Topological Methods in Walrasian Economics

Fachbereich Mathematik
Technische Hochschule Darmstadt

Inv.-Nr. *B 13697*

Springer-Verlag
Berlin · Heidelberg · New York 1974

CONTENTS

1. The Economic Framework	3
2. Introduction to the Mathematics	15
3. Differentiable Manifolds and Mappings , Tangents , Vectorfields	25
4. Regular Equilibria . A First Approach	40
5. Scarf's Example	47
6. Excess Demand Functions	56
7. Debreu's Theorem on the Finiteness of the Number of Equilibria of an Economy	67
8. Continuity of the Walras Correspondence for C^0 Demand Functions	73
9. Density of Transversal Intersection	89
10. Regular Economies	96
11. Stability Questions and the Number of Equilibria	104
12. Large Economies	117
Some Standard Notation	126
References	127
