# SHOCK AND VIBRATION HANDBOOK

---

**Cyril M. Harris** Editor in Chief

*Charles Batchelor Professor Emeritus of Electrical  
Engineering and Professor Emeritus of Architecture  
Columbia University*

*First Edition of the Shock and Vibration Handbook (1961)*

*Edited by*

*Cyril M. Harris and Charles E. Crede*

**Fourth Edition**

**McGRAW-HILL**

New York San Francisco Washington, D.C. Auckland Bogotá  
Caracas Lisbon London Madrid Mexico City Milan  
Montreal New Delhi San Juan Singapore  
Sydney Tokyo Toronto

# CONTENTS

---

Preface xi

---

**Chapter 1. Introduction** 1.1

Cyril M. Harris, *Charles Batchelor Professor Emeritus of Electrical Engineering, Columbia University, New York, NY 10027.*

---

**Chapter 2. Basic Vibration Theory** 2.1

Ralph E. Blake, *formerly Consultant, Technical Center of Silicon Valley, San Jose, CA.*

---

**Chapter 3. Vibration of a Resiliently Supported Body** 3.1

Harry Himelblau, *Member of Technical Staff, Jet Propulsion Laboratory, Pasadena, CA 91109.*

AND

Sheldon Rubin, *Distinguished Engineer, The Aerospace Corporation, El Segundo, CA 90009.*

---

**Chapter 4. Nonlinear Vibration** 4.1

Fredric Ehrich, *Consultant, Marblehead, MA 01945.*

AND

H. Norman Abramson, *Retired Executive Vice President, Southwest Research Institute, San Antonio, TX 78228.*

---

**Chapter 5. Self-Excited Vibration** 5.1

Fredric Ehrich, *Consultant, Marblehead, MA 01945.*

---

**Chapter 6. Dynamic Vibration Absorbers and Auxiliary Mass Dampers** 6.1

F. Everett Reed, *formerly President, Littleton Research and Engineering Corporation, Littleton, MA.*

---

**Chapter 7. Vibration of Systems Having Distributed Mass and Elasticity** 7.1

William F. Stokey, *Professor Emeritus of Mechanical Engineering, Carnegie-Mellon University, Pittsburgh, PA 15236.*

---

**Chapter 8. Transient Response to Step and Pulse Functions** 8.1

Robert S. Ayre, *Professor Emeritus of Civil Engineering, University of Colorado, Boulder, CO 80309.*

|   |             |
|---|-------------|
| <b>Chapter 9. Effect of Impact on Structures</b>  | <b>9.1</b>  |
| <hr/>   |             |
| <i>William H. Hoppman II, Professor Emeritus of Engineering, University of South Carolina, Columbia, SC.</i>  |             |
| <b>Chapter 10. Mechanical Impedance</b>   | <b>10.1</b> |
| <hr/>   |             |
| <i>Elmer L. Hixson, Professor of Electrical Engineering, The University of Texas at Austin, Austin, TX 78712.</i>   |             |
| <b>Chapter 11. Statistical Methods for Analyzing Vibrating Systems</b>  | <b>11.1</b> |
| <hr/>   |             |
| <i>Richard G. De Jong, Professor of Engineering, Calvin College, Grand Rapids, MI 49546.</i>  |             |
| <b>Chapter 12. Vibration Transducers</b>  | <b>12.1</b> |
| <hr/>   |             |
| <i>Robert M. Whittier, General Manager, Silicon Sensors</i>   |             |
| AND   |             |
| <i>Eldon E. Eller, Consulting Engineer</i>  |             |
| AND   |             |
| <i>Anthony Chu, Product Manager, Endevco, San Juan Capistrano, CA 92675.</i>  |             |
| <b>Chapter 13. Vibration Measurement Instrumentation</b>  | <b>13.1</b> |
| <hr/>   |             |
| <i>Robert B. Randall, Senior Lecturer, University of New South Wales, Sydney, NSW 2052, Australia</i>   |             |
| <b>Chapter 14. Spectrum Analyzers and Their Use</b>   | <b>14.1</b> |
| <hr/>   |             |
| <i>Robert B. Randall, Senior Lecturer, University of New South Wales, Sydney, NSW 2052, Australia</i>   |             |
| <b>Chapter 15. Vibration Measurement Techniques</b>   | <b>15.1</b> |
| <hr/>   |             |
| <i>Cyril M. Harris, Charles Batchelor Professor Emeritus of Electrical Engineering, Columbia University, New York, NY 10027.</i>                                  |             |
| <b>Chapter 16. Condition Monitoring of Machinery</b>  | <b>16.1</b> |
| <hr/>   |             |
| <i>Joëlle Courrech, Condition Monitoring Systems Product Manager, Brüel &amp; Kjær, 91541 Mennecy, France.</i>  |             |
| <b>Chapter 17. Strain-Gage Instrumentation</b>  | <b>17.1</b> |
| <hr/>   |             |
| <i>Earl J. Wilson, formerly Chief of Strain and Environmental Branch, National Aeronautics and Space Administration, Flight Research Center, Edwards AFB, CA.</i> |             |
| <b>Chapter 18. Calibration of Transducers</b>   | <b>18.1</b> |
| <hr/>   |             |
| <i>M. Roman Serbyn, Adjunct Lecturer, Morgan State University, Baltimore, MD 21239.</i>   |             |
| AND   |             |
| <i>Jing Lin, Research Engineer, PCB Piezotronics, Inc., Depew, NY 14043.</i>  |             |
| <b>Chapter 19. Vibration Standards</b>  | <b>19.1</b> |
| <hr/>   |             |
| <i>Paul H. Maedel, Jr., Consultant, Broomall, PA 19008.</i>   |             |

