15896655

TABLE OF CONTENTS

Developing Intuitive and Interactive Software Demonstrators for Computational Design Methods
Gourtovaia, M.; Shea, K.; Bracewell, R. 1

Structural Systems Optimization Techniques for the Building Industry
Baldock, R.; Shea, K. 11

An Intelligent Finite Element Method
Javadi, A. A.; Tan, T. P.; Elkassas, A. S. I. 16

An intelligent self-learning Genetic Algorithm
Javadi, A. A.; Farmani, R.; Tan, T. P. 26

Damage Detection in a Prestressed Concrete Test Beam by Means of FE-Model Updating
Savov, K.; Wenzel, H. 36

System Identification of a Steel Frame: Comparison between Frequency and Time Domain Analysis
Veit, R.; Wenzel, H. 40

Measure data – based Lifetime Estimation of the Europa Bridge due to Traffic Load
Veit, R. Wenzel, H. 45

Scenarios for Deployment of Semantic Web and Wireless Communication Technologies
Ruikar, D.; Anumba, C.; Aziz, Z.; Carrillo, P. M.; Bouchlaghem, N. M. 55

A situated Classification Solution of Constructability Analysis Tasks for Agent Support in Steel Structures Design
Ugwu, O. O.; Anumba, C. J. 66

Fuzzy case-based Reasoning for Bridge Management System
Melhem, H. G.; Cheng, Y.; Kossler, D. 76

Interactive Visualisation for Decision Support and Evaluation of Robustness using Evolutionary Computing
Packham, I.S.J.; Rafiq, M.Y.; Borthwick, M.F.; Denham, S.L. 86

Improved Understanding of Rainfall Runoff Modelling using Interactive Visualisation and Evolutionary Computing
Packham, I.S.J.; Borthwick, M.F.; Rafiq, M.Y.; Denham, S.L. 96

Improving the reliability of system identification
Robert-Nicoud, Y.; Raphael, B.; Smith, I. F. C. 100

Generation of Terrorist Scenarios for Water Distribution Systems: An Evolutionary Computation Approach
Wadda, M. M.; Skolicki, Z.; Arciszewski, T.; De Jong, K. 110

Genetic Programming based Fuzzy System Design for Knowledge Representation in Structural Engineering
Freischlad, M.; Albert, A.; Pullmann, T.; Lubasch, P.; Schnellenbach-Held, M. 120

An Agent-Based Quotation Processing in the Architecture of SiReAM
Geibig, O.; Schnellenbach-Held, M. 128

GIS - based Decision Support system for Localisation of waste Depots
Chas, G.; Borkowski, A. 132

Implicit Modelling and Neural Identification in Structural Engineering
Waszczyszyn, Z.; Ziemianski, L. 136

Evolutionary Methods and Graph Grammars in Design and Optimization of Skeletal Structures
Grabska, E.; Nikodem, P.; Strug, B. 146

Representing the Problem Domain in Stochastic Search Algorithms
Zhang, Y.; Miles, J. 156

Using The Analytic Hierarchy Process to design a Construction Supply Chain
Jiang, A.; Issa, R. R.; O'Brien, W. 169

Optimization of Stochastic Linear Schedules
Flood, I.; Issa, R. R.; Troffin, I. 182

Managing Change and Process Integration Using Adaptive Workflow
Yeoh, M. L.; Anumba, C. J.; Chung, P. W. H.; El-Hamalawi, A.; Motawa, I. 190

Architecture of a Knowledge Based System for Computer Supported Cooperative Design Processes
Hartmann, M.; Pullmann, T.; Schnellenbach-Held, M. 195
