Acknowledgments xv

Chapter 1
Introduction 1

1.1 The Nature of Economic Data 1
1.2 Tools for Microeconomic Data Collection 1
1.3 Purpose and Design of the Monograph 3
1.4 Archives and Confidentiality 4
1.5 Some Principles for the Development of Data Archives 5
1.6 Summary 9

Chapter 2
A Brief History of the WAIS Data Archive 11

2.1 Motivation 11
2.2 Concepts Underlying the Tax Record Sample 12
2.3 The Basic Data Files 15
2.4 Processing the Data 21
2.5 Summary 26

Chapter 3
The Substantive Character of the WAIS Archive 29

3.1 The Universe 29
3.2 Alternative Structures for Information in the Archive 33
3.3 Defining Explanatory Variables 39
3.4 Multivariate Analysis 42
3.5 Conclusions 47

Chapter 4
The Nature and Nurture of Linked Information 49

4.1 Substantive Characteristics of the SSA Records 49
4.2 General Features of the Data Linkage 52

4.3 Collection and Linkage of the Social Security Earnings Record (ER's) 53
4.4 Supplementary Age Data Collection 56
4.5 The Structure of the Social Security Benefit Data 58
4.6 Processing the Social Security Benefit Data 63
4.7 Summary 67

Chapter 5
The Methodology of Data Development 69

5.1 Concepts for Data Handling 69
5.2 Recycling 72
5.3 Data Descriptors 79
5.4 Predecessor and Successor Relations Among Data Descriptors 81
5.5 Convenient Data Linkages 85
5.6 Conclusions 96

Chapter 6
Error Detection and Error Correction 99

6.1 Refinements in the Concepts of Recycling 99
6.2 Detection of Errors 109
6.3 Flexibility in Error Detection and Correction 114

Chapter 7
Housekeeping and Documentation 117

7.1 Functions and Standards for a Housekeeping System 117
7.2 Documentation and Process 118
7.3 Program Documentation 122
7.4 The Tape Inventory 124
7.5 Systems Procedures, Interactive Computing, and Housekeeping 127
7.6 File Segmentation and Secondary Memory Media 127
7.7 Conclusions 130

Chapter 8
On the Horizon–Some Recent Experiences and Their Implications 133

8.1 The Use of Pointers to Link Records in an Archive 133
8.2 Pointers, Statistical Analysis, and Program Simplification 143
8.3 Random or Hashed Storage of Records 145
8.4 Applications of Linkage and Hashed Files–The Merging of Identifiers From the First and Second Tax Record Collections 147
8.5 File Organization Using Indicators and Pointers 149
8.6 Conclusions 154

Chapter 9
The Data Archive, a Management Information System 157

9.1 Requirements of a Management Information System (MIS) 157
9.2 Procedures to Implement MIS Concepts 158
9.3 The Evolution of WAIS as a Data Archive and an MIS 158

Appendixes 161

A WAIS Bibliography 163
B Assignment of Identifiers to Taxpayers and Beneficiaries 165
C Beneficiary Record Structure 171
D Documentation on Program UPDATEAL 173
E Database Document for Merged Master File 1946-1964 177
F Detecting Inconsistencies in the Master File 267