|   |              |
|---|--------------|
| <b>Chapter 20. Test Criteria and Specifications</b>   | <b>20.1</b>  |
| <hr/>   |              |
| Allan G. Piersol, <i>Consultant, Piersol Engineering Company, Woodland Hills, CA 91364.</i>                                     |              |
| <b>Chapter 21. Modal Analysis and Testing</b>   | <b>21.1</b>  |
| <hr/>   |              |
| Randall J. Allemang, <i>Professor, Structural Dynamics Research Laboratory, University of Cincinnati, Cincinnati, OH 45221.</i> |              |
| AND   |              |
| David L. Brown, <i>Professor, Structural Dynamics Research Laboratory, University of Cincinnati, Cincinnati, OH 45221.</i>      |              |
| <b>Chapter 22. Concepts in Vibration Data Analysis</b>  | <b>22.1</b>  |
| <hr/>   |              |
| Allen J. Curtis, <i>Retired Chief Scientist, Hughes Aircraft Company, El Segundo, CA 90245.</i>                                 |              |
| AND   |              |
| Steven D. Lust, <i>Scientist/Engineer, Hughes Aircraft Company, El Segundo, CA 90245.</i>                                       |              |
| <b>Chapter 23. Concepts in Shock Data Analysis</b>  | <b>23.1</b>  |
| <hr/>   |              |
| Sheldon Rubin, <i>Distinguished Engineer, The Aerospace Corporation, El Segundo, CA 90009.</i>                                  |              |
| <b>Chapter 24. Seismically-Induced Vibration of Structures</b>  | <b>24.1</b>  |
| <hr/>   |              |
| William J. Hall, <i>Professor of Civil Engineering Emeritus, University of Illinois at Urbana-Champaign, Urbana, IL 61801.</i>  |              |
| <b>Chapter 25. Vibration Testing Machines</b>   | <b>25.1</b>  |
| <hr/>   |              |
| David O. Smallwood, <i>Distinguished Member of Technical Staff, Sandia National Laboratory, Albuquerque, NM 87185</i>           |              |
| <b>Chapter 26. Part I: Conventional Shock Testing Machines</b>  | <b>26.1</b>  |
| <hr/>   |              |
| Richard H. Chalmers, <i>Consultant, Induced Environments Consultants, San Diego, CA 92107.</i>                                  |              |
| <b>Chapter 26. Part II: Pyrotechnic Shock Testing Machines</b>  | <b>26.17</b> |
| <hr/>   |              |
| Neil T. Davie, <i>Senior Member of Technical Staff, Sandia National Laboratory, Albuquerque, NM 87185.</i>                      |              |
| AND   |              |
| Vesta Bateman, <i>Senior Member of Technical Staff, Sandia National Laboratories, Albuquerque, NM 87185.</i>                    |              |
| <b>Chapter 27. Application of Digital Computers</b>   | <b>27.1</b>  |
| <hr/>   |              |
| Allen J. Curtis, <i>Retired Chief Scientist, Hughes Aircraft Company, El Segundo, CA 90245.</i>                                 |              |
| AND   |              |
| Steven D. Lust, <i>Scientist/Engineer, Hughes Aircraft Company, El Segundo, CA 90245.</i>                                       |              |
| <b>Chapter 28. Part I: Matrix Methods of Analysis</b>   | <b>28.1</b>  |
| <hr/>   |              |
| Stephen H. Crandall, <i>Ford Professor of Engineering Emeritus, Massachusetts Institute of Technology, Cambridge, MA 02139.</i> |              |
| AND   |              |
| Robert B. McCalley, Jr. <i>Retired Engineer, General Electric Company, Schenectady, NY 12309.</i>                               |              |

