CONTENTS

Preface	v
Introduction	
G. Sovran, General Motors Research Laboratories	1
SESSION I	
Chairperson: P.B.S. Lissaman, AeroVironment, Incorporated	5
The Aerodynamic Drag of Cars Current Understanding, Unresolved Problems, and Future Prospects	
W.-H. Hucho, Volkswagenwerk AG.	7
References	39
Discussion	40
The Drag Related Flow Field Characteristics of Trucks and Buses	
W. T. Mason, Jr. and P. S. Beebe, General Motors Research Laboratories.	45
References	89
Discussion	91
Some Effects of Free-Stream Turbulence and the Presence of the Ground on the Flow Around Bluff Bodies	
P. W. Bearman, Imperial College	95
References	113
Discussion	114

SESSION II

Chairperson, S. E. Widnall, Massachusetts Institute of Technology	129
Some General Characteristics and Properties of Three-Dimensional Flow Fields	
E. C. Maskell	131
Discussion	131
Mechanisms of Two and Three-Dimensional Base Drag	
D. J. Maull, Cambridge University	137
References	153
Discussion	154
Drag-Reducing Techniques for Axi-symmetric Bluff Bodies	
W. A. Mair, Cambridge University	161
References	178
Discussion	179

SESSION III

Chairperson: A.M.O. Smith, University of California at Los Angeles	189
The Effect of Base Slant on the Flow Pattern and Drag of Three-Dimensional Bodies	
T. Morel, General Motors Research Laboratories	191
References	216
Discussion	217
Recent Japanese Research on Three-Dimensional Bluff-Body Flows Relevant to Road-Vehicle Aerodynamics	
H. Nakaguchi, University of Tokyo	227
References	245
Discussion	246
Interaction Effects on the Drag of Bluff Bodies in Tandem	
A. Roshko and K. Koenig, California Institute of Technology	253
References	273
Discussion	273

SESSION IV

Chairperson: M. V. Morkovin, Illinois Institute of Technology	287
Numerical Modeling of Blunt-Body Flows – Problems and Prospects	
M. T. Landahl, Massachusetts Institute of Technology	289
References	301
Discussion	302
Prospects for Numerical Simulation of Bluff-Body Aerodynamics	
C. W. Hirt and J. D. Ramshaw, University of California Los Alamos Scientific Laboratory	313
References	348
Discussion	350
General Discussion and Outlook for the Future	
Moderator: M. V. Morkovin, Illinois Institute of Technology	357
Symposium Wrap-Up	
G. Sovran, General Motors Research Laboratories	369
Participants	373
Subject Index	379
