPTER 26 Money and Output in the Short Run 695

Tracking Money and Output Movements in the Short Run	696
The Real Business Cycle Model	697
Money and Output: The New Classical Model	699
Money and Output: The New Keynesian Model	702
Should Public Policy Stabilize Economic Fluctuations?	705
The Real Business Cycle and New Classical Views	706
The New Keynesian View	707
Explaining Events of the 1980s and 1990s	710
Effects of Policy Shifts in the Early 1980s	710
Effects of Policy Shifts in the Early 1990s	712
Concluding Remarks	713
Review Questions	716
Analytical Problems	717
Data Questions	719
Consider this . . . Can One Size Fit All in Europe?	703
Case Study How Does Money Affect Aggregate Demand in the New Keynesian View?	704
Other times, other places . . . Yasushi Mieno and the Stabilization Policy Debate in Japan	709
Moving from theory to practice . . . Will the Fed Step on the Gas?, <i>The Financial Times</i> , 9/17/98	714

## CHAPTER 27 Information Problems and Channels for Monetary Policy 720

Macroeconomic Costs of Information Problems	721
Information Problems in Lending: Role of Financial Intermediaries	722
Information Problems in Lending: Role of Net Worth	722
Consequences of a Drop in Bank Lending	723
Consequences of a Fall in Borrowers' Net Worth	725
Financial Panics	725
Credit Controls and Credit Crunches	726
Expanded Channels for Monetary Policy	728
The Money Channel: Monetary Policy and Interest Rates	729
The Bank Lending Channel: Monetary Policy and Banks	730
Money Channel and Bank Lending Channel Predictions	730
The Balance Sheet Channel: Monetary Policy and Net Worth	733
Validity of the Bank Lending and Balance Sheet Channels	736
Implications for Public Policy	739
Review Questions	743
Analytical Problems, Data Question	744
Other times, other places . . . The Global Banking Crisis and the Great Depression	727
Consider this . . . Was There a Credit Crunch During the 1990–1991 Recession?	738
Moving from theory to practice . . . Japan Attacks Credit Crunch, <i>The Wall Street Journal</i> , 11/13/98	740

<b>CHAPTER 28</b>	<b>Inflation: Causes and Consequences</b>	<b>745</b>
	Explaining Price Level Changes	746
	Causes of Price Level Changes	747
	Causes of Price Level Fluctuations	747
	Sustained Changes in the Price Level: Inflation	750
	Costs of Inflation	752
	Expected Inflation	752
	Unexpected Inflation	753
	Inflation Uncertainty	754
	Inflation and Monetary Policy	755
	Cost-Push Inflation	755
	Demand-Pull Inflation	756
	Costs of Reducing Inflation	758
	New Classical Disinflation: Reducing Inflation Cold Turkey	758
	New Keynesian Disinflation: Reducing Inflation Gradually	759
	Central Bank Credibility	761
	Strategies for Building Credibility	762
	Rules versus Discretion	765
	Price Controls and Credibility	766
	Review Questions, Analytical Problems	770
	Data Questions	772
	Appendix: Inflation versus Unemployment: The Phillips Curve	772
	Other times, other places . . . Central Bank Credibility in the United States and Japan	761
	Consider this . . . Can Credibility Enhance Central Bank Flexibility?	766
	Moving from theory to practice . . . Growth or Inflation?, <i>The Wall Street Journal</i> , 9/30/98	768
	<b>Glossary</b>	<b>A-1</b>
	<b>Answer Section</b>	<b>A-16</b>
	<b>Index</b>	<b>A-37</b>