|  |              |
|--|--------------|
| <b>Chapter 28. Part II: Finite Element Models</b>  | <b>28.27</b> |
| <hr/>  |              |
| Harry G. Schaeffer, <i>Professor, University of Louisville, Louisville, KY 40209.</i>  |              |
| <b>Chapter 29. Part I: Vibration of Structures Induced by Fluid Flow</b>   | <b>29.1</b>  |
| <hr/>  |              |
| Robert D. Blevins, <i>Chief, Structural Dynamics, Rohr Industries, Chula Vista, CA 92012.</i>  |              |
| <b>Chapter 29. Part II: Vibration of Structures Induced by Wind</b>  | <b>29.21</b> |
| <hr/>  |              |
| A. G. Davenport, <i>Director, Boundary Layer Wind Tunnel Laboratory, and Chairman of the Department of Civil Engineering, University of Western Ontario, London, Ont., Canada.</i> |              |
| AND  |              |
| Milos Novak, <i>Late Professor of Civil Engineering, University of Western Ontario, London, Ont., Canada.</i>  |              |
| <b>Chapter 30. Theory of Vibration Isolation</b>   | <b>30.1</b>  |
| <hr/>  |              |
| Charles E. Crede, <i>Late Professor of Mechanical Engineering and Applied Mechanics, California Institute of Technology, Pasadena, CA 91125.</i>                                   |              |
| AND  |              |
| Jerome E. Ruzicka, <i>formerly Barry Controls, Brighton, MA 02135.</i>   |              |
| <b>Chapter 31. Theory of Shock Isolation</b>   | <b>31.1</b>  |
| <hr/>  |              |
| R. E. Newton, <i>Professor Emeritus of Mechanical Engineering, United States Naval Postgraduate School, Monterey, CA 93943.</i>  |              |
| <b>Chapter 32. Vibration Isolators</b>   | <b>32.1</b>  |
| <hr/>  |              |
| Romulus H. Racca, <i>Senior Staff Engineer, Barry Controls, Brighton, MA 02135.</i>  |              |
| <b>Chapter 33. Selection and Application of Vibration Isolators</b>  | <b>33.1</b>  |
| <hr/>  |              |
| Romulus H. Racca, <i>Senior Staff Engineer, Barry Controls, Brighton, MA 02135.</i>  |              |
| <b>Chapter 34. Engineering Properties of Rubber</b>  | <b>34.1</b>  |
| <hr/>  |              |
| Ronald J. Schaefer, <i>President, Dynamic Rubber Technology, Medina, OH 44256.</i>   |              |
| <b>Chapter 35. Engineering Properties of Metals Used in Equipment Design</b>   | <b>35.1</b>  |
| <hr/>  |              |
| James E. Stallmeyer, <i>Professor Emeritus of Civil Engineering, University of Illinois at Urbana-Champaign, Urbana, IL 61801.</i>   |              |
| <b>Chapter 36. Material Damping and Slip Damping</b>   | <b>36.1</b>  |
| <hr/>  |              |
| Lawrence E. Goodman, <i>Professor of Mechanics and Record Professor of Civil Engineering Emeritus, University of Minnesota, Minneapolis, MN 55455.</i>                             |              |
| <b>Chapter 37. Applied Damping Treatments</b>  | <b>37.1</b>  |
| <hr/>  |              |
| David I.G. Jones, <i>Consultant, D/Tech Systems, Dayton, OH 45459.</i>   |              |
| <b>Chapter 38. Torsional Vibration in Reciprocating and Rotating Machines</b>  | <b>38.1</b>  |
| <hr/>  |              |
| Ronald L. Eshleman, <i>President, Vibration Institute, Willowbrook, IL 60514.</i>  |              |

|   |              |
|---|--------------|
| <b>Chapter 39. Part I: Balancing of Rotating Machinery</b>  | <b>39.1</b>  |
| <hr/>   |              |
| Douglas G. Stadelbauer, <i>formerly Executive Vice President, Schenck Corp., Deer Park, NY 11729.</i>   |              |
| <b>Chapter 39. Part II: Vibration Induced by Shaft Misalignment</b>   | <b>39.37</b> |
| <hr/>   |              |
| John D. Piotrowski, <i>President, Turvac Inc., Cincinnati, OH 45240.</i>  |              |
| <b>Chapter 40. Machine-Tool Vibration</b>   | <b>40.1</b>  |
| <hr/>   |              |
| Eugene I. Rivin, <i>Professor, Wayne State University, Detroit, MI 48202.</i>   |              |
| <b>Chapter 41. Package Engineering</b>  | <b>41.1</b>  |
| <hr/>   |              |
| Masaji T. Hatae, <i>formerly Manager, Transportability Engineering, Advanced Systems Division, Northrop Corporation, Pico Rivera, CA</i>            |              |
| <b>Chapter 42. Theory of Equipment Design</b>   | <b>42.1</b>  |
| <hr/>   |              |
| E. G. Fischer, <i>formerly Consulting Engineer, Westinghouse Electric Corporation, Pittsburgh, PA.</i>  |              |
| <b>Chapter 43. Practice of Equipment Design</b>   | <b>43.1</b>  |
| <hr/>   |              |
| E. G. Fischer, <i>formerly Consulting Engineer, Westinghouse Electric Corporation, Pittsburgh, PA.</i>  |              |
| AND   |              |
| Harold M. Forkois, <i>formerly, U.S. Naval Research Laboratory, Washington, DC.</i>   |              |
| <b>Chapter 44. Effects of Shock and Vibration on Humans</b>   | <b>44.1</b>  |
| <hr/>   |              |
| Henning E. von Gierke, <i>Director Emeritus, Biodynamics and Bioengineering Division, Armstrong Laboratory, Wright-Patterson AFB, OH 45433-7901</i> |              |
| AND   |              |
| Anthony J. Brammer, <i>Senior Research Officer, Institute for Microstructural Sciences, National Research Council, Ottawa, ON K1A 0R6, Canada.</i>  |              |
