

technology transfer programme

→ DOWN TO EARTH

How space technology
improves our lives

Contents

→ Motor industry

Airbag sensors from space technology.....	8
Space technology to soothe convertible ride.....	10
Spacecraft docking technology improves quality of vehicle assembly process.....	12

→ Civil protection

Dam protection using space technology.....	14
Electronic 'nose' sniffs fire hazards.....	16
Better flood prediction using satellite navigation technology.....	18
Maintenance and inspection: from space to playground.....	20
High-resolution deformation monitoring at lower cost.....	22
Saving lives with satellite navigation data.....	24

→ Health

Removing biocontaminants from air using plasma.....	26
Athlete training aid.....	28
Space sensor improves medical analysis and environmental protection.....	30
Space technology helps to break long jump world record.....	32
Space technology to make life easier for diabetics.....	34

→ Mobile applications

Clever location information.....	36
Tourist information wherever you are.....	38
Tracking your carbon footprint.....	40

→ Natural resources

Space radar to improve mine safety.....	42
Releasing pressure on water management.....	44
Space technology monitors mining trucks and giant excavators.....	46
Space technology helps to find natural resources.....	48
Better hams with space technology.....	50

→ Navigation and communication

Digital television using space software.....	52
Racing Alonso and Hamilton in real time.....	54
Public transport on demand.....	56
Saving fuel and safeguarding the environment with smart driving.....	58
Social networking via satellite.....	60

→ Security

Detecting 'dirty' bombs with gamma-ray technology.....	62
Satellite techniques to monitor offshore oil and gas fields.....	64
No chance for hidden guns.....	66
Eye-screen system displays information in front of wearer's eyes.....	68
Satellite tracking makes transport of hazardous waste safer.....	70
Low-cost security monitoring using satellite telecommunications.....	72
Space technology secures construction site machinery.....	74
