

THE ADVANCED THEORY OF STATISTICS

Sir Maurice Kendall, Sc.D., F.B.A.

Alan Stuart, D.Sc. (Econ.)

Emeritus Professor of Statistics in the University of London

and

J. Keith Ord, Ph.D.

Professor of Management Science at the Pennsylvania State University

IN THREE VOLUMES

Volume 3

DESIGN AND ANALYSIS,
AND TIME-SERIES

Fourth edition

Quis separabit nos

CHARLES GRIFFIN & COMPANY LIMITED
London & High Wycombe

CONTENTS

<i>Chapter</i>	<i>Page</i>
35. Analysis of Variance in the Linear Model: Classified Data	1
36. Other Models for the Analysis of Variance	63
37. The Assumptions of the Analysis of Variance	94
38. The Design of Experiments	133
39. Sample Survey Theory: Designs	184
40. Sample Survey Theory: Supplementary Information	234
41. Multivariate Distribution Theory	267
42. Tests of Hypotheses in Multivariate Analysis	295
43. Canonical Variables	320
44. Classification: Discrimination and Clustering	370
45. Time-Series: General	422
46. Time-Series: Trend and Seasonality	450
47. Stationary Time-Series	501
48. The Sampling Theory of Serial Correlations	547
49. Spectrum Analysis	577
50. Time-Series: Estimation, Modelling and Forecasting	612
51. Multiple Time-Series	657
Envoi	695
Appendix Tables	697
References	711
Index	755
